WATER BOND ISSUE IS DEFEATED

Order M'Millan to Take Navy Radio Sets

WILBUR EDICT TO BE OBEYED SAYS BACKER

Quarrel Between MacMillan, Navy Department May Cause Withdrawal

EQUIPMENT IS SENT

Commander of Official Detachment Told to Leave Party if Order Flouted

(By United Press)

WASHINGTON, D.C., June 24.—The MacMillan expedition unquestionably will take on standard navy equipment as desired by Secretary of the Navy Wilbur and proceed from Sydney, N. S., without delay, John O. La Gorce, acting president of the National Geographical society, backers of the expedition told the United Press today.

WASHINGTON, June 24.—Secretary of the Navy Wilbur today ordered Lieutenant Commander Richard Byrd, commander of the expedition, to leave the MacMillan expedition, to land his planes and personnel at Sydney, N. S., and leave the party if Commander MacMillan refused to take on naval radio equipment there as Wilbur desires.

Byrd replied by radio from the Peary acknowledging receipt of the message and saying that the expedition would not leave the Bowdoin with MacMillan aboard had not yet reached Sydney.

The navy department announced that it had no confirmation of reports that MacMillan had wired the expedition was returning.

WILBUR WOULD PROTECT THREE NAVY PLANES

BOSTON, June 24.—The order of the navy department for installation of further radio equipment aboard the vessels of the MacMillan expedition now at Sydney, N. S., was issued primarily to insure wireless direction finding facilities for the three naval airplanes, it was learned at the navy department here.

Equipment originally intended to be installed at Wiscasset, Me., is now enroute to Sydney aboard the Destroyer Putnam.

The Putnam is expected to arrive in Sydney some time tomorrow, it was said. No report has been received at naval headquarters here on the arrival at Sydney of the "Bowdoin," Lieut. Commander Donald MacMillan's personal command.

MACMILLAN'S ACTION PRECIPITATES QUARREL

WASHINGTON, June 24.—Refusal of Commander Donald MacMillan of the polar expedition to carry naval radio equipment has precipitated a quarrel with Secretary of the Navy Wilbur which may cause Wilbur to withdraw the naval planes and personnel from the expedition.

Wilbur has sent a peremptory message to Lieut. Commander Byrd, in charge of the seven naval flyers and the three planes of the expedition to get MacMillan to discard his commercial short wave wireless equipment, substituting for it the long wave navy equipment provided.

It is authoritatively learned that Byrd has been instructed to leave the expedition if MacMillan refuses to comply with Wilbur's request.

A naval destroyer today is pursuing the Peary, airplane ship of the expedition, with the navy equipment. The first stop of

Stray Bullet Clips Off Piece of Ear

LOS ANGELES, June 24.—H. F. Whitmore, 45, is minus the lobe of one ear today.

The piece of ear was shot off by a stray bullet while Whitmore was driving on a downtown street in his automobile.

Investigation revealed the bullet came from a trolley track. Deputy Sheriff J. M. Benton had accidentally dropped several shotgun shells on the tracks, and one of the shells fired when the wheels of a street car passed over it.

(By United Press)

CHICAGO, June 24.—William Darling Shepherd has indirectly confessed to the murder of Billy McClintock, the state charged today in its arguments to the jury for Shepherd's conviction.

George E. Gorman, first assistant state's attorney, made the charge as he resumed the address he started yesterday.

"This man Shepherd," Gorman declared, "had a guilty conscience and the voice of his conscience led him to make incriminating statements himself."

"No, he never said 'I killed Billy McClintock,' but he offered alibis and excuses and he fled from town. Those were indirect confessions of his guilt, and you gentlemen should keep them in your mind."

"Was Framing Alibi?"

"Even before the doctors attending Billy found out that the boy had typhoid fever, we find Shepherd telling Amelia Hall, one of the nurses, that he told him he had typhoid fever," Gorman asserted.

"Shepherd was framing an alibi. He knew that Billy had typhoid because he had fed him the deadly germs, but Billy didn't know it. He didn't know that his own guardian had poisoned him. No, Shepherd put the words in the mouth of the dying boy to protect himself."

Contrasted "Confessions"

Gorman then contrasted Shepherd's "indirect confessions" with the direct confession of "Dr." C. C. Faiman, who testified that he gave Shepherd three tubes of typhoid germs with the promise that he was to get \$100,000 after Billy McClintock's death.

"Here was a man," Gorman declared, "who stubbornly resisted making a confession. He wanted his share of Billy's money."

"But finally, when things looked bad, Faiman broke down and confessed."

"And Faiman told the truth. Why, in God's name, would a man confess murdering an innocent boy and accuse another man of the same crime if it wasn't true?"

"No, there is no doubt about it. Faiman's confession is true. Couple it with Shepherd's indirect confession and you have a positive connecting chain that leads to only one conclusion: Shepherd is guilty."

"Money at Bottom"

Money is at the bottom of the prosecution of William D. Shepherd on the charge that he murdered his wealthy ward, Billy McClintock, William Scott Stewart, chief attorney for the defense, charged today in his argument for acquittal.

"If Mr. Shepherd had taken a hatchet and murdered his own son, this would simply be another murder case," Stewart argued. "But in this case, Billy McClintock had a lot of money and there are a lot of people who are jealous because Billy gave it to Shepherd. That's why Shepherd is being prosecuted and persecuted."

(By United Press)

part in the slaying of Albert Anderson, United States customs guard, in the San Francisco apartment of two women, Lee Grigsby, 24, formerly of Santa Ana, was taken back to San Francisco today from Santa Barbara where he fled following the murder last Sunday night.

Grigsby is said to be a brother of Floyd E. Grigsby, popular San Francisco orchestra leader, who was manager of "Grigsby's Californians" who last year played for dances at American Legion hall here and at the Balboa pavilion. The brothers resided together when they lived in this city.

Anderson, mortally wounded, was found in the elevator of a fashionable apartment house. He had been struck on the head with a blunt instrument and then stabbed in the chest. He died en route to the hospital.

Mrs. Dora Howard, who is said to have admitted stabbing Anderson in self-defense, and her companion, Mrs. Elsie Lotte, are charged with the murder. The women, both young and pretty natives, lived together in the San Francisco apartment house.

Leo Grigsby was arrested at the airport and taken to the state department today that the anti-fur aspect as a result of the insistence of unruly elements to demonstrate on Kulangsoo," the

SEND TROOPS IN AS CHINESE PERIL GROWS

Refugees Pour Into British Settlement After Clash With Native Students

SOLDIERS EN ROUTE

Americans Enroll In Hong Kong Constabulary; Will Help Safeguard Whites

(By United Press)

While foreign refugees, including many Americans, are pouring into strike-ridden Hong Kong from the foreign settlement, Shamen, at Canton, British and Indian troops are being dispatched to Shamen from Hong Kong.

This move, following a clash yesterday at Canton involving Chinese students and British marines in which one Frenchman was killed and several British soldiers slightly injured, indicates the British intend to defend Shamen with arms if necessary.

It takes on added significance in view of a Hong Kong dispatch relating that before the British marines replied to the Chinese fire, the British consul had warned the Canton government that any Chinese attempt to enter the foreign concession would be forcibly resisted and the government held responsible.

AMERICAN CONSUL REPORTS "GRAVE ASPECT"

WASHINGTON, June 24.—American Consul Leroy Webber, at Amoy, China, called the state department today that the anti-fur situation there had assumed a "grave aspect as a result of the insistence of unruly elements to demonstrate on Kulangsoo," the

PRESIDENT AND MRS. COOLIDGE ON VACATION

SWAMPSCOTT, Mass., June 24.—President Coolidge came home to his native New England to begin a two months' vacation freed of the care and climate of Washington. He found a welcoming crowd of fellow citizens of Massachusetts waiting to greet him.

The special train which brought the President and Mrs. Coolidge from Washington, arrived at Salem, four miles from here at 7 a. m. standard time.

Clear cool weather gave Mr. Coolidge immediate assurance that he had successfully evaded the heat which he had left the capital to escape.

At the President's request no formal welcome had been arranged. Mr. and Mrs. Coolidge were met by Mr. and Mrs. Frank Stearns, who will be their neighbors during the summer. They motored to Red Gables, the Stearns summer home, for breakfast.

The presidential party arrived here shortly before 9 o'clock after a delightfully early morning ride of three and a half miles from Salem.

Drawn up on the lawn in front of "Red Gables," the home of Mr. and Mrs. Frank Stearns, near "White Court" was the crack contingent of marines, commanded by Lieut. Edgar Allan Poe.

As the President and Mrs. Coolidge stepped from the automobile to be greeted by Mrs. Stearns, who will be their hostess until "White Court" is put into final condition for the vacation, the marines came to a snappy salute.

Swampscott, Mass., June 24.—The President and Mrs. Coolidge, officially welcomed the President and presented a huge bouquet of orchids to Mrs. Coolidge from their wives.

The President and Mrs. Coolidge planned to spend the day at "Red Gables" where they have been vacationing guests on many occasions.

PRESIDENT'S SON AIDS GRANDDAD SHINGLE HOME

PLYMOUTH, Vermont, June 24.—"I didn't know it," said Mr. Coolidge yesterday as he set off for his vacation today at "White Court," Swampscott, Mass., John Coolidge, his son, was busy engaged here shingling the home of Colonel John C. Coolidge, his grandfather.

He is also aiding Ed Toie, the village mason, in constructing a new chimney.

John arrived here 10 days ago from Amherst, Mass., where he recently completed his first year of college.

BELIEVE DEFEAT OF WATER BONDS WAS DUE TO LACK OF EDUCATION, ORGANIZATION

Belief that the defeat of the water bonds at yesterday's special election was more due to lack of an educational campaign and organization than to a general desire to keep down taxes, was expressed today in various parts of the city.

The opinion was advanced by many people that if there had been sufficient time to acquaint the voters with all the features of the proposition, there would have been but little opposition.

While there is a certain element in the city that would vote against "any kind of bonds on general principles," the great majority of residents are progressive citizens who would favor any improvement that would mean community development, it was pointed out by those favoring the project. There was not so much the question of voting for water as it was to give approval to a scheme that would furnish but temporary relief at an unwarranted expense.

Here are the opinions of different citizens:

Phil Lutz, merchant tailor—"Many people were confused by arguments put forth by the opposition. As a rule bond issues are not popular with taxpayers and it takes a good deal of educational work to carry a bond election, a factor which was overlooked by those favoring the project. There was a feeling that a goodly portion of the money would be wasted on what was considered a temporary relief. That feeling coupled with an aversion to raise the tax rate found expression at the polls."

Maurice J. Cahill, manager of Hotel Rossier—"The bonds were defeated because of the lack of a well organized educational campaign showing the need of the proposed improvement. If the city fathers had gotten the issue to the people in a clear and concise manner, outlining the probable proposed extensions and improvements, reasons for same, method of financing including how the bonds would be sold to save interest charges, there is every reason to believe that the bonds would have carried."

"The time has passed when people vote bonds just because they are asked to do so, they are beginning to take an active interest in all public affairs and they want to know how the money is going to be used before they vote for it."

Earl Busby, manager of Hotel Santa Ana—"Lack of organization is responsible for the defeat of the water bonds. Those who favored the proposition should have realized that it takes a two-third vote to win, and they should have turned out in force. It is safe to assume that those opposed to the bonds did not lose their chance to register their opposition."

Ira K. Akin, barber and small home owner—"The great majority of people did not know how to vote on the proposition. 'If you don't know how to vote, don't vote' was the rule adopted by the small home owners."

R. L. Bish, manager of St. Ann's Inn and well known real estate broker—"The bonds were lost because we have no city auditorium where the people can get together and discuss the affairs and problems of the city."

Ralph C. Smedley, general secretary of the Y. M. C. A.—"Lack of civic interest on the part of those in favor of the proposed improvement is responsible for the result of yesterday's election. The returns show that the opposition was well represented at the polls."

R. P. Mitchell, county superintendent of schools—"Yesterday's election result did not come as a big surprise to those in touch with the sentiment of the average voter. The view was expressed that the proposed outlay would have been an unnecessary expenditure of public funds. The people of Santa Ana want more water and are willing to pay for it. What is wanted is a county-wide project that will provide for water conservation, that is the impounding of water originating in the Santa Ana river valley, now going to waste into the ocean. Such a project would not only benefit the city people but aid the farmers."

James K. Carter, local agent of

FIRE AND CAR TAKE LIVES OF TWO CHILDREN

With the tiny caskets banked with flowers, the bodies of two little children lay today in the McAuley funeral parlors at Fullerton. Virginia Casto, 3 years old, only daughter of Mr. and Mrs. James W. Casto of Santa Fe Springs, died from the effects of inhaling flames and from shock following her rescue from the Casto home by her mother yesterday. Mrs. Casto also sustained burns of such a nature as to require her removal to a hospital.

The other body was that of Perry Milton Nelson, 5 years old, who died last night at Anaheim hospital from fracture of the skull sustained when he was hit by an automobile driven by Daniel E. Miller, Yorba Linda auto worker, who lives in Fullerton. Police did not hold Miller.

Both of the little children were to be buried this afternoon in Loma Vista cemetery. The interment of the Nelson boy was scheduled for this afternoon into the circumstances surrounding his death.

According to reports from Fullerton, the mother of the Casto girl was cleaning clothes with gasoline when the liquid exploded and the room in which she was working was enveloped in flames. The little girl, who had, but a few moments before, tugged at the skirts of her mother, inhaled the flames before her mother could rush her from the house.

The little boy was playing in the street in front of his home in Placentia and was screened by a heavy truck according to information received here. When he darted from behind the vehicle the lad was struck by Miller's car, it was related.

Mrs. Nelson died only a few weeks ago and four little children, including Perry Milton, were left without mother. Death struck again at the family yesterday and the grief at the loss of their mother was redoubled in the loss of the little brother, it was declared.

Heavy Loss Caused By Hospital Fire

PATTON, Calif., June 24.—Fire, believed caused by spontaneous combustion, destroyed the laundry plant at the Southern California State hospital here early today.

The hospital fire department succeeded in subduing the flames without outside aid. The blaze was confined to the laundry and it was not necessary to remove patients from the hospital wards.

Dr. John A. Reilly, superintendent, estimated the loss at \$35,000.

NEW SYSTEM TURNED DOWN BY CITIZENS

Negative Vote Overwhelms Proposal to Float Big Issue For Extensions

APATHY IS EVINCED

907 Cast Ballots in Favor Of Project; 1869 Register Opposition to Plan

THE PROPOSED BOND ISSUE

of \$1,206,000 for providing Santa Ana with a new municipal water system yesterday voted down to defeat with a "yes" vote of 907 and "no" vote of 1869.

Voters expressing themselves at the polls declared emphatically that they were not ready for the municipal water program.

The general apathy of residents was very strongly indicated by the fact that only 24 per cent of the registered voters of the city cast ballots. The total registration for the city, according to the county clerk, is 11,506. Only 2776 votes were polled.

Further evidence of the lack of interest on the part of residents was contained in the fact that less than 20 persons called the Register office last night to ascertain the result of the election. Usually on the night of an election it requires two or three persons to answer calls to the office by persons interested in results.

Council Faces Problem

Failure of the bonds leaves the city council with a problem on its hands — protection of the city against a possible shortage of water in an emergency.

C. H. Chapman, water commissioner on the city council, said today that as long as the people had voted against enlargement of the system, the council would worry along and do the best it can under the existing situation.

He declared that the city possibly could get along for two years without drilling more wells, but pointed out that the city would have to continue to live on the danger point of limited storage capacity.

"Under a peak demand we have storage capacity for 24 hours, and should there be a serious break down in the system anywhere we would be in a serious plight for water," the commissioner said.

Chapman also asserted that under a possible heavy drain because of fire, the storage supply would be exhausted in ten or twelve hours.

Three Wells Capped

The commissioner declared unfounded rumors prior to the election to the effect that the city had four wells capped that could be brought into use at any time. He

THINK GERMANY MAY JOIN 4-POWER PACT

LONDON, June 24.—Germany, according to reliable information today, has announced to the soviet government here definite intention of joining the proposed four-power security pact among France, England, Belgium and Germany.

This would repudiate an earlier Russo-German agreement to pursue an identical course regarding the League of Nations, since the pact would require Germany's entrance into the league.

Russia is reported preparing to send an unofficial observer to the league to prevent her entire isolation from western Europe.

WITHDRAWAL FROM COLOGNE ASSURED

BERLIN, June 24.—Reports here today said that Ambassador Hoesch, in Paris, had received definite assurances from Foreign Minister Briand that Cologne would be evacuated along with the Ruhr region on August 17.

(With Russia reported trying hard to prevent Germany entering the four power western security pact, the French assurance of early evacuation of the Ruhr is taken as a conciliatory move to offset the Russian pressure in Berlin. If the above report as to simultaneous Cologne evacuation proves true, this would undoubtedly go far to swing the Germans toward acceptance of the pact. It is recalled that the recent disarmament note to Germany pointed out that Cologne evacuation could be achieved by Germany's compliance with the Allied disarmament terms.)

U. S. ARMY AIRPLANES WILL GUARD FORESTS OF PACIFIC COAST DURING DRY SEASON

SAN FRANCISCO, June 24.—Nine army airplanes, operating from five bases on the Pacific coast, will this year guard forests against fires, it was announced here today by District Forester Paul G. Redington of the U. S. forest service.

Patrols will open about July 1. Regular flights over forest areas to locate fires will not be made but the planes will be used on reconnaissance of large fires, for confirming reports of fires and for detailed observation of forested areas after electrical storms or when smoke prevents location of fires from ground lookout stations.

Bases and pilots selected are:
Spokane—N. B. Mamer, Spo-

Kane; R. M. Freng, San Francisco;

Vancouver—D. D. Priestley,

Portland; S. G. Logg, Seattle.

Eugene—A. R. De Garmo, El

Monte, Calif.; A. R. Odoms,

Eugene.

Mather Field, Sacramento—

N. W. Potter, San Francisco;

Paul A. Anderson, San Diego;

Griffith Park, Los Angeles—

C. N. James, Los Angeles.

Lt. Lloyd Barnett, air ser-

vise, U. S. army, San Francisco, Presidio, will be liaison officer between the army and the forest service. Eight of the planes will come from Rockwell field, San Diego, and one from Salt Lake City.

Emergency landing fields throughout the coast states have been selected and marked.

foreign settlement at Amoy. The Amoy municipal council

has requested naval protection for the international settlement since the Chinese authorities informed the consular body that they could not guarantee protection of life and property in the settlement.

AMERICANS ENROLL AS SPECIAL POLICE

HONG KONG, June 24.—Americans to a man are enrolling in the special constabulary here, to

"do their bit" in meeting the situation caused by the general strike of Chinese. Women of the foreign colony are assisting as waitresses in the cafes, while hotels are serving meals cafeteria style since their usual waiters are out.

More than 10,000 operators are required to run the elevators in office and apartment buildings in New York City.

EXPLAIN REASONS FOR BOND DEFEAT

(Continued From Page 1.)

The American Railway Express company—"I voted for the bonds and asked my family to vote for them. I will always vote for water bonds, no matter how they propose to get the water. I ascribe yesterday's defeat to a well organized opposition, and to the attitude of the older people who as a rule are not enthusiastic about anything that will boost their tax bills."

A. L. Oiger, secretary Santa Ana Chamber of Commerce—"It is a civic disappointment that the bonds didn't carry. Which simply shows that the general public must be 'sold' on all matters for community advancement. If we had had a city auditorium where the citizens might have congregated and openly discussed the water situation, a plan could have been worked out that would have had almost the unanimous vote of Santa Ana."

Colonel S. H. Finley, county supervisor—"It is evident from yesterday's election results that the people have come to realize that it takes considerable money to finance water projects. The decisive vote against the proposition would further indicate that at least a large number of the city's population are willing to go along with the present facilities for the time being."

Dr. C. D. Ball, local physician and property owner—"At the present time there is no water shortage in Santa Ana. Yesterday's result at the polls should not be construed to effect that the people of Santa Ana are not willing to take care of its water supply. Eventually there will be a reservoir shortage, that must be provided for. What the people of Santa Ana are concerned in and willing to spend their money for is water conservation and development of new sources of supply instead of digging wells that will tap those already in use."

Former President Of Bank Arrested

LOS ANGELES, June 24.—Willis T. McConnell, former president of the First National bank, of Westinghouse Springs, S. D., was arrested by federal officers here today. McConnell was accused of making a false report to the comptroller of currency in an indictment returned recently at Sioux Falls, S. D.

One of Paland's most important exports is dried mushrooms.

Fundamentalism Favored In Vote

PORTLAND, Me., June 24.—An audience of 5000 persons showed itself to be approximately five to one for fundamentalism last night when a popular vote of that trend was given Dr. W. B. Riley, Minneapolis, executive secretary of the Christian Fundamentalists' association, in his debate with Dr. E. A. Cantrell, field secretary of the Science League of America.

WITCH HOLDS SWAY AND SCARES DELHI

(Continued From Page 1.)

The Martinez woman stated that the "enchanted" as she called the woman, would boil great quantities of water, from which smoke curled up in a weird manner and that while thus engaged she chanted and chanted. When the water was deemed sufficiently hot a black cat, alive, was brought in and hurled into the boiling water. Then the water, with its many ingredients, was allowed to cool. The cat's bones were taken out and a certain bone was lifted out of the pot with much ceremony. This bone was tied with a red string, and she charged the "enchanted" with using it to cast "spells" over people who were not her friends.

Unable to Eat The Martinez woman charged that such a spell had been cast over her mother and father and that the "cham" had worked so thoroughly, that her parents were unable to eat their food.

Maria Martinez wanted to know if there was some way the officers could banish the "witch" from the country, that she was afraid that the spell would spread to other members of the family.

To prove her charges, she dug down into a pocket in her dress and brought out the cat bone. Two inches in length and appearing to be the upper joint of a rear leg of a feline animal, the bone was laid on the judge's desk, where it was scrutinized by Justice Morrison and court attaches.

Carrillo suddenly had an idea. Picking up the bone, he waved it in the air and speaking in Spanish, told the woman that the spell was broken for all time to come, as the officers now had the instrument of witchcraft, and that the "sorceress" was powerless without the bone.

Pleased and satisfied with the results, the woman, accompanied by her husband and children, filed out of the court room.

SAYS MACMILLAN WILL OBEY WILBUR

(Continued From Page 1.)

the expedition is scheduled for Sydney, N. S.

DESTROYER SAILS WITH RADIO EQUIPMENT BOSTON, June 24.—The United States destroyer Putnam, with regulation navy radio equipment taken from the U. S. S. Delaware here and sent to Wiscasset, Maine, for the MacMillan Arctic expedition, is proceeding to Sydney, N. S., today under orders from the navy department to deliver it to the two ships for installation.

Left Sets Behind The trouble started when the expedition cast off from Boston June 17. MacMillan left the navy equipment behind on the dock there. It was then shipped to Wiscasset, Me., where the Peary and Bowdoin finally shoved off for the north and again MacMillan refused to reload it.

Several radio messages were exchanged between MacMillan and Wilbur since then, leading up to the peremptory demand today. The destroyer Putnam with the equipment left Wiscasset yesterday.

MacMillan's contract with the navy department expressly includes the use of the navy radio equipment, navy officials said.

The short wave radio equipment now carried by MacMillan is provided by the Zenith radio company of Chicago and President McDonald of the company, is a member of the expedition.

Secretary Wilbur believes that regardless of what claims are made for the short wave length transmission, this expedition is not one to experiment with.

It is vitally important that two way communication be maintained at all times, Secretary Wilbur said.

Because of the contract clause, Secretary Wilbur expects MacMillan to acquiesce.

The Putnam may overtake the Peary in Nova Scotia today or tomorrow.

GRAB JEWELS WORTH \$200,000 NEW YORK, June 24.—Three armed bandits held up and bound and gagged two men in Marcus Feldman's jewelry store on Broadway and escaped with diamonds and platinum valued at \$200,000.

Denmark has the most telephones in proportion to population of any of the countries of Europe.

A total of 1,195,861,040 quarts of milk was consumed by the people of Greater New York last year.

SINCE its establishment in 1904, more than 65% of the deposit growth of this institution has been due to the natural increase in business—and not through the purchase or absorption of other banks.

The natural deposit increase has been \$213,437,919

Growth—the symbol of progress and achievement—is reflected in the consistent, normal gain the Bank of Italy has made each year.

The years of pioneering, from 1904 to 1915, were devoted to the careful organization and development of our system of branches. Each successive step was thoroughly tested with the one thought of making the organization as perfect as possible. As a result of this painstaking, conservative and constructive preliminary development, no impressive record of growth was made until 1916. A full decade was spent in laying the solid foundation for the Bank of Italy's great natural progress.

Temperatures—For Santa Ana and vicinity for 24-hour period ending at 6 a. m. today: maximum 82; minimum 56.

Death Notices

A WORD OF COMFORT
Unwholesome thoughts make one vulnerable to weariness, neurasthenia, and low blood pressure. One explanation of your feeling so exhausted is your lack of courage. Your depressed spirit is among the fruits of your depleted vitality.

You have more control over the mind than over the body. Get proper food and sleep and exercise and see to it that your spirit is at one with the Father of life, that you trust Him and seek to fulfill His will. Reach out from your sorrow with renewed faith in His abiding care and tomorrow you will feel more like yourself.

JOHNSTON—At Oakland, Calif., on June 23, 1925, Mrs. Olive Watson Johnston, aged 47 years, wife of W. Johnston. Funeral service, Friday, June 26, at 10 a. m. from Smith and Tuttle's chapel. Interment Fairhaven cemetery.

Special meeting of Santa Ana Chapter No. 73, R. A. M., Thursday, June 25, 7:30 p. m., to confer the Royal Arch degree. Refreshments.
C. H. KAUFMANN, H. P.

EPWORTH LEAGUES CONDUCT SOCIAL

More than 100 persons enjoyed a lively time at the social conducted by the Epworth leagues of the city last night in the Y. M. C. A.

Numerous games and stunts were included on the program. A group from the First Methodist Church south, presented a comic opera which won hearty applause. A representation from the First church put on a tableau which also met with the approval of the merry-makers. The league of the Richmond Avenue church presented a humorous mock wedding sketch, as their contribution to the program.

Homer Anderson, social director for the Y. M. C. A., gave a short talk, explaining that such groups always were welcome at the "Y." James H. Hughes, secretary of the First Methodist church, responded. Refreshments were served.

An indication of the growing Turkish enterprise is evident from the minister of commerce's proposal to fit up a ship as a Turkish floating exhibition. About the end of July the government ship "Kara Deniz," exhibiting cotton, wool, hair, tobacco, figs, and many other Turkish products, will start on a visit to the principal commercial ports of Italy, France, Spain, Germany, England and afterwards, New York and other seaports in America.

The WELL-DRESSED MAN
By BEAUNASH
Correct Clothes To Meet The Obligation Of Every Occasion

SLEEPING DE LUXE
Breathes there a man with style so dead who never to himself hath said: "Why are pajamas like bags?" Perfectly right! Up to very recently, pajamas have been misshapen garments that made one look like a cross between a circus clown and a ship's mast flapping a becalmed sail. It was not deemed necessary to give pajamas trim fit, smart drape, and colorful character. The principle that clothes concealed are just as important to the well-dressed man as those revealed had not yet been put into general practice. How different today! The masculine form malign, as distinguished from the feminine form divine, is engirding itself in pajamas that make a Sierra Nevada sunset look like a black cat up a dark alley on a moonless night. We have come to realize that even the most humble and humdrum articles of wear need not be ugly and shoddy. Why sleep in a bally meal-sack or a monkish haircloth shirt when the borsen business of going to bed may be alleviated by garments that are really comfortable, prepossessing and even luxurious?

Thus, present-season pajamas show all the smart features of a well-cut town or country coat, including deep-pointed collars, rolled, peaked lapels, patch pockets, welted cuffs, single-breasted and double-breasted effects, full and half belts, shirred backs and many more. The patterns comprise stripes, plaids, figures and Jacquard and "ombre" treatments in the most vividly contrasting colors against a plain or pastel ground. Such pajamas are made to button to the top or may be left open at the neck after the manner of a tennis, golf or yachting shirt.

It is idle to enter into a discussion of the particular fabric to choose for one's pajamas, as this is wholly an affair of personal preference. Some men fancy a flannel, because it is of goodly weight, as well as soft and absorbent. Others like cool madras or silk-and-linen. Those of fastidious habits, satisfied with nothing but the finest and costliest, incline to all-silk pajamas. However, one should be mindful that silk does not wear too well. Continual creasing and washing is prone to make it ravel and split. There are many substitutes for silk which give longer service.

Over ocean, pajamas are termed pyjamas, though why the "y" leaves one as silent as the tea in flask. The word is of Hindu or Anglo-Indian origin, signifying, to the Oriental, loose trousers. The Oriental added a culotte and called the two pajamas. While some men of the old school still favor night-robes, this custom is markedly on the wane. Some wit has said, crushingly, that "you can't look like a hero in a night-shirt."

The Cheerful Cherub

I love a day all green
and grey
And musical with
showers—
Along the ground there
sweeps the sound
Of softly laughing
flowers.

Court Notes
Was 'Starved Out'
Mrs. Nelle Easton, of Brea, was literally "starved out" by her husband, Robert L. Easton, she alleged today in a divorce complaint, filed in superior court through Attorney F. H. Jacobs, of Brea.

Mrs. Easton complains that her husband was intoxicated fully half of the time, that he failed to provide food for his family and that she was finally forced to leave him and get food for herself and two children. She asks for a decree of divorce and \$65 per month for support of the children, a girl, 10, and a boy, 6.

The Eastons were married in Rockvale, Colorado, April 17, 1912, and separated May 14, 1924.

To Cancel Contract
An action to cancel a contract of sale, connected with property at Brea, and to quiet title against claims of the purchaser, was on file today in superior court. A. V. Van Tuyle appearing as plaintiff against Mina T. Smith.

Van Tuyle alleges that the defendant is delinquent with payments on the contract. Attorney F. H. Jacobs, of Brea, is counsel for Van Tuyle.

Demands Commission
Declaring that she has not been paid a real estate commission of \$375, earned by providing a purchaser for property in Brea, Miss Mabel McGee, real estate operator there, today asked judgment for \$375 against Robert O. Steen, Emma Steen and P. V. Steen, sellers of the property. Attorney F. H. Jacobs, of Brea, represents Miss McGee.

Explorer to Write Book on Pole Dash
OSLO, June 24.—Captain Raold Amundsen, Arctic air explorer, plans to arrive in Horten, Norway, on a coal steamer July 4. He intends to write a book covering his flight almost to the pole. This will appear in the autumn and thereafter he plans to lecture at home and abroad.

In ancient times the turquoise was credited with power to read the human mind.

Minnesota claims to be the largest producer and distributor of sweet cream butter in the world.

Wilkins, San Diego; J. C. Wynn, San Francisco; J. Floyd Peal, San Francisco; Annabel Kumbas, San Diego; Mr. and Mrs. H. W. Bailey, Los Angeles; George Wilkins, San Diego; Mrs. W. J. Large, Miss Helen Large, Miss Elizabeth Beyton, and Miss Amelia Rogers, Eugene Ore.; Mr. and Mrs. H. H. Beatty, Los Angeles.

Capt. Paul Perigord, professor of history in the California Institute of Technology, Pasadena, will spend the summer at Laguna Beach. Captain Perigord served in the French army during the world war, in the course of which he was awarded the Legion of Honor and other decorations for conspicuous gallantry on the field. It was reported today that the famous officer will join the faculty of the southern branch of the University of California this fall, at the opening of the new school term.

Cruelty Shows

Big Increase As Divorce Cause

WASHINGTON, June 24.—Of all causes for divorce, cruelty has become the most usual, the census bureau has found in an analysis of statistics gathered in its survey of marriage and divorce in the United States in 1923.

Cruelty has even gained over desertion, which led the list in all years from 1887 to 1916. First gaining a slight ascendancy over desertion in 1922, it has increased its margin. During the 30 years from 1887 to 1916, desertion accounted for nearly 40 per cent of all divorces. It has dwindled until it now accounts for barely 33 per cent, while cruelty has jumped from 20 and 25 per cent to 35 per cent.

What the reason is for the change the census bureau does not profess to know. It merely publishes the results of its investigation and leaves the problem to sociologists to solve.

Reasons for Divorces.

The 14,000 divorces granted in the United States in 1923 were given for the following reasons in the proportion noted:

Cruelty 58,178 35.3
Desertion 54,608 33.2
Adultery 17,268 10.5
Neglect to provide 6,649 4.0
Drunkness 2,139 1.3
Combination of above causes 12,563 7.6
All other causes 13,204 8.0

Forty years ago, cruelty accounted for less than one-fifth of all divorces; now it accounts for one-third; desertion, which formerly caused two-fifths, now causes barely one-third; adultery, which 40 years ago was given as the primary reason in one-fifth of all divorce suits brought is now given as the cause in only one-tenth. Neglect to provide rose and fell as a cause in the last half century.

Drunkness as Cause.

Statistics on drunkness as a cause are interesting in connection with the argument over prohibition. The bureau's figures show that from 1887 to 1916, this cause was given for slightly less than four per cent of all divorces. With the enactment of prohibition its proportion dropped to only one per cent in 1922. In 1923, it jumped up to 1.3 per cent, registering a numerical increase of 603 divorces for that cause during the year.

When husbands go into the divorce courts to seek separation from wives, they charge desertion in nearly half the cases, the bureau's records show. When wives go, they charge cruelty slightly more than half the time. Husbands grounds of cruelty, citing this cause in only one-fourth of their suits. Wives charge desertion in about one-fourth of their suits. Adultery is the third major cause, husbands giving it as grounds in 16.1 per cent of their suits and wives 7.8 of their suits.

COL. FLETCHER

PUT ON STAND

IN WATER FEUD

Col. Ed Fletcher, noted developer of San Diego's back country, stepped into the breach today to help repel the city's advance upon the El Capitan dam site.

Col. Fletcher, owner of the Cuyamaca water system along the San Diego river, took the witness stand for a protracted period of testimony, during which he admitted, incidentally, that "El Capitan is a wonderful site for storing water, if you have the money to build a dam."

City Attorney S. J. Higgins and his associates appeared well pleased at his statement and exchanged meaning smiles that seemed to say: "San Diego has the money already voted."

The head of the Fletcher interests, a man of imposing status and personality, which dominated the courtroom, described the history and development of his Cuyamaca Water company from the beginning, and outlined the territory to which it claims ownership.

Claims Ownership

The company, he said, claims ownership and has title to "all practical dam sites up river from its El Monte pumps." Counsel for the city was careful to impress upon the court that this claim was nothing more than a claim, so far as the records of the trial show.

The Cuyamaca interests had planned, said Colonel Fletcher to eventually develop all of these sites, and considered that all of them were needed for protection of the company's supply at El Monte gruels. A dam owned by other interests at El Capitan could easily disrupt the entire Cuyamaca system, he said. The El Capitan site was therefore invaluable to his company, he said, although a high dam there would, at present, be an unwarranted expense, because of an ample supply from other sources.

Telegrams Are Read

Telegrams from the state railroad commission to the Cuyamaca company, approving its various development projects, were read into the record by the Fletcher attorneys, who conferred frequently with him while he was on the stand. The witness displayed a desire to help direct his own examination.

At one point, Colonel Fletcher shot a barbed shaft in the direction of T. B. Cosgrove, chief city counsel, while the litigants were gingerly handling testimony that might admit or deny ownership of water rights on the river. The witness testified that his company "sold" water to San Diego in 1913, 1914 and 1915. While the city does not admit that the company sold the water, as the city, itself, claims to own all of the river waters, no objection to the expression was used. Colonel Fletcher then said, with a touch of sarcasm, that Cosgrove, who was city attorney at the time, had written an opinion claiming the city owned all water from the mountains to the "shimmering sands of the sea," and had called the money paid the Cuyamaca Water company "carrying charges."

"But he paid double the ordinary price for water. I suppose he was protecting the city's best interests," said Fletcher.

Need El Monte Water
That the La Mesa Irrigation district, successor to the Cuyamaca Water company, must depend entirely upon the El Monte sands for its water supply if there is no rain during the next three years, was the testimony, late yesterday, of Superintendent C. Harritt, of the water company.

Charles H. Lee, hydraulic engineer, gave similar testimony yesterday, saying that the entire Cuyamaca supply would be exhausted in three years, if there was no rain.

Lee said that domestic water consumption from the Cuyamaca system is 1,250,000 gallons daily, the irrigation water used being double that quantity.

PLAN TO RIDE HORSES OVER HIGHWAY LINK

A horseback journey through Sierrita canyon, is being made today by members of the San Juan Capistrano Chamber of Commerce, who desire to gain information and arouse public interest in regard to the proposed link of highway through that section. The Orange county board of supervisors will make the same trip, a distance to five and one-half miles, next week on foot.

At present, the highway from Elsinore extends to the summit of the foothills from the south and it would be necessary for Orange county to build a road through the canyon to connect with it. Fred Stofel, Capistrano hotel man, declared today that a short-cut over the mountains from the Riverside district is needed, and expressed the belief that a continuous road through that section would mean much to the coast towns.

A decision to make a survey and estimate of such a highway was reached by the Orange county board some time ago. The estimate will be reported within two weeks, according to J. L. McBride, of the road department.

The Orange county men will start from the present terminus of the road at San Juan Hot Springs and will be met by cars and taken back over the Elsinore route following their tramp.

TO BEAT THE BAND

BERLIN, June 24.—Earth worms produce musical sounds, a German scientist says. He even claims to have discovered rhythm in this strange melody.

WOMAN SWALLOWS GEMS

PITTSBURG, June 24.—Held up by two masked bandits, Mrs. George Mazur, of Springdale, tore her diamond earrings from her ears and swallowed them.

Thyme and angelica, growing in sheltered spots, are the only perfume-bearing flowers found in the Arctic region.

Three Generations of Women

Since the humble origin of Lydia E. Pinkham's Vegetable Compound in 1881, made on a kitchen stove, three generations of women have used this old-fashioned root and herb remedy for their ailments with wonderful success. Very often we hear of families where the grandmother, mother and daughter testify to its virtue. This accounts for the astounding growth and demand for this dependable medicine from all over the United States and from many foreign countries as well.—Adv.

WAITING

Just six hours before she was to have been married, Miss Sara Arena, Oakland society girl, learned that the bridegroom, William T. Vellguth, had eloped to Mexico with a girl he had met 10 days before. She received this news while holding a final rehearsal for the wedding with the bridesmaids. The church had been decorated, the trousseau was ready and a home had been built.

2 ORGANIZATIONS TO MEET IN PARK

With the Orange County Hoosier association and the Orange County Shrine club programming meetings for the late afternoon and evening, Orange County park promises to be a point of considerable life tomorrow.

N. E. Mayhill, president of the Hoosier association, stated today that the program for the organization starts at 3 p. m. with a variety of lively sport contests scheduled to take place. Dinner will be served at 6 o'clock. Dancing will follow the dinner.

The Shrine club affair will start with a basket picnic dinner at 6:30 p. m., with a dance following. The wearers of the fez will not have a sports program.

"It is just an evening outing for our members and we are anticipating a wonderful time," C. J. Cogan, president, said today.

STONE CHURCH MOVED

LONDON, June 24.—Stone by stone, a church in a deserted village of Lancashire is being transported to a new and more thriving community. It will be rebuilt exactly as it stood.

At least two-thirds of the Arctic Sea is constantly covered by drifting ice.

CRISIS SEEN IN JAPANESE LAND GRANT DISPUTE

TOKIO, June 24.—Diplomatic negotiations between the Japanese government and several foreign nations may be necessary to adjust a situation which has arisen over the matter of so-called perpetual leases of land in the treaty ports of Japan. Except in a few instances the interests of Americans are not involved but, nevertheless, it is understood American diplomatic officials are watching developments closely to protect the rights of citizens of the United States if need arises.

It is estimated that about 4000 acres of land is now held by foreigners in Japan under the perpetual leasing system. These leases date back to the last days of the Tokugawa shogunate, when foreigners first came to Japan and were allotted by what is virtually an imperial grant, the right to occupy certain areas in certain cities. In many instances the land thus held by foreigners has become very valuable.

The trouble that now appears to be reaching a crisis arises over the fact that most of the foreigners holding these leases claim tax exemption under them and refuse to pay taxes. In several instances, as well, the leaseholders have refused to relinquish their rights to property which the Japanese authorities consider necessary to the carrying out of public improvements.

The cities chiefly affected are Yokohama, Kobe and Nagasaki. After the earthquake of 1923 which destroyed most of the city of Yokohama, the municipal authorities desired to rebuild the city along modern lines. This plan involved the widening of streets, the creation of parks, playgrounds, etc., the installation of modern water and sewer systems and many other improvements. In many cases, it is declared, these plans have been held up and otherwise handicapped by the refusal of the foreign leaseholders to relinquish their rights.

It is stated in well-informed American circles that the interests of American leaseholders are not involved for the simple reason that practically all of the American leaseholders have assumed a reasonable attitude and have agreed to the proposals of Japanese authorities desiring to make essential improvements and have paid taxes, even though such payments might have been refused under the terms of the leases. Citizens of other countries, notably the British, are declared to have assumed an uncompromising attitude that has resulted in much embarrassment.

Many Will Attend Education Session

INDIANAPOLIS, Ind., June 24.—Predictions were made freely that the annual convention of the National Education association, to be held in this city for an entire week, starting June 28, will attract a record-breaking attendance from all over the country. The tentative program outlined by J. E. Morgan, editor of the Journal of the National Education association, while on a visit here recently from Washington in connection with the convention, is unusually attractive and calls for the appearance of nationally known educators.

Unless preliminary plans are changed the convention will be opened formally with a vesperservice on the north steps of the soldiers' and sailors monument on the afternoon of Sunday, June 28, with Robert J. Ale, president of Butler college and an ex-president of the National Education association, presiding.

The first general gathering of the association will be held on the evening of the opening day, when James J. Tigert, U. S. commissioner of education, is slated to deliver an address on "The Faith of the American People in Public Education." Then will come more talks by leaders in the educational field of the United States on "New World Movement in Education."

Meetings of the 40 departments of the association and their allied groups will be held each afternoon at which questions pertaining to their own work will be discussed. National figures in the educational world, who will address the convention during the week, include Jesse H. Newlon, superintendent of the public schools at Denver, Colo.; James A. Drain, national commander of the American Legion; Glen Frank, editor of the Century Magazine, and W. P. Deering, president of Oakland City college and also president of the Indiana State Teachers' association.

Advance reservations for hotel accommodations during the convention already have started coming in.

TAXI DRIVER IS SOLO.

PARIS, June 24.—For the first time in history a taxi driver is a member of the French chamber of deputies. He is M. Adam and when the chamber is not in session he operates his taxi.

ANTELOPES COME BACK.

CALGARY, June 24.—More than 230 antelopes now are confined in the Namisan Park in Southern Alberta. When the park was established in 1915 antelope were nearly extinct.

RIGHTS OF BICYCLES.

LONDON, June 24.—Because a London motor car driver said automobiles could not be expected "to give way to bicycles," he was ordered to pay damages of \$5000 to a cyclist he struck.

Some of the ice-fields of Greenland are a mile and a half thick.

4 GIRLS DROWN IN RIVER NEAR STATE CAPITAL

SACRAMENTO, June 24.—Nearly a score of searchers in small boats grappled with the treacherous waters of the American river near here today in an effort to recover the bodies of four young girls, who were drowned late yesterday.

The girls, seeking relief from the terrific heat, disregarded the warnings of friends and went in bathing in the river. They were caught in the under current and drowned before help could reach them.

The dead:
Lydia Kraft, 14.
Katie Kraft, 16.
Mary Frankfort, 15.
The girls recently accompanied their fathers here to begin work in the Spreckels Sugar refinery and were living on the refinery ranch. Both families formerly lived in Fresno.

Legal Notice

NOTICE OF ASSESSMENT
NEWPORT PETROLEUM CORPORATION, a corporation with principal place of business at 42 North Raymond Avenue, in the City of Pasadena, County of Los Angeles, State of California.

Notice is hereby given that at a meeting of the Board of Directors of said corporation held on the 22nd day of May, 1925, an assessment of one-half of 1%, or one-half (1/2) cent per share, was levied on the capital stock of the corporation payable immediately to the undersigned secretary and treasurer of the corporation, at the office of said corporation, 203-4 St. Louis Block, 42 North Raymond Avenue, Pasadena, California.

Any stock on which this assessment shall remain unpaid on the 30th day of June, 1925, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on the 24th day of July, 1925, to pay the delinquent assessment, together with costs of advertising and expenses of sale.

C. H. RUNDEL,
Secretary and Treasurer of Newport Petroleum Corporation, 203-4 St. Louis Block, 42 North Raymond Avenue, Pasadena, California.

Fenwick all of the interest of said first named party that certain stock of merchandise consisting generally of Millinery stock and fixtures now and formerly belonging to said Berdella Stark Prince, and located at 109 North Spadra Road, Fullerton, Orange County, California, and that a transfer and assignment of the same will be made, and the purchase price thereof will be paid, on 1st day of June, 1925, at said 109 North Spadra Road, Fullerton, Orange County, California, at 10 o'clock A. M. That the address of said vendor is at said 109 North Spadra Road, Fullerton, Orange County, California, and the address of said vendee is at said 109 North Spadra Road, Fullerton, Orange County, California. Dated May 19, 1925, Lola F. Richman, Berdella Stark Prince

Progress

Two recent developments have focused public attention on Graham Brothers Trucks as never before.

One was the sweeping price reductions of May 15th, ranging from \$80 to \$160.

The other was Graham Brothers ascendancy to leadership by building more 1½ ton trucks than any other manufacturer in the world, during the first quarter of 1925, and by achieving second position in the 1 ton and 1½ ton fields combined.

Progress such as this deserves public attention—and eliminates all doubt as to the logical truck to buy!

1-Ton Chassis \$1280; 1½-Ton Chassis, \$1560; Delivered

One Bride-elect Has Pretty Compliment From Another

Complimentary to one of aunts' brides-elect was a miscellaneous shower given on a recent afternoon by Mrs. Eunice Stockton Sewell and Miss Katherine Greer at the South Main street home of the former, with Miss Ina Lorene Duke, fiancée of Fred Germany of this city, as incentive.

The large rooms which were beautified by baskets of summer blossoms, lent themselves appropriately to the occasion. The afternoon was pleasantly spent in conversation, the honoree and her plans being the center of discussion. Whom little Miss June Sewell, daughter of the home, quite captivated the hearts of everyone present with her childish coquetry.

At the appointed time, Miss Duke was asked to the flower-adorned table in the dining room, where heaped high, were numerous gifts for her treasure chest. After the lovely gifts had received due admiration from the guests, the co-hostesses served refreshments of cake and fruit ice.

Of special interest was the fact that the courtesy extended was a sisterly one, for Miss Greer, one of the hostesses, is to become the bride of George Duke, brother of the honoree, just a month before the Duke-Greer wedding.

The betrothal of Miss Greer and Mr. Duke was announced in late April with mid-August named as the wedding month. Miss Duke and Mr. Germany will wed in September.

Guests enjoying the party complimenting the latter bride-elect in addition to the hostesses, Mrs. Sewell and Miss Greer were Mesdames U. C. Little, P. B. Lilly, Priscilla Gregg, C. E. Fowler, A. L. Duke, Ben Chase, W. Earl Mitchell, I. G. Greer, Nell Litchford, Nina Clark, Hugo Lamb, C. McClain, Elbert Porter and Cesar Stockton and the Misses Elizabeth Hutchison, Dean Lowery, Sadie McClain, Pattie Wilde, Louise McGowan, Maxaline Armstrong, Billy Atchley, Nina Hucksby, Eunice McGowan, Lois Lamb, Alice Lamb and Emily McClain.

Picnic Gayeties of Post-office Folk

Things have scarcely settled down yet at the local post office whose employees together with their families, are still enjoying in retrospect, the various hilarious features connected with their annual picnic, held last Saturday at Orange county park.

One grin was the price of admission to the lively affair and was payable (gladly for the most part) to Mr. and Mrs. Will Lindsey through whose generosity the barbecueed meat of the picnic supper was made possible. After Mr. and Mrs. Lindsey bestowed enough meat to feed the entire crowd of 165 people, it was barbecued to a hincous turn by Archie Raitt, Fullerton Y. M. C. A. secretary, who came to the county park early that morning to start preparations. Mr. Raitt returned as the supper hour neared, and aided in carving and serving the meat.

An exciting baseball game was marked by energy if not by skill, and Will Carothers' kangaroo court was equally enjoyable, not only to onlookers but to the judge, jury and criminals thereof. So happy was the occasion for the crowd that on Monday, the first issue of the new post office publication, "the Pouch" was issued to commemorate the event, and will be continued "from time to time" in the future.

Let Contracts for 1,375,000 License Plates

SACRAMENTO, June 24.—Contracts for 1,375,000 pairs of motor vehicle license plates have been awarded by the state board of control to the D. W. Norton company of Fruitvale, Calif.

The 1926 plates will cost the state 10.9 cents per pair, as compared with 14.2 cents for 1925. The total cost will be \$149,875.

A saving of approximately \$45,000 will result through the new contract price, it was estimated by members of the board of control.

Will Probe Blaze In Jewelry Store

LOS ANGELES, June 24.—Fire, believed of incendiary origin, swept the Angelus Jewelry company's store here, causing \$75,000 damage.

The flames were brought under control after an hour's stubborn battling by firemen.

Many valuable pieces of jewelry were lost or melted in the blaze. The fire started in a rear room, and investigators have the building under guard, pending a thorough probe.

Report Radio Is Replacing Piano

LOS ANGELES, June 24.—The player-piano is not as popular as it used to be. A. D. Lamotte, San Diego, told delegates to the first annual Western Music Trades convention here.

Poor marketing methods and the radio are blamed for the present unpopularity of the mechanical music-maker.

The music dealers were urged to consolidate their piano shipments from the east, thereby saving on transportation costs and facilitating delivery.

Young People Choose Their Own Home For Bridal Setting

Choosing the pretty surroundings of their own new home as the point from which to embark on their matrimonial journey, Miss Tressa Strickland of Orange, daughter of the Harry S. Stricklands of the neighboring community, and Charles Carothers Jr., son of Mr. and Mrs. Charles Carothers of 521 Wellington street, last night spoke their wedding vows before a little assemblage of close friends at the home they so soon will occupy at Ross street and St. Andrews Place.

Garlands of flowers decked every room and the attractive new fittings of the home, augmented by scores of handsome gifts showed on the young couple, gave a charming effect. In the living room, potted ferns were banded at the fire-place with pink and white gladioli intermingled in artistic profusion.

At 8 o'clock the bride's sister Miss Cleona Strickland, took her place at the piano as accompanist for the soloist, Miss Grace Strickland, who sweetly sang "I Love You Truly" by Carrie Jacobs Bond, and "All For You" by Bertrand Brown. The Wedding March from Lohengrin was played by Miss Margaret Carothers, sister of the groom and one of Santa Ana's most talented younger pianists.

To the strains, the bridal party entered the room, the Rev. F. T. Porter, pastor of the First Christian church, leading the way, followed by Mr. Carothers and his best man, Roy M. Keeler. At the improvised altar, they awaited the bride and her attendant, Mrs. Keeler, who entered first, followed by the bride in a gown of blue tones with which a great cluster of deep pink sweet peas offered charming color contrast.

Miss Strickland, forming a beautiful picture in her bridal white, entered on the arm of her father. Her gown was of airy georgette crepe, lace-trimmed and she wore a long veil falling from a pretty fan-shaped arrangement of the tulle entwined with orange blossoms. Her flowers were bride's roses showered with sweet-peas. The wedding party formed a semi-circle before the Rev. Mr. Porter as he read the marriage service in an impressive manner.

Following an interval of congratulations and happy wishes for the young people, was the refreshment hour when the bride's aunt, Mrs. M. O. Ainsworth of Orange, presided in the flower-adorned dining-room and loes in wedding bell and slipper form were served with punch and wedding cake. Guests were then given an opportunity to inspect the pretty home which Mr. Carothers had in readiness for his bride and to see the many handsome wedding gifts ere the young couple departed for their honeymoon trip to Catalina and other sea-side resorts.

Mrs. Carothers Jr. chose a smart, little georgette ensemble of ponce-blue with white hat and shoes, for traveling. They will be gone a week or ten days, after which they will be happy to greet their friends at the new home. Mr. Carothers is one of this city's younger business men while his bride has been connected with a building and loan association in Orange.

Those present at the wedding ceremony included Mr. and Mrs. Harry S. Strickland, parents of the bride; Mr. and Mrs. Charles Carothers, parents of the groom; the Rev. F. T. Porter, Mr. and Mrs. Roy M. Keeler, Miss Margaret Carothers, Mr. and Mrs. Leonard Cole, Mr. and Mrs. Ralph Cole, Mr. and Mrs. Dean Collier, Santa Ana; Miss Grace Strickland, Miss Cleona Strickland, Mrs. M. O. Ainsworth, Miss Laura Anderson, Mrs. Raymond Chapman and W. Knoche, Orange; Mrs. Margaret Hubbard, Ontario; Mrs. Margaret Raymond and Mr. and Mrs. William Raymond, Long Beach.

British Woman Locked In Cage As Punishment

LONDON, June 24.—There still exist in corners of the British isles customs and laws left over from the Dark Ages. Usually these have fallen into disuse, but occasionally some ancient practice is evoked that seems even more cruel against the background of enlightened modern civilization.

For example, last August, in Jersey a woman convicted of a minor offense was publicly exhibited in an iron cage in accordance with an ancient law.

Her shrieks caused an investigation to be made into the practice, with the result that Sir William Venables-Vernon, balliff of Jersey, has announced that the cage has been abolished.

WORLD-WIDE SUN DIAL.
BALTIMORE, June 24.—In Druid Hill Park here is a sun dial so arranged that it tells the time in all the principal cities of the world.

Mother and Daughter Join to Compliment

About twenty close friends were invited to the home of Mrs. W. H. Thomas, 425 West First street, as guests at an interesting and in many details, unusual, pre-nuptial shower given in honor of Miss Christine Schenck, just on the eve of her wedding to Floyd B. Rogers, an event of recent date.

One delightful phase of the party was the fact that Miss Schenck had been bridesmaid for four of the girls present including Mrs. W. H. Schlack of Leenox, co-hostess and daughter of Mrs. Thomas.

One of the lively and amusing games was "taking pictures." Each of the guests was asked to model a likeness of Mr. Rogers from a stick of chewing gum, and all laughingly agreed that his fiancée had won because she knew best how he looked. In the midst of great merriment, she was awarded the prize which was a set of tried recipes, to which each one had contributed, their favorite.

The house was delightfully decorated with pink roses and bridal wreath with piquant brides at intervals. Reflected from the polished surface of the table over a lace doily center, were a bride and groom standing under a lovely floral arch made realistic by the presence of several bright colored birds. Four stately candlesticks, containing waxen candles, two at either end of the oblong table, and a host of lace doilies, the only covering, added to the beauty of the picture.

Refreshments of strawberry sandwiches, cake and candies were served the guests and later Miss Schenck received some wonderful gifts in a miscellaneous shower.

Pretty Frock For Summer Bridesmaid

With June so ablaze with weddings that the very church aisles seem to spurt out white flames of bridal costumes, the brides of late summer feel that all their plans for pretty frocks for their attendants, have been used before.

But here is something lovely and it could be repeated for the entire group of bridesmaids by varying the tint of the satin foundation and the corsage bouquet. As pictured, the frock is of white soufflé over a slip of silver lace and flesh satin. Violet colored flowers are caught at the waist. A large hat with a streamer complete the outfit.

PAY FOR RADIO AUTHORS.
STOCKHOLM, June 24.—Members of the Swedish Authors' Union are demanding compensation from the radio stations for the broadcasting of their writings.

KILL SOCIALISM.
LONDON, June 24.—Socialism as an issue is "dead as mutton in England," says Sir Alfred Mond, a member of parliament.

Morning Wedding Held In Newly Decorated Auditorium

"Happy the bride that the sun shines on" was quoted to Miss Hazel Louise Schorle, daughter of Mr. and Mrs. S. Schorle of West Sixth street, when this morning dawned clear and fair, seemingly in honor of her wedding to Hale Tiptit, an event of the morning hours at the United Brethren church.

Miss Schorle had the honor of being the first bride to speak her wedding vows in the auditorium since its recent remodeling. To add to the interest was the fact that the anniversary date of her sister's wedding was chosen and the earlier bride, Mrs. Edward Leathwood served as matron of honor while Mr. Leathwood assisted Mr. Tiptit as best man.

A very unusual and lovely combination of shell-pink flat crepe and deeper pink, organdy was chosen by the bride for her wedding gown. Soft feather trimming on the floating organdy panels added a distinctive touch. Mrs. Leathwood wore ivory silk with peacock blue trimming.

Miss Nadine Wood and Melvin Harter completed the wedding party and the Rev. Logan Harter, pastor of the church, read the impressive nuptial ceremony in the presence of a large assemblage of relatives and friends. After a period of congratulations, the members of the wedding group and a few relatives were entertained at breakfast at the Schorle home ere the newly-wedded pair took their departure for San Francisco where the honeymoon will be spent. They planned to travel northward by the inland route and will return by the coast road.

Mr. Tiptit has been in Santa Ana for the past five years while his bride has lived here two years. Both have made hosts of friends who were keenly interested in the pretty wedding.

North Dakota Folk Here For Summer

A happy family reunion was staged late yesterday afternoon at the home of Mrs. J. R. Peterson, 818 Riverine avenue, when Mrs. C. E. Spicer, her daughter, arrived from Valley City, North Dakota, accompanied by her interesting family of two sons and a daughter to spend the remainder of the summer with Mrs. Peterson and her other daughter, Mrs. Cecyl Drake.

The young people of the family, Ronald and Marvin Spicer and Miss Maybel Spicer, were accompanied by a school friend, Robert Belknap also of Valley City, who shared the many interesting experiences of the overland trip, took his turn at the wheel of the big car they drove, and will remain to enjoy the southland with them, ere school calls the party back in late August. Three weeks were spent on the trip out, with stops at Colorado Springs, at Socorro and other interesting points in New Mexico, and at the Grand Canyon.

Piano Recital

Miss Vivian Smith who with Miss Minnie Lois Phillips is soon to present an interesting recital in which piano pupils of all will appear, gave several enjoyable musical numbers at a very pleasant reception honoring the Rev. Mr. and Mrs. George Taylor of Alamitos Community Friends' church.

The Rev. Mr. Taylor has been pastor of the church for the past three years and was honored by his congregation at the reception. Miss Smith occupied no small part on the program and her rendering of Rubenstein's "Kamennoi Ostrov" and a Chopin number, "Valse, Opus 42" proved especially enjoyable, fully as much so as at the Queen Esther entertainment given recently at the First M. E. church where she presented the same numbers.

Miss Smith and Miss Phillips are offering pupils in recital at the Chandler Music room. The date will be announced later.

Gay Crowd Welcomed At Cabin Home in Forest of Arden

Ardendale, lovely summer home, up amidst the tall oaks of the Forest of Arden, of the Chester M. Scotts of 1208 East Fourth street, was the rendezvous yesterday of a merry group of friends who motored up to spend the day with Mrs. Scott and the three youngsters of the family, Marguerite, Alice-Marie and Charles.

The group was composed of the members of the officers' club of the Royal Neighbors of America, and that no mistake as to the route to Modjeska's might be made, Mrs. Scott had the road plainly marked with large R. N. A. cards. Arriving at Ardendale, the guests found the spacious rooms of the cabin brilliant in club colors of white and royal purple.

Happy children of the party, under the guidance of their own young hosts of the Scott home, soon scattered to the hills where they gathered wild-flowers to use on the table where a surprise dish luncheon was served at noon. The tables were arranged in the open where eighteen tall trees on the cabin site made a leafy and delightful retreat. Mr. and Mrs. Scott gain all the more enjoyment from the charming spot because they built the cabin themselves, having spent their summer vacation periods for the past two or three years, in the actual work of construction. Now that it is completed, they are happy to share its coziness with their many friends. Over 30 were included in yesterday's friendly group.

Recent Wedding Announced

Of interest to their many friends was the delightful announcement made today by Mr. and Mrs. S. W. Dodd, 1657 East First street, of the marriage of their daughter, Miss Linnie Dodd, to Otis Kelley, which was an event of Friday, June 19, at Riverside.

The young people are now at home at their new address, 121 South Ross street.

Pastor Says 'Wear Most Comfortable Attire to Church

NEW YORK, June 24.—The Rev. George Drew Egbert, pastor of the First Congregational church of Flushing, invites golfers to come to church in their golf togs and park their clubs in the rear of the edifice.

"Folks can come in the most comfortable dress they find convenient," he says.

"Motorists may come in their driving clothes and golfers in their playing togs."

"Dress Well and Succeed"

Correct Summer Flannels for Beach and Outing Wear

Those who made a check of men's fashions at Palm Beach found a lot of striped flannels. Some were white with blue stripe; others biscuit with brown stripe. These make quite a handsome combination, when worn with a coat of the color of the trouser pattern.

SAYS HE WAS MADE TO SIGN RAISIN OFFER

PRESNO, June 23.—Declaring that the contract which he signed to deliver raisins to the Sun-Maid Raisin Growers was secured by threats, actual destruction of property and personal injuries, John D. Miller, defendant, has answered the complaint recently filed by the growers seeking damages of \$1800.

After members of the committee to secure contracts had called eight times, he alleges, they called on the evening of April 23, while he was away. After talking to his wife they declared it their intention, he says, to enter the house and seek him. Mrs. Miller drew a loaded shotgun on the men and told them her person and her home against violence.

On the next evening the members of the committee, he alleges, tore up, trampled down and destroyed two acres of vines, and on the following evening tore up 19 more vines and posted a sign that they would tear up the remainder of the row if he did not sign the raisin contract.

Under such threats, he alleges, he came into the office of the Sun-Maid association, told them that he was signing the contract under duress, refused to face a notary, and thus escaped further ravages on his property. He said he told them at the time he signed the contract that he did not intend to carry out the provisions thereof, but did it merely to preserve his property.

You And Your Friends

Please Phone or Mail Items

A party made up of several families including Earl Lamb and family of Talbert, Joe Wade and family of Irvine, Walter Lamb and family of 214 South Sycamore street, Santa Ana, left yesterday for a delightful tour of Arizona, Utah and Wyoming. En route they will visit Zion park. They will probably return by way of Oregon to see the rodeo, which will be held at Pendleton in September.

Miss Larene McMillan is spending the week in Los Angeles with her uncle and aunt, Mr. and Mrs. J. W. Wilcox.

Mr. and Mrs. M. S. Cloyes, 308 South Birch street, and their daughter, Miss Inez Cloyes, left recently to spend some time at their Forest Home cabin.

Mr. and Mrs. Jack O'Brien, of 622 Cypress avenue, have just returned home from trip to San Francisco. Mr. O'Brien is a patrolman here.

Mrs. A. J. Schrier, 1424 Bush street, her son John, and daughter Eloise, have left for St. Louis, Mo., and Savannah, Georgia. They will be gone about a month on the trip.

Homer Beck of the Richelieu market, 431 West Fourth street, left Sunday for a trip to Sioux Falls, S. D., making the journey over the Union Pacific.

Mr. and Mrs. T. H. Thilbrink of 714 South Flower street were among the many Santa Anans leaving for summer trips east. They left Sunday for Omaha, Neb., travelling Union Pacific.

Mrs. A. B. Scott, her daughter, Miss Levenia Scott and son, Wallace Scott of 706 West Sixth street, left yesterday for a motor trip across the continent, stopping en route to visit at Indianapolis, Ind. Their objective point is their old home in Creston, Pa., where Mrs. Scott and Wallace will remain, the latter to enter university the coming year. Miss Scott will become the possessor while east of a new car, in which she will make the

trip home in time for the opening of high school, where she is a member of the faculty.

Miss Evangeline Bryant, who lives with her aunt, Mrs. Florence Hicks of 526 South Parton street, will spend her vacation on a trip to Chicago and various points in Minnesota. On the homeward journey, Miss Bryant will make extended stopovers at Prince Rupert and Victoria, B. C.

Mrs. Isabel Allen of 719 East Fifth street has returned from Long Beach, where she has been visiting for several months with Mr. and Mrs. G. H. Normington. Mrs. Allen will leave about the middle of July for a trip to her old home in Canada.

Miss Anna Marie Helwig of 602 South Birch street, teacher of cooking in the high school, has gone to her old home in Council Bluffs, Ia., to spend the summer with relatives. She stopped over to view the beauties of the Grand Canyon en route, and plans to be in Santa Ana in time for the re-opening of school.

Among interesting sojourners at Balboa Palisades, where they have a fascinating home, are Mr. and Mrs. Enrico Tramonti of Chicago. Mr. Tramonti, a harpist in the Chicago Symphony orchestra, comes to Southern California to vacation each year. Mr. Tramonti plans to tour Europe next year. He maintains a studio in Los Angeles, where he teaches one day a week.

The Rev. Will A. Betts, pastor of the First Methodist church, was in Long Beach last Wednesday, where he officiated at the wedding of Miss Ruth Inman, daughter of Dr. and Mrs. M. M. Inman and Edward Merle Fisher, principal of the San Bernardino high school. The marriage was solemnized in the beautiful English gardens of the bride's cousins, Mr. and Mrs. John E. Heston at Long Beach.

Mrs. Cynthia Davis of 422 West Second street started Sunday over the Santa Fe for a trip to Indianapolis and Kansas City, planning to stop over upon her return at Denver, Colo., and San Francisco.

With Omaha, Neb., as her objective point, Miss Della Ward of Orange left last Saturday over the Union Pacific railroad for Omaha, Neb.

Miss Floy Jane Donaldson of 933 South Main street, teacher of art in the high school and junior college, left yesterday, for Chicago, where she will teach at the Applied Arts summer session, in the costume and interior decorating departments. En route home just before the opening of school here, Miss Donaldson will stop in Denver, Colo., to visit friends. She went Union Pacific.

A. Porter of 320 Cypress left Sunday via Union Pacific, going to Minneapolis, Minn., for a visit of a month or six weeks.

Leaving Sunday over the Santa Fe, Mr. and Mrs. O. B. Ingraham have gone on a trip to Jonesville, Mich., via Chicago. They reside at 1128 West Pine street.

Using the Union Pacific route, Miss Isabel Lindsay of 728 Halle day street left Sunday for a trip to Chicago. She is planning to stop over at Denver, Salt Lake City and San Francisco on her return journey.

Mrs. A. W. Campbell of 211 South Ross street will enjoy the summer months at her old home in Ontario, Toronto, Canada, leaving here for her long journey last Friday over the Union Pacific.

Mrs. T. W. Rogers and young daughter, Vivian, of 1218 North Parton street will spend the summer months visiting in five states, Colorado, Nebraska, Arkansas, Iowa and Missouri, returning in time for school in September. Kirksville, Mo., is the old home of the Rogers family and they have a son, Raymond Rogers in Nebraska, who was a visitor in Santa Ana last summer. Mrs. Rogers and her daughter left this afternoon over the Santa Fe.

G. J. Daley, general superintendent for the Holly Sugar company, Mrs. Daley and their three chil-

CHARGE RIVERSIDE MAN AS CAR THIEF

Arrested on a charge of grand larceny, in connection with the "borrowing" of an automobile and wrecking it, Howard P. Yunglove, 24, scion of a wealthy Riverside family, escaped spending last night in the Orange county jail, when he posted a cash bail for \$1000, for his appearance in justice court, the date for which is to be set later.

Yunglove was arrested by Chief Criminal Deputy Ed McClellan and Constable Jesse Elliott, yesterday afternoon. They found him at his home, in Riverside.

According to the arresting officers, Yunglove is charged with taking an automobile belonging to J. T. Hoag, Santa Ana man, wrecking it. Hoag is the complaining witness.

dren, Richard, Mildred and Stanton Daley, have gone on a trip to Fertile, Ia., traveling over the Union Pacific, to visit Mr. Daley's mother. Returning the family will stop over at Grand Junction and Denver, Colo., to visit friends.

Arthur C. Thompson of the W. P. Fuller company left Sunday for Chicago via the Santa Fe. He plans to return by way of Denver and San Francisco.

Harry Spencer of the San Joaquin Warehouse company, 1510 North Broadway, left Sunday for a trip to his birthplace in Bristol, England, where his only sister, Mrs. George Hoisman, resides. Mrs. Hoisman is in poor health, and Mr. Spencer will spend a month with her, as he has not seen her since 1914. He will sail from New York City June 27 on the Homeric, the boat upon which will be Dr. Mabel Vance Tremain and her party. Mr. Spencer will return in August in time to accompany his daughter, Miss Adelaide Spencer, to Oakland, where she will enter Mills College.

The many friends here of Miss Nellie Vance Wilson of 1022 West Fifth street, supervisor of physical education in a number of Los Angeles schools, will be interested to hear that she is leaving July 1 for Boston, Mass., where she will take a six weeks' course in Harvard university along her line of work. The Los Angeles schools close next Friday and Miss Wilson will spend a few days here with her mother, Mrs. Cynthia Wilson.

J. S. Smart of the Smart-Final company and Mrs. Smart of 1533 East Fourth street have been enjoying a visit from a party of Mr. Smart's relatives from the east, including George Skinner and Miss Alice Elizabeth Kelly of Detroit, Mich., and Mrs. John Dodge of Pittsburgh, Pa. The visitors have been taken on various trips of interest in the Southland, returning today from San Diego. Tomorrow the party goes to Riverside, from which place they will start on their return trip across the continent.

On Friday next Mr. and Mrs. Smart are saying farewell to Mrs. Smart's little granddaughter, Miss Catherine Gay Cornwell, who is returning to her home in Saginaw, Mich., after spending a year in Santa Ana, attending John Muir school, which she has greatly enjoyed. Miss Catherine will travel as far as Chicago with Miss Helen Smart, teacher of Spanish in one of the Los Angeles high schools, who is going on a trip to Europe, and who will board boat at Montreal.

Mr. and Mrs. A. A. Schlusman of West Fifth street spent one of their enjoyable week-ends at Long Beach and San Pedro. On Saturday afternoon, accompanied by Mr. and Mrs. H. P. Towner, they attended the Eastern Star party and in the evening a birthday party at San Pedro. On Monday evening Mrs. Schlusman attended the meeting of the F. A. U. lodge.

More than four-fifths of all the dried fruits exported from the United States pass through the port of San Francisco.

CITIZENS DEFEAT WATER BOND ISSUE

(Continued from Page 1.)

said that three wells have been
capped. Two are at the plant on
West First street and were capped
because they were condemned by
the state board of health following
the epidemic here a year and a
half ago. A well on North Baker
street was shut down because the
state board of health had de-
manded that the pipe line be-
tween the Olive street reservoir
and the well be rebuilt with cast
iron pipe. The well back of the
Linderoth school is producing
ing water, notwithstanding rumors
to the contrary, the commissioner
said.

Z. B. West, city attorney, stated
today that in all probability con-
demnation suits filed against prop-
erty in the West Orange district
would be dismissed following of-
ficial canvass of the election re-
turns by the city council next
Monday evening.

Several factors worked against
success of the bond issue, in the
opinion of some men who were
deeply interested in the project.
Opposition to Site
There were those who believed
that the situation would not be
improved by the development of
water at West Orange, it being
their opinion that a more per-
manent supply could be developed
south of the city. There also was
opposition to location of the reser-
voir at Olive. This opposition fa-
vored location of a reservoir at
some high point east of the city,
the Red Hill district being fre-
quently mentioned as offering a
number of reservoir sites.

No Alternative Plan
"We have no alternative plan
that we can adopt at this time, now
that the bonds have been defeat-
ed," Chapman said. "The people
have spoken. We will have to sub-
mit to their will and 'carry on' as
best we can. Building of another
reservoir within the city is imprac-
tical. We must have a new and
larger system. It must come with-
in the next two or three years. We
offered what in our judgment was
the best plan for developing a per-
manent water supply and a distrib-
uting system that would be ade-
quate for many years to come."
"The municipal water plan must
expand with the city if we are to
continue to grow. A larger system
is inevitable, for Santa Ana is go-
ing to continue to grow. We would
be glad to have suggestions as to
the best plan to pursue. The prob-
lem is one in which the whole city
is vitally concerned. It is very
possible we will be forced within
the next two years to again sub-
mit some kind of a proposition to
the voters. What the plan will be
I do not know."

Seek Oil Worker On Murder Charge

BAKERSFIELD, June 24.—
Leon Hillier, 37, oil driller, was
sought by deputy sheriffs today
in connection with the shooting
of H. H. Kelly, 37.
Kelly was shot and killed in a
gun battle at a local pumping
station where he was employed.
A citizens posse is being re-
cruited to aid deputies in find-
ing Hillier, who is alleged to
have fired the fatal shot.

Yacht Racing to Tahiti Reported 2000 Miles Out

SAN JOSE, June 24.—The
yacht Italia, one of the four San
Francisco boats on a cup race
to Tahiti, was 2000 miles out, ac-
cording to radio advices receiv-
ed here at midnight by Frank
Quemont, wireless amateur.
The Italia had been becalmed
for two days but was "going
good" again, according to the
message, which said:
"We had no wind for two
days. Just about at Equator,
2000 miles out. No accurate pos-
ition. Are going good again with
strong southeast winds. Unable
to hear yacht Eloise. Receiver
badly damaged. Using one of
phones. Unable to lose commu-
nications at any time."

U. S. and Hungary Sign Trade Treaty

WASHINGTON, June 24.—A
commercial treaty between the
United States and Hungary was
signed at the state department to-
day. Secretary Kellogg signed for
the United States and Count Laszlo
Szchenyi, the Hungarian minister,
for Hungary.

Believed Shots Fired at Mayor

NEW YORK, June 24.—Great ex-
citement was caused among noon-
day crowds in the vicinity of the
city hall today, when two shots
flew past the city hall steps, where
Mayor John F. Hylan was posing
for photographers with a Chicago
high school baseball team, visiting
here.
Scores believed the shots had
been fired at the mayor.
Investigation revealed, however,
they were fired by a probation of-
ficer at a parole violator, John
Mulroy, whom he had attempted
to arrest.

PROBE IS STARTED IN FLYER'S DEATH

HONOLULU, June 24.—Inquiry
by a navy board opened today
aboard the plane ship Langley in-
to the death of Lt. Com. Nathan
B. Chase, of San Diego, Calif., mid-
dle when his navy plane crashed to
earth after collision with another
flying craft.
Chase was flying at an altitude
of 500 feet near Pearl Harbor,
practicing maneuvers in his pur-
suit plane. Lt. Thomas Burke Lee,
piloting another combat ship,
swooped upward, miscalculating his
distance from Chase's craft. The
plane was cut from Chase's plane
and it crashed to earth. Chase was
pitched from the ship and his body
found in a luke, horribly mangled.
Lee landed in Road field, unin-
jured.

Woman Dies After Jump from Window

SAN JOSE, June 24.—Mrs. Helen
Dolan, 27, died here early today
of injuries received yesterday,
when she jumped from an apart-
ment window in a suicide attempt.
J. Gillespie was held by police
for questioning. He asserted he
and the woman had an argument,
after which she attempted to swal-
low poison. When he took the bot-
tle from her, he said, she leaped
from the window.
The woman's husband, "Mickey"
Dolan, boxer, was not at home at
the time.

Police Seek Scion Of Wealthy Family

CHICAGO, June 24.—Jack Du-
rand, adopted son of Mr. and Mrs.
Scott Durand, millionaire family
of fashionable Lake Forest, was
implicated today in a series of
robberies along the North Shore
district. Young Durand, 18, is al-
leged to be acting for the movies
in Los Angeles, and California
authorities have been asked to
hunt for him.

The Public Forum
Communications under this head-
ing must be signed by the name of
the writer. These communications
express the opinions of the writers
of them. The opinions may or may
not be the opinions of the Register.

A CORRECTION.
Santa Ana, June 23.
Editor Register:—I was quoted
in Monday's Register as saying, at
the meeting in Birch park Satur-
day night, that there were six
flowing wells on the sugar factory
property south of town. I said
no such thing. I do not know of
my own knowledge that there is a
single flowing well in Orange
county.

FARM WORKERS' WAGES INCREASE

WASHINGTON, D. C., June 24.—
Farm wages have increased over
200 per cent during the past 60
years, department of agriculture
statisticians have found in a com-
pilation of wage figures running
back to the Civil war.
Time was when a farm hand
could be hired for \$10 a month
with board. Nowadays, the same
labor costs \$34 a month. The
peak was reached in 1920 when
wages were \$47.00 a month with
board.
The department has consolidated
the different types of farm hirings
into a composite rate for statistical
convenience. Regarding the aver-
age wages, 1910-14 as equal to
100, the wages of 1860 was 55, and
in 1893 were 67. There was a
drop of 61 the following year, but
wages again began to climb and
reached 101 in 1914.
There was a spectacular ascent
during the World war, 112 being
reached in 1916, 140 in 1917, 176
in 1918, 206 in 1919, and 239 in
1920. The next year, there was a
fall to 150, and to 146 in 1922, fol-
lowing which the tendency was re-
versed and 166 was attained in
1923 and held in 1924.

Mystery Disease Victim Succumbs

WASHINGTON, Penn., June 24.
—Dr. William Farabee, died in a
hospital here today. Three years
ago Dr. Farabee was stricken with
a mysterious malady while heading
an exploring expedition into the
wilds of South America, and since
then had fought courageously to
overcome the disease.

Knives and Shears Sharpened.

SANTA ANA CASH MARKET
958-W 115 E. Fourth

Police News

Andrew Herskind, Laguna Beach,
reported to the police here last
night that an army pistol was
stolen from his house yesterday.
The number of the revolver and a
description of it were furnished.

Frank Davis, 50, charged with
vagrandy, was arrested at 11:30
o'clock last night, by Officers Mur-
ray and O'Brien when he was
found asleep under a house near
the Santa Fe tracks across East
Fourth streets. The man was
lodged in jail.

Scott Wilson, former jailer here,
now a resident of Hemet, is visit-
ing in Santa Ana.

Oscar F. Mejia, sailor from Los
Angeles, held by the police for in-
vestigation, was ordered released
from jail yesterday. He was ar-
rested Monday, by Sid Smithwick,
assistant chief.

A woman and two men, Robert J.
Paul, his wife, and H. R. Ramsey,
Brea residents, were in the Orange
county jail today, following their
arrest there last night by Brea of-
ficers on liquor charges. Anna
Paul, the wife, is charged with sell-
ing intoxicating liquor, and the
two men face charges of posses-
sion.

Every week the factories of the
great English industrial city of
Birmingham turn out 14,000,000
pins, 10 tons of pins, 6,000 metal
bedsteads, 7,000 tons of rifles, and
numerous other articles.

CROSSWORD PUZZLE RAPIDLY LOSING ITS POPULARITY IN HOMES, LIBRARIES, OFFICES

America's craze for cross-word puzzles is waning.

The fickle public is allowing the checkerboard mania to fall into
neglect. In Santa Ana, failing interest in the brain teasers is evident
on all sides.

At the Santa Ana public library,
the crossword puzzle fan is now
rarely met. No longer are the ac-
commodating girls behind the
book counters asked the name of
an "arctic bird in two letters." Dictionaries and encyclopedias
are not in demand as formerly at
the library.

The bookstores are experiencing
a falling off in the sale of cross-
word puzzle books and special edi-
tions of dictionaries. Last fall a
premium was placed on any kind
of a book with definitions. Sales
were unprecedented, according to
Santa Ana book merchants.

Now these same bookstores are
waiting to remove the last of the
cross-word puzzle books from their
shelves.

Metropolitan newspapers are
wondering whether the puzzles are
worth the space they use. Re-
cently the New York Evening
World dropped this feature and it
was the first paper to print cross-
word puzzles when the World edi-
tors hit upon the idea back in 1912.

Newsboy Affected
The newsboy on the street cor-
ner knows that the puzzle craze
no longer sells his papers.

75c "BEAUTY BOX" FOR 25c!

A Sensational Offer!

If you have never used
Colonial Dames Beautifier
you will prove to you
its superiority over other
cosmetics. Fill in cov-
er, present to druggist
named below, pay him
25c and receive our in-
troductions "Beauty Box"
containing one regular 25c
jar of Colonial Dames
Beautifier, one 30c jar of
Almond Oil Massage
Cream, one Silk Sponge
and a pleasant little sur-
prise—all for 25c. Total
value of introductory
offer—\$1.00.

"Beauty Box," 75c. In this way we have gained thousands of satis-
fied users.
Expert dermatologists have proven that Almond Oil, Honey, Lemon
Juice and Vegetable Gels provide the safe road to beauty. These
beauty aids from Mother Nature are real skin foods and cleansers
which truly marvelous results follow their use. They CAN NOT

FILM BEAUTIES TO APPEAR IN PARK PROGRAM

Announcement from Buena Park of the promised appearance of Joe Bonomo and a bevy of film beauties from Universal City, as a special attraction at the Booster Festival there July 27 has given im-

Josie Sedgewick, Universal motion picture star, who will be one of the bevy of film beauties to participate in the Buena Park Booster Festival on July 27.

petus to enthusiasm in the approaching event.

Bonomo claims to be the strongest man in the world. He is a vaudeville star now playing in Universal City and will bring with him a supporting cast selected from the most picturesque population of that movie center. There is no doubt, whatever, Buena Park officials claim, that Bonomo's companions will be fully as "strong" an attraction as he will be.

Many other features have been arranged for what Buena Park expects to be the most important affair in its history. Athletics, dancing, a program by Bruce minstrels in the school auditorium, refreshments, a ceremony of cutting ribbons for a new street opening, and a grand street parade led by Tozier's band of 20 pieces, are events on the program. A famous news reel organization will photograph the festival.

Planned as a symbol of the community spirit which is rapidly bringing Buena Park to the fore as a hustling, cooperative town, the Booster festival is already developing the desired results in welding the people of the town into a boosting unit.

CLEM IS DELEGATE TO DETROIT MEET

The Exchange club yesterday completed plans for a steak barbecue and dance to be held in Orange county park Friday evening, when members and their families will gather for an informal social gathering.

Stanley Clem, William Peeling, Paul Johnson and George Scovel were appointed a committee to make full arrangements for the dinner and entertainment.

Clem was appointed by President Charles Swanner as official delegate from the club to the annual convention of National Exchange clubs, to be held in Detroit, Mich., September 22, 1925.

In preparation for extending charity to the poor of the city during the Christmas period, the club yesterday voted an assessment of 10 cents per member for each meeting between now and Christmas. Suggestion of the creation of a Christmas charity fund was made by E. H. Boden, who pointed out that the club should take an active interest in bringing cheer to the needy of the city during the happy Christmas period.

L. A. COUNCIL BARS FOREIGN CEMENTS

LOS ANGELES, June 24—Action which will give the so-called "cement trust" of Southern California monopoly on all cement sold to the city of Los Angeles has been taken by the local city council.

A report of the public works committee was adopted barring all foreign cements from local consumption on grounds the foreign product had proven unreliable. Although no proof was presented that a cement combine is operating in Southern California, it was said that practically all bids received in the past have been identical and the board of public works forced to give the various cement manufacturing concerns turns in accepting bids.

Some of the bids were exact to the fraction of a cent carried out to the third decimal place, it was said.

City officials said that cement had formerly been purchased from foreign firms at a lower price but that the quality was inferior.

ELECTRICITY IS TOPIC OF TALK TO ROTARIANS

Good fellowship featured the doings of yesterday's weekly luncheon of the Santa Ana Rotary club, held at St. Ann's Inn. Though no special attraction had been listed on the program, there was a record attendance, including many visiting Rotarians and guests. The unusual showing, it was claimed, was due to the popularity of Fred Ross, in charge of the program.

Snappy songs, quick sallies and witty repartee took the place of formal business transactions. Elmer E. Heidt, song leader, whose famous baritone voice has attracted the attention of leading impresarios throughout the country, surprised his many friends with an impromptu solo—a Scotch ballad.

Impose Many Fines.

Vice President Peter Beissel, who presided in the absence of President Terry E. Stephenson, kept those present sparkling with effervescent good nature. His ready references to parliamentary law and willingness to impose fines to swell the charity fund drew much good natured chaffing from the audience.

There was a spirited demand from the membership for investigation of Ralph Mosher's qualifications to act as judge of bathing beauty parades. It was contended by several speakers that no follower of George F. Babbitt should have anything to do with carefree, mentally loose-jointed flappers, whose twin passions are the kekele and chewing gum.

William Deimling, district manager of the Southern California Edison company, and member of the program committee, introduced the speaker of the meeting, Walter Garner Blossom, field superintendent of education, of the Edison company.

What Is Electricity?

What is electricity? Where does it ename? Is it not that mysterious force employed by the Creator in sustaining the natural laws that govern the universe? These and other questions were asked by the speaker, in tracing the history of electricity and its development for scientific, industrial and commercial uses.

While Blossom gave evidence that he had more than a speaking acquaintance with molecules, atoms, electrons, including the split electron, as discovered by Dr. Robert A. Milliken, he confessed frankly that he could not answer the "whys" and "wherefores" of electricity. And he added that no one else could.

Put to Many Uses.

Yet this mysterious force, he remarked, has furnished the power required to convert desolate deserts into gardens; to make the plains fruitful; to light the abodes of millions; to bring to the housewife, no matter how humble her home, all the labor saving devices evolved by the science and skill of inventors in the electrical field; to turn millions of wheels of industry in modern factories; to propel our street cars; eventually to electrify our railroads and ocean carriers and to provide employment for our present and future population.

RICHARDSON WILL VACATION AT L. B.

LOS ANGELES, June 24—The state capitol will be "moved" to Long Beach for two months, it was learned today.

Gov. Richardson, accompanied by his executive secretary, Fletcher Brown, plans to spend July and August at the beach city, it was announced.

Harry Lutgens, private secretary, will be "acting governor" at Sacramento during the chief executive's absence.

During the Long Beach "regime" the governor will be called on to announce appointments of a real estate commission, railroad commissioner and member of the state board of control.

SIXTH WELL IS BROUGHT IN BY OIL COMPANY

Interest in the Newport-Costa Mesa oil field seems to have settled down on a steady, go-ahead basis.

The Yerkes company has brought in its sixth well in the West Newport area at a depth of 1100 feet and it is pumping more than 100 barrels a day. Well No. 7 is expected to go on the beam in a few days. A new pumping device will be tried on this well in an effort to increase the flow. It is said that all water trouble has been eliminated by the company.

A meeting of lease holders in the DeKay Community Lease No. 2 met Saturday in the office of H. M. Lane and organized by appointing S. A. Meyer as agent and J. T. Musgrove of Long Beach, cooperating agent. Some dissatisfaction is said to have arisen over the lease, which comprises 40 lots in West Newport, and a 30-day notice asking for the termination of the lease was requested.

The Petroleum Midway company operating subsidiary of the California Petroleum company, of Los Angeles, has leased three different tracts in the Mesa area. The largest of the leases is known as the Tummon-Wherry tract, comprising 25 acres. The others are five acres each of the Moore and Hollingwell leases. It is said the company does not contemplate drilling at present.

Another important lease has been announced by the Marine corporation, of Long Beach, it consisting of 115 acres at Costa Mesa. Other leases are under consideration, company officials report. This concern, of which D. M. Smith is vice president, has a group of producing wells at Signal Hill, Rosecrans and Torrance.

TRAFFIC BODY
OF SOUTHLAND
TO MEET HERE

Members of the Southern California Counties Joint Traffic association will meet tomorrow in the office of Dr. F. W. Slabaugh, Orange county purchasing agent and president of the association, for a discussion of freight rate adjustment matters that have developed within recent weeks.

The association includes representatives of Orange, Los Angeles, San Diego, Imperial, Riverside, San Bernardino, Ventura and Santa Barbara counties, and of all the principal cities in these southern counties. Between 20 and 25 members are expected to attend tomorrow's meeting, according to President Slabaugh, who will preside over the session. George S. Straight, Los Angeles county traffic manager, is secretary of the association. The conference will extend throughout the day, starting at 10:30 a. m.

Formed for the purpose of handling all matters pertaining to freight rate adjustments with the railroads, the association meets at the call of the president, whenever problems present themselves for solution. All traffic negotiations between the railroads and the counties or cities are referred to this association.

YOUNGSTERS MARK
GOLDEN WEDDING

LOS ANGELES, June 24.—One of the world's youngest couples to memorialize a golden wedding anniversary celebrated 50 years of marital happiness here today.

The "youngsters" are Mr. and Mrs. William Rubin, 66 and 65 years old, respectively.

Hosts of relatives and friends gathered at the Rubins' residence for the golden anniversary, coming from every section of the country.

The guests included four children, Charles Rubin, prominent local attorney; Mrs. J. L. Bitter, Milwaukee; B. W. Rubin, Portland, Ore.; and Lillian Rubin, Los Angeles.

MARS IS VERY COLD

FLAGSTAFF, Ariz., June 24.—The observatories here and at Mount Wilson, Calif., as the result of recent experiments, estimated the temperature on Mars as from 10 to 20 degrees above zero.

HEMMI ENDS SEVEN-MONTH
JAIL SENTENCE IMPOSED
FOR PART IN MAIL THEFT

John U. Hemmi, Torrance lawyer, and former resident of Anaheim, convicted in the Federal court in Los Angeles last winter in connection with the robbery of the Anaheim postoffice last year, and sentenced to serve a seven-month term in the Orange county jail, walked from behind the bars early today, having completed his sentence.

Hemmi was charged with, and convicted of, violating section 194, of the federal penal code, that of receiving and concealing stolen currency which had been taken from the United States mail. He is alleged to have received approximately \$5000 from J. R. Abernathy, Anaheim postmaster, concealing it in the back yard of his home in Torrance.

Appealed For Pardon
Hemmi has maintained his innocence throughout his seven months in jail here. He was convicted late in December, last year, and entered the jail on December 15, 1924. The few days less than seven months indicate the "time off" he received for good behavior.

Hemmi made an appeal to President Coolidge for a pardon, his petition being signed by several prominent men in the Southland, but, according to him, the petition never reached the hands of the President. He claimed in his request for a pardon that he was seriously ill and that jail life might impair his health and even endanger his life.

The Torrance lawyer looked pale and thin during his stay in the old Orange county jail, but after being removed to new and better lighted quarters, in the new jail, his color returned and he apparently gained in weight.

Takes Husband Away
Mrs. Hemmi appeared at the jail early today to take her husband away. As Hemmi was leaving, he heartily thanked Jailers Orin Moncrief and Clyde Flowers for the treatment he had received as a prisoner.

When Hemmi was first brought

John U. Hemmi

FALLS ASLEEP
AFTER CRASH;
DRIVER JAILED

G. A. Heather, 26, dropped off to sleep at the side of the main highway, near Delhi, yesterday afternoon and possibly would have had a pleasant repose had not Ed McClellan, criminal deputy, passed along the road.

McClellan noticed that Heather's automobile was wrecked, and that a telephone pole apparently had been smashed by Heather's car. He placed the sleeping man under arrest, and charged him with reckless driving and being drunk.

As a result, Heather is in the Orange county jail, awaiting his turn before Justice Morrison. Heather was arrested here early in the year, according to McClellan, as being one of the four holdup men who robbed an oil station on East Fourth street, Russell Van Bibber, who is now serving a term in San Quentin for the alleged murder of a Los Angeles capricious man, another member of the quartet. Heather and Van Bibber were released on the robbery charge when they were tried.

Include Railways
In Forestry Curb

SACRAMENTO, June 24.—Passenger coaches or electric or steam railroads are "moving vehicles" and therefore come within the provisions of the anti-forest fire law, State Attorney General U. S. Webb has ruled.

The opinion was handed down at the request of State Forester M. B. Prat, who plans a rigid campaign of enforcement within the provisions of the 1925 legislature, prohibiting the throwing of lighted cigarettes or cigars from moving vehicles.

WOMEN COMMEND
COOLIDGE REGIME

LOS ANGELES, June 24.—After adopting a resolution congratulating President Coolidge upon his "efficient administration," and commending Secretary Mellon's tax reduction plan, the Republican Women's Federation of California, Southern division, adjourned today.

The women partisans were particularly satisfied with the administration's exemption from taxation of all incomes less than \$5000.

New officers were elected as follows: Mrs. Florence Collins Porter, president; Mrs. W. E. Evans, Glendale, first vice president; Mrs. Charles Van De Water, Long Beach, second vice president; Mrs. Robert F. Garner, San Bernardino, treasurer and Miss Nellie E. Kelley, organizer.

HAIR PULLING TIME
BALTIMORE, June 24.—Charles Rhea has been teasing Catherine Mann at their boarding house. She decided to do a little teasing, too, and stole the mouthpiece of his pipe. Rhea became very angry and pulled her hair. The judge fined him \$100.

SIXTY TO CARRY RUG
LONDON, June 24.—Spring cleaning at Windsor Castle is a Herculean task. It takes 60 men to carry out the big two-ton rug, which covers the floor of the Waterloo chamber. It is 80 feet long, 40 feet wide and took the prisoners of Agra seven years to weave.

Electric Shoe Shop
Moved to 316 W. 4th.

STUDENTS NOT
VERY BRAINY IS
VAN DYKE VIEW

PRINCETON, N. Y., June 22.—"In your reading, read what you like and then try to find out why you like it," is the literary maxim of Dr. Henry Van Dyke, professor emeritus of Princeton university, author and former ambassador, who has just returned to Princeton from an extended fishing trip to New Zealand.

In pandering over the faults of the present generation of university students while in New Zealand, Dr. Van Dyke came to the conclusion that the greatest fault is the lack of serious and worthwhile reading, resulting in an absence of original and intelligent thought.

Too Much Cramping
The college youth of today spends almost all the time devoted to studies in college cramping his mind full of facts and ideas that have been thought out before him by the authors he studies and by the lecturers to whom he listens, Dr. Van Dyke believes.

The ideal arrangement would be a curriculum of more independent study than is now employed, in Dr. Van Dyke's opinion, that he does not consider the youth of today inferior to that of former generations; in fact, he believes the modern youth is superior to the youth of the past. He asserts, however, that the present generation is too busy with things that give no lasting benefit.

"How much serious and intelligent conversation is there among the youths of the colleges today?" is his query.

Venice Chief of
Police Is Ousted

VENICE, Calif., June 24.—C. C. McCausland was ousted as chief of police of Venice by unanimous vote of the board of trustees at midnight.

McCausland's dismissal followed a stormy session of the board, featured by heated political discussions. No reason was given, however for the ouster, which was made immediately effective.

Andrew Davilla, motorcycle officer, was appointed acting police chief pending appointment of a permanent successor.

The board's action culminates long factional strife in municipal politics in the beach city.

Pistol Only Clew
In Murder Probe

KELSO, Wn., June 24.—Lucky May, Seattle criminologist, is busy tracing the ownership of the gun which killed Thomas Dovey, editor of the Cowitz County News.

Some light was shed on the mysterious murder, which occurred last Friday when J. L. Spooner, sawmill fireman, made a positive identification of the weapon.

The gun forms practically the only clew in the case. It was found about 40 feet from Dovey's body after the killing.

SHOT POISONS DUCKS
WASHINGTON, June 24.—The Biological Survey has found that many wild ducks are victims of lead poisoning resulting from eating bird shot. In hunting sections, the birds pick up the shot which drops along the banks of a lake or river.

FERTILIZER PLANT PLANNED
TO COPE WITH GRAVE SEWER
PROBLEM IN ANAHEIM LINE

The Crystal Chemical company, of Anaheim, has set aside \$70,000 for the construction of a plant to convert its wastes into fertilizer, according to information received here today by W. G. Knox, engineer for the joint outfall committee, handling the outfall plant for the cities of Santa Ana, Orange, Anaheim, Fullerton and a number of sanitary districts, from C. G. Gillespie, director for the state board of health.

The information was contained in a letter advising the engineer of the findings of the director with reference to use of the joint outfall by the chemical company for disposal of its waste.

The investigation was the result of complaints made by Garden Grove and other communities against the odors produced by action of the chemical plant waste in the sewer line, and by representatives of the cities against use of the sewer line for the disposal of the wastes, it being claimed that the chemicals had a deleterious effect on the lines.

Conduct Investigations
R. F. Goudey, Los Angeles, resident engineer for the board, and Gillespie have conducted investigations of the local situation and have made findings, and recommendations that will be submitted to the state health board later. Submission of the report is being held up pending execution of the plans of the chemical company for development of its plant to take care of refuse from its alcohol factory.

Reciting that the Crystal Chemical company is a United States bonded distillery, making 1900 gallons of 95 per cent alcohol from 50 tons of Hawaiian molasses per day, the investigators found that the plant daily discharges into the sewer 60 pounds of sulphur and 36,000 gallons of water, the waste being of a dark red color and relatively free of suspended matter.

Manholes Are Sealed
"Physical inspection at the various manholes indicates that growths and deposits, characteristic of hydrogen sulphide in large quantities, already have appeared," reads a paragraph in the report. "The sealing of all manhole covers has partially controlled odors in Garden Grove, but has subjected the sewer system to more deleterious action from sewer gases than before. In fact, we predict

TO DANCE SUNDAY TO JAZZ
AIRS OF THIRTY YEARS AGO

"Classical" and "jazz" music of 30 years ago, as produced by old-time violin, guitar, accordion and harmonica players, will be one of the features of the picnic of old-timers in Orange county, to be held in Orange county park Sunday, it was announced today by George E. Peters, one of the members of the committee arranging for the gathering of old-timers.

Peters has located a number of men who were famous in their day as "fiddlers," and they will be present to give the crowd a treat, he said.

P. J. Spencer, O. P. Bunyard and Robert Straw, who "pulled the bow" in the early day for barn and party dances, will be among those who will entertain. Ray Long will pick the banjo and Claude Webb will perform on the guitar and harmonica. And then there will be music on the accordion, Arthur Hurley having volunteered to "stretch" the instrument.

Former Judge to Speak
J. W. Ballard, of Los Angeles, a former judge of the superior court of Orange county, is expected to be present and deliver an address recounting some of his early experiences in Santa Ana and Orange county. Judge Ballard is a humorist and his recital of early day history promises to be not only entertaining but instructive.

It is the plan of the committee to have tables at the park arranged so that persons who arrived here in 10 year periods will be grouped together. For instance, those who came to the county in 1870 will be grouped, and so on for ten-year periods up to 1900.

Who is a pioneer? The committee has made no attempt to establish a date as between a pioneer and a "tenderfoot." Anyone who considers himself a pioneer will be welcome to the "party." In fact he committee will welcome anyone who wants to join the group.

Invitations Issued
Personal invitations have been sent by members of the committee to acquaintances who have not been residents of the county for many years, and responses indicate that many will be present from various sections of the state. Coffee will be served free by Smart and Final, and sugar and cream will be furnished by the committee. Family dinners will be held at 1 o'clock.

A register will be maintained and it is possible an Orange County Pioneers' association will be formed for the purpose of holding annual reunions.

The committee met last night in the home of Mrs. Lotus Grouard and completed arrangements for the picnic, those present being Mr. and Mrs. George Peters, Miss Sue Greenleaf, Mrs. I. A. Meacham and Horace Fine.

Asks \$407,639 In
S. F. Royalty Suit

SAN FRANCISCO, June 24.—Six million dollars worth of concrete in San Francisco bay was constructed in infringement of his patent, according to a \$407,639 royalty suit filed here by W. S. Ferguson.

BAND FUND IS
BOOSTED \$100
BY DONATIONS

Contributions to the Santa Ana Municipal band fund yesterday totaled \$97.50, it was reported today by Harry Hanson, treasurer of the Santa Ana Municipal Band Campaign association, which organized the public appeal for donations to save the band from disbanding. The total fund today stood at \$1399.90, with several known contributions yet to be turned into the treasurer.

"The situation looks better today," Hanson said, in reporting the additions to the fund. At the same time he pointed out that only 170 persons and organizations had made donations.

"The average of the gifts has been satisfactory, but the number that has given has been disappointing," the treasurer said. "If one-third of the population of the city would contribute \$1 each we would have a large sum and one that would definitely establish the band. We hope before next summer to have a tax-levy for support of the musical organization submitted to the voters."

Contributors yesterday were as follows:
Previously reported \$1392.40
Orange Co. Garage Co. 10.00
Ketter's 10.00
Sam Hurwitz 10.00
Knox and Stout 10.00
J. E. Paul 10.00
H. H. Finley 10.00
Mrs. I. I. Stukey 5.00
W. D. Baker 5.00
Jos. M. Backs 5.00
C. D. Brown 5.00
Friend 5.00
C. E. Hatch, Tustin 5.00
R. M. Daniels 3.00
Chester Watkins 2.00
C. S. Browne 2.00
Friend50
Total \$1399.90

PENSION RECORD
MANSFIELD, Ill., June 24.—The record for drawing a pension was held by James G. Thomas, a Mexican war veteran, who died here recently. In 75 years and six months his pension totaled \$22,046.23. He was 97 years old at the time of his death.

SAP PRESSURE STRONG
PITTSBURGH, June 24.—The pressure of outflowing sap from maple trees is equal to that of the steam in a locomotive, says Dr. D. T. MacDougal, a scientist.

WISE JUNK MAN
BLACKPOOL, June 24.—A rag and junk buyer is outstripping all his competitors by carrying a small camera with him. He exchanges one of those two-minute photos for all the junk he can find and is doing a rushing business.

ICEBERG 5000 YEARS OLD
WASHINGTON, June 24.—Scientists say that the snow which solidified to form the icebergs now floating in the North Atlantic fell in Greenland 5000 years ago.

DOG MOTHERS LIONS
BERLIN, June 24.—Because Zenta, the pride lioness of the Berlin zoo tried to kill her three lion cubs, they have been taken from her and placed in the care of a great Dane dog. So far the big dog has been a faithful nurse.

Friendly Circle class of the 1st M. E. church will meet Friday evening at home of Mr. Wm. O'Brien, 1002 So. Birch. Pot luck supper to be served at 6:30. Bring cup, plate, knife, fork and spoon. No sandwiches. This is the last social of the year. Good attendance expected.

Flannel Is New

The newest development in summer suits is flannel. You'll like it immensely. You'll like the grey and tan shades with their bold white stripes at intervals, and the shadow stripes. STYLE—new, English, conservative.

\$27.50 and \$30

Cool off
in Light Clothes

You Can't Change the
Weather, But You Can
Change Your Clothes

A Difference

These light summer suits have all the new style points this year—the gaberdines, the koverdines and the flannels. They are built for style just as much as to last.

Get into a Vandermaast tropical suit. The difference will be pronounced. (Pronounced "Koverdine," "Gaberdine," and "Flannel.")

And a Vandermaast light weight summer suit is cool—plus.

Plus the fine tailoring that you are wearing in your English suit.

Plus the style—for young men and more conservative tastes.

Plus the knowledge that it fits you, and that you look as good as you feel!

Koverdines in plain and fancy stripes, \$22.50 to \$27.50.

Gaberdines in the same, \$30.00 and \$35.00.

FLANNELS at \$27.50 and \$30.00.

NEGRO SHIP HAS MANY TROUBLES ON MAIDEN TRIP

NEW YORK, June 23.—Sailing nearly five months ago with the playing of bands and impressive ceremonies by resplendent, uniformed members of Marcus Garvey's African Legion, the Black Cross liner Booker T. Washington literally crawled back into port here, ending its maiden voyage by setting a record for slow time for the round trip to the West Indies and Central America.

With the docking of the vessel at pier No. 75, Hudson river, came a recital of disaster after disaster, which showed that one important member of the crew—Lady Luck—had deserted the ship before the trip was fairly started.

Report Leaders in Prison
There also came the report that new leaders of the Universal Negro Improvement association, who assumed control when Garvey was taken to Atlanta penitentiary to serve a five-year sentence for misuse of the mails, have decided to abandon Garvey's widely heralded scheme to found a negro state in Africa by operations of freight and passenger vessels on the high seas.

The Booker T. Washington left New York late in January. At Philadelphia the engines broke down. On the way to Norfolk members of the crew set the forecastle afire in their efforts to keep warm. At Havana the vessel was held for debts contracted by Garvey's former maritime venture, the Black Star line, and finally was released when funds were cabled from New York.

More Money
At Kingston a new firebox became necessary and directors of the Universal Negro Improvement association again forwarded money. Dissension between Captain Hirth and G. E. Carter, secretary general of the association, ended with the discharge of the commander of the liner at Colon. The chief engineer obtained a lien on the Booker T. Washington until his wages were paid. More money from New York.

Also, at Colon the chief steward was arrested on a charge of shooting a woman there in 1914. The climax came at Charleston when the vessel was badly damaged in a collision with the wharf. More money from New York.

Since the Booker T. Washington sailed down the East river in January, members of the Garvey organization have had to put up nearly \$50,000 to keep the ship afloat. Convinced that a jinx rests on their marine ventures, members of the association hope a steamship company will charter the Booker T. Washington, which cost more than \$150,000.

QUIZ RANCH HAND IN CHILD'S DEATH

SACRAMENTO, June 24.—Chesler Palmer, Yolo county ranch hand, was taken into custody here late yesterday for questioning in connection with the death of his 11-months-old stepdaughter, Velma Daugherty.

The child died at a local hospital late Monday. A large bruise found on the top of its head caused an investigation to be launched by the coroner's office.

While Palmer insists the child was injured in a fall from its crib, the mother told Coroner John Skelton that Palmer had punished it severely.

Neighbors of the family at Riverside, Yolo county, said Velma was the second child of the family to die within the last year.

It is estimated that the world's supply of petroleum still in the ground which is recovered by present methods of exploitation is more than 70,000,000,000 barrels—roughly equivalent to about 70 years' supply at the present rate of consumption.

Stage and Screen

A scene from "The Crimson Runner," current attraction at the Yost theater.

Charles Ray and Betty Blythe in a scene from "Percy," current attraction at the West End.

WALKER—Vaudeville and "Recoil," with Betty Blythe.

WEST END—"Percy," with Charles Ray and "Now or Never," with Harold Lloyd.

YOST—Vaudeville and "The Crimson Runner," with Priscilla Dean.

"THE CRIMSON RUNNER" IS YOST ATTRACTION

Motion picture stars simply cannot live down their pasts.

In "The Crimson Runner," Priscilla Dean feature, which is the current attraction at the Yost theater, the star is called upon to do a typical acrobatic Apache dance. Before the scenes were to be taken, director Tom Forman informed Miss Dean that a "double" had been engaged to perform the dance and that she would have to appear only in the close-ups.

"Well, you can cancel her right now!" Priscilla replied with the same fire and sincerity she displays on the screen. "You don't suppose I've forgotten all I learned on the stage!"

And thus it was revealed that Priscilla Dean had danced in the New York version of the Follies Bergere when she was in her early teens and before she took up screen work.

Featured in the supporting cast are Ward Crane, Taylor Holmes, Mitchell Lewis, James Neill, Alan Hale, Elsa de Lindt, Charles H. Malles and Bernard Siegel.

"NOW OR NEVER" SHOWING AT WEST END

"Now or Never" at the West End theater is three reels of Harold Lloyd at his best. No higher praise could be given any comedy. From the time the begoggled comedian appears on the screen in one of the funniest automobile escapades this reviewed has ever seen, to the final fadeout, "Now or Never" hardly gives your face a chance to relax from a roaring laugh into a grin. And, as is always true of the Lloyd brand of fun, it is clean and genuine.

The action, except for a few opening scenes, takes place in a train or, more truthfully, on a train, for the agile comedian is in it, on top of it, and under it, and gives you several gasps and thrills. His efforts to amuse a precocious four-year-old girl left in his charge, to put her to sleep, and then to get her dressed, are as full of human interest as they are of humor; while his antics in the washroom are a riot!

This popular edition of "Now or Never" brings Mildred Davis to the screen again. She has been in retirement since her marriage to Harold Lloyd two years ago.

"RECOIL" SCENES TAKEN AT TOP OF WORLD

One of the interesting features of "Recoil," current attraction at Walker's theater, is a sequence which was filmed on the summit of the Maritime Alps. Not only were exterior scenes taken in the Alps, but many interiors also. Several of the scenes which took place inside a cabin in the mountains called for action being seen through the windows of the cabin while other action was taking place inside.

Lumber was hauled on low-geared army trucks up the narrow, dangerous roads from Nice, France, to the top of the mountains, and the set was built. Then four canions of light were sent up with generators, and one night the peaks of the Alps blazed forth, as though by some fantastic borealis, and bleached the skies with a white glare that could be seen as far away as Ventimille on the Italian border.

The natives of the little villages, built by the Romans before the time of Caesar, were stricken with fear. It was to them the first signs of a new volcano in eruption. They started to pack their clothes to flee, when they were informed that it was simply a lighting effect for motion pictures. But that didn't help. They didn't know what motion pictures were.

Miss Blythe plays Lolita, a Mexican border dance hall siren in "Percy." Ray's new picture now showing at the West End, and as such had carte blanche to torment Charlie as much as she liked.

"She must have stayed awake nights thinking up things to do to me," her victim continued. "She 'strong-armed' me half a dozen times, bullied and hustled me

around, held my head under water, slapped me in the face with a loaded powder puff about the size of a dinner plate and almost put my eyes out, and otherwise abused me. It was a new experience for me—being 'man-handled' by a woman—and the worst of it is, I believe, she really enjoyed it; knowing, of course, that I couldn't smack her for it. I'll never laugh again at

divorce court stories of husbands who have been beaten by their wives."

FROM ORANGE COUNTY TOWNS

FULLERTON H. S. TO SPEND LESS SUPT. DECLARES

FULLERTON, June 24.—Following a meeting of the board of trustees of the Fullerton union high school yesterday, Principal Louis E. Plummer announced today that expenditures for the school during the next year would be considerably less than in past years, due mainly to the decrease in building activities about the institution.

In preparing the budget for the coming term, the trustees allowed only \$55,000 for building, Plummer stated. He showed that in past years, as high as \$350,000 had been spent for building alone, and he attributed the low figure this year to the fact that only a small increase in attendance had been noted last year.

Double Wedding Is Of Interest To Orange Folk

ORANGE, June 24.—In the patio of the historic and picturesque Adobe Flores Tea House, Pasadena, took place recently a double wedding of more than usual interest, when at noon, Mrs. Vida A. Bixby, formerly of Villa Park, became the wife of O. R. Howard of Seattle, and her son, Allen Bixby, by claimed as his bride Miss Pauline Craig of Pasadena.

Dr. E. F. Hunt, retired clergyman of Riverside, who performed the ceremony at Mrs. Howard's first marriage, was the officiant, reading the service for both couples. There were no attendants but the ceremony was witnessed by about 30 relatives and intimate friends.

VETERANS' LEAGUE TO MEET IN PARK

FULLERTON, June 24.—The Orange County Veterans' association will hold its meeting in the Fullerton city park on Saturday, June 27, at 11 o'clock, according to advices from officers of the organization.

Sewer System In Anaheim Is Nearly Finished

ANAHEIM, June 24.—Only one more link remains to be completed in the extensive outfall sewer system planned here several years ago. City Manager J. W. Price announced today. Price stated that when finished, this would give Anaheim one of the most complete sewer systems of any city twice its size in the country, paying a tribute to the foresight of those who planned and inaugurated it.

Plans were drawn to care for the future growth of Anaheim, so that as the city grows, connections can be made at little cost and without any great changes in the system itself. Practically all drainage lines have been built from east to west, with cross trunk lines north and south. As the city grows the drainage lines need be untouched except for connection with additional cross trunk lines which may be needed to parallel the city's growth.

The one remaining link to be built is west of Palm street and north of North street, and it is expected work will soon be started on this unit, plans having already been prepared.

GIRL PRESIDENT OF STUDENT BODY GOES TO HAWAII

MISS ALICE MCBRIDE.

Student in the Fullerton union high school, and many friends in the city regret the departure of the student-body president, Miss Alice McBride, who left on Saturday, June 20, for an extended stay in Honolulu. Miss McBride, accompanied by her mother, Mrs. Bruce McBride, left for the Hawaiian Islands to join her father, who is in the contracting business there. They expect to make yearly visits to Fullerton to visit Mrs. McBride's mother, Mrs. J. F. Conkey. During her experience as student body president of the local school, Miss McBride made a creditable record through her ability to handle the affairs of the student body government, and through her originality and enthusiasm in planning high school entertainments.

BUILDING ASSN. WILL INCREASE CAPITAL STOCK

FULLERTON, June 24.—Decision to increase the capital of their association from \$1,000,000 to \$5,000,000 was reached at a stockholder's meeting of the Mutual Building and Loan Association here last night, according to H. L. Parry, secretary.

SOCIAL AND PERSONAL NEWS OF ORANGE

ORANGE, June 24.—One of the liveliest charivaris of this season was held Monday evening for Mr. and Mrs. Malcolm Kilgore, 379 North Cypress street who stole a march on their many friends and were quietly married in San Bernardino and have just returned from a week's honeymoon at Big Bear Lake.

The newlyweds were cleverly "dolled up" by the merry-makers for the occasion and escorted to the fish pond in the plaza where a fishing party was staged and the bride forced to sweep the sidewalk. Mr. Kilgore was dispatched to the various candy shops to purchase a penny's worth of chocolates, much to the delight of the crowd.

From Orange the jolly crowd went to Santa Ana where more pennies were spent for candy and the button at fourth and Main streets was diligently swept clean by the groom, who was also required to make a speech in front of one of the theaters.

The jolly group were "treated" on their return to Orange. Mr. and Mrs. Carl Nicholson and son, John, and daughter, Mildred, of Upland, Mr. and Mrs. Ed Nicholson of Seal Beach, John Robinson of Los Angeles and Mrs. Agnes McLaughlin and son, Craig, of Sierra Madre were Sunday dinner guests of the W. G. Suffer family of 636 East Collins Avenue.

Miss Mary Flager, formerly of Orange, now of Oakland, and her aunt, Mrs. A. Scott of San Francisco, are visiting Miss Ethel Koller of 237 North Grand street, this week.

Miss Ethel Suffer and aunt, Isabel Suffer left yesterday for Chicago and Coal City, Ill., where they will spend four months visiting friends and relatives.

Mrs. L. A. Brown and two sons of Denison, Texas, are visiting Mrs. Brown's brother J. G. Fowler and family of South Clark street.

Mr. and Mrs. Bernhard Peterson of North Olive street gave a chicken dinner Sunday at Orange County park for the Louis Jacobsen family of Chino.

The W. H. Lowry family are vacationing at Strawberry Plains.

OCCUPATIONAL TAX WILL BE TOPIC AT MEET

ANAHEIM, June 24.—Discussion of the occupational tax ordinance, and reports on the questionnaire on that subject which was recently sent out to the business men of the city, will be the feature at the regular meeting of the Merchants' and Manufacturers' association, which will be held at the city hall Friday evening. City Attorney Hans V. Weisel will conduct the discussion on the occupational tax.

Floyd McCracken, managing editor of the Anaheim Bulletin, will speak on "Building Business," and F. A. Fox Jr. will speak on "Community Advertising."

In answer to the questionnaire on the occupational tax ordinance, Secretary Reid stated today that 146 replies were received by the chamber. Three questions were asked and in each case the affirmative received the largest majority of votes cast.

On the first question, "Do you favor paying license or occupational tax in full one year in advance?" The vote was 117 for, 29 against.

On the second question, "Do you favor requiring solicitors and peddlers to furnish a surety bond?" The result was 121 for, 15 against.

The third question, "Do you favor city trustees passing on this surety bond before the solicitor or peddler is permitted to engage in business?" The ballot showed 128 for, and 18 against.

Talbert

TALBERT, June 24.—Two former pastors of the Talbert Methodist church, south, with their families, were local visitors during the week just ended.

Rev. and Mrs. S. C. Backmon, son, Glenwood, and daughter, Gladys, spent Friday night as guests at the S. E. Talbert home. They visited other old friends while here. Rev. Backmon is pastor at the Methodist church at Knights Landing, Calif. They have been in Long Beach where they have relatives. They expect to leave for Arizona in company with Rev. and Mrs. George Ferguson of the Lincoln charge, with whom they are vacationing. Rev. Backmon was pastor here two years ago.

Rev. George M. Gardner, formerly pastor at Talbert last year, with Mrs. Gardner and Rev. Gibson, local pastor, traded pulpits for the day. Rev. Gardner preached at Bolsa in the morning and here in the evening. Rev. B. E. Glazner of Santa Ana, pastor of the Greenville church, with Mrs. Glazner, was in attendance as were Mr. Jake Shiffer and family and Mr. and Mrs. Ed. Wells of the Greenville congregation, of which Rev. Gardner was also pastor during his stay here. Rev. and Mrs. Gardner are of Redlands and left for home Monday morning following an over night visit at the S. E. Talbert home.

The Misses Eunice and Evelyn Lackadoo of Garden Grove visited Monday afternoon with the Misses Alpha and Dedah Gilbert.

Mr. and Mrs. Jack Harpster of San Luis Obispo have been spending a week's vacation at the home of the latter's parents, Mr. and Mrs. Robert Gistler. The Harpsters were leaving Wednesday for the north where Mr. Harpster is in the employ of an oil company.

Mr. and Mrs. John Shutt Jr., and the latter's sister, Miss Flossie Traper, in company with Mr. Shutt's sister and brother-in-law, Mr. and Mrs. Earl Gardner, and family of Bolsa, enjoyed a motor trip to Oceanside Sunday.

Sunday Mrs. J. O. Harper and daughter, Miss Ruth Harper, Mrs. Harry Harper and the latter's son, Jack, in company with Mrs. Lena Patterson and A. C. Archer of Santa Ana, drove to Orange county park.

Mr. and Mrs. Charles Preston and son, Delbert, and Doyle Gilbert motored to Balboa Sunday afternoon.

Mr. and Mrs. Henry Landin and son, Leslie, were here from Los Angeles over Saturday and Sunday as guests of Mrs. Landin's sister and brother-in-law, Mr. and Mrs. Henry Lacabanne.

CAPTURED MINNEWERFER IS GIVEN BREA BY WAR DEPT.; SMALLEST TOWN SO HONORED

BREA, June 24.—A captured German minnewerfer, or trench mortar, weighing almost two tons, and mounted on wheels, has been awarded to the Brea post of the American Legion, according to word received this morning from the war department at Washington, D. C. The trophy, which is one of many allotted to the state of California for distribution to various communities through the adjutant general's office, will be properly mounted on an emplacement already prepared alongside the Brea Legion hall.

In laying out the grounds surrounding the new Legion building, plans were made to

take care of a piece of artillery if one could be secured, and a committee under Chairman H. C. Yarbrough, was appointed at that time. Brea is said to be the smallest community to be thus honored, and the application of the local boys being acted on so promptly is taken as an appreciation of the hard work and community service the post has accomplished.

The only expense connected with procuring the cannon will be water transportation charges from the Atlantic coast arsenal where it is now stored, to San Pedro. From the harbor to Brea, the hauling will be done by truck.

Social and Personal News of Fullerton

FULLERTON, June 24.—Plans for a meeting during which gentlemen friends will be entertained, were laid last night at a meeting of the Ebell Auxiliary in the California hotel. The date for the affair was set as July 7, and elaborate preparations will be made for the event, it was announced. A group of professional entertainers will feature the program, while a banquet and dance will take place during the evening.

Members of the Past Noble Grand association met today at the home of Miss Nell Hollenback, at 125 West Whiting avenue. Miss Lois Cooper assisted as hostess during the entertainment and pot-luck dinner.

City Trustee O. M. Thompson announced plans today for a six weeks' trip to Sioux City, Iowa, in which Mrs. Thompson, Raymond, Dorothy and Jeanette, will take part. They expect to travel by automobile, and to visit friends and relatives in Iowa.

All members of the Fullerton Odd Fellows, and their families have been invited to attend a weekend party and Sunday picnic at Glenn's Ranch, in Lytle Creek canyon, by Mr. and Mrs. O. S. Compton.

A number of high school officials spent the last week-end at the school cabin, near Lake Arrowhead, and reported a most enjoyable time while in the mountains. Those occupying the cabin were, Louis E. Plummer and family, Ross N. Hodson and family, A. S. Redfern and family, E. A. Ames and family, Harold Walberg and wife and Mr. and Mrs. J. M. Alcorn.

Anaheim Band to Offer Concerts At City Park

ANAHEIM, June 24.—The Anaheim Municipal band last night gave the opening concert of this season, at the municipal park, under the direction of their new leader, Gus Hushman.

A season of eight weeks is planned with a concert in the city park every Tuesday night. Director Hushman stated. There are 22 instruments in the band and several exceptional soloists will be featured from time to time.

ing after business interests of his mother.

All members of the Fullerton Odd Fellows, and their families have been invited to attend a weekend party and Sunday picnic at Glenn's Ranch, in Lytle Creek canyon, by Mr. and Mrs. O. S. Compton.

A number of high school officials spent the last week-end at the school cabin, near Lake Arrowhead, and reported a most enjoyable time while in the mountains. Those occupying the cabin were, Louis E. Plummer and family, Ross N. Hodson and family, A. S. Redfern and family, E. A. Ames and family, Harold Walberg and wife and Mr. and Mrs. J. M. Alcorn.

DEER IS ADDED TO MENAGERIE AT COUNTY PARK

ORANGE, June 24.—The Orange county park menagerie took on an extra boarder today, with the arrival of a two-prong buck deer, the first of several to be added to the park collection.

The buck was obtained from Red Bluff, northern California, according to Leon O. Whittell, park commissioner. A permit to keep the animal in a specially built pen has been procured from the state fish and game commission.

Two other fawns will soon be on their way to the park to keep company with the first inmate. Supervisor Whittell has made arrangements to get the animals from Richardson's Hot Springs near Chico.

Meanwhile, the pen at the park will be moved to another location and enlarged. Supervisor Whittell declared that sufficient space for five to six deer would be provided, in addition to furnishing a refuge for the Chinese pheasants and grey squirrels now at the park.

Successor for Beach Trustee To Be Selected

HUNTINGTON BEACH, June 24.—A successor to James Macklin, city trustee, who resigned at the regular monthly meeting of the board of trustees, will be selected at a special meeting of the trustees to be held sometime this week.

The trustees have until the end of this month to select Macklin's successor. According to the laws of the state a successor to a trustee who resigns must be selected within 30 days.

Several local men have been suggested for the position including S. R. Bowen, Elson G. Conrad, W. T. Newland, D. W. Huston, R. L. Obarr and Ed Manning.

WHY PHYSICIANS RECOMMEND SANGRINA TO FAT PEOPLE

Latest French Discovery is Absolutely Harmless and Works Wonders.

"If I had not carefully analyzed, tested and seen my own sister reduce and improve her health with 'SANGRINA,' I would not be recommending it to my patients to-day."

Dr. Jacoby writes: "My wife has about finished the 'SANGRINA' you sent her, and I wish you could see the wonderful change in her appearance. She never felt better in all her life."

"I have used 'SANGRINA' for my wife," says Dr. Harris, "and now recommend it to my fat patients."

"I recommended 'SANGRINA' to my mother," says Dr. Narbonne, "because I knew, after working at the formula for years, it was absolutely harmless to the health and positive in results. It is the only way I know of to a good figure and perfect health."

REDUCES 63 POUNDS

"I weighed 260 pounds," writes Mrs. M. D. Paquella, of Worcester, "and lost 63 pounds. . . I would like to have another box of 'SANGRINA'."

Up to now physicians have rarely advised anything to reduce, outside of diets or exercises (both tedious and inconvenient) because they knew of nothing HARMLESS and EFFECTIVE; but to-day in recommending "SANGRINA," a doctor feels that it is something with real merit, so entirely different from all the advertised fat reducers that he does not hesitate to advise its use even to his own family. Prominent medical men, such as Dr. Rudolph, former Health Commissioner, endorse "SANGRINA" AS THE ONLY SAFE, positive and quick way to slenderness he knows of.

"SANGRINA" is the formula of a French physician. It is put up in a small, convenient tablet, to be taken three times a day. Although only recently introduced in America, "SANGRINA" is now recognized as a most effective treatment for fat people because:

IT HAS REDUCED MOST OBSTINATE CASES OF OBESITY. IT DOES AWAY WITH HIGH BLOOD PRESSURE, PUFFING, HEAD-ACHES, TIRED FEELING, AND THE FAT MAN OR WOMAN WHO TAKES "SANGRINA," ONCE MORE ENJOYS LIFE.

IT IS ENTIRELY DIFFERENT FROM ANYTHING EVER OFFERED. IT IS GUARANTEED ABSOLUTELY HARMLESS.

NOTICE TO THE PUBLIC: Beware of worthless imitations. "SANGRINA" is sold with a guarantee of satisfaction or money refunded. Go to your druggist to-day, be sure to ASK FOR AND GET THE BOX MARKED "SANGRINA."

On sale at White Cross, Kelley, Parson's, Mateer's or Haddon-Joe Drug stores.

Farm News From Everywhere

CITRUS MEETS AT ANAHEIM TO DRAW HUNDREDS

The fourth annual citrus institute and the eighth annual pest control school, to be held at the Anaheim high school Friday and Saturday, respectively, under the auspices of the agricultural extension service and the farm bureaus of the seven southern counties, will draw hundreds of growers. It is expected that correspondences from northern counties indicates that there will be a good representation from the citrus areas of the San Joaquin valley and possibly from Butte county.

The general theme of the sessions will be orchard efficiency. Authoritative speakers have been secured who will touch upon the principal orchard problems of the season, including irrigation, fertilization and cultivation.

Pest Control Important
The second day will be devoted to pest control problems, including recommendations by the horticultural authorities for the control of pests for the present season. Thousands of dollars are spent each year for pest control. It is essential that the fundamentals of scale life should be understood by every grower if he would practice the most efficient and economical methods, it is declared.

There are four essentials involved in the profit of growing citrus fruit, according to H. E. Wahlberg, farm advisor. These are quality production, economical production and efficient distribution. The citrus institute this year will endeavor to show the grower ways of improving his orchard management so as to affect the first three factors named above, which are within the power of each grower, Wahlberg states.

Jardine Emphasizes Quality
Those who were fortunate enough to hear Secretary of Agriculture Jardine the other day will remember that he emphasized the fact that the salvation of agriculture and horticulture lies within the hands of the growers and that with increasing competition and increasing acreage, it becomes more and more evident that the grower must reduce his overhead to the minimum and produce the maximum production of high quality goods per acre. This can only be accomplished by a close adherence to the details of irrigation, soil management and pest control, all of which will be featured Friday and Saturday.

In view of the scores of inquiries that have come to the extension office during the past year concerning the efficiency of overhead irrigation, it was deemed advisable to include this important topic on the regular program of the institute.

Irrigation Topic
Professor H. A. Wadsworth of the division of irrigation investigations, college of agriculture, has made a detailed study of this important subject during the last six or seven months, and has made many practical and scientific observations which will be of economic value to all growers contemplating or considering the overhead system of irrigation.

Even to those who have systems installed at the present time, Mr. Wadsworth will have a valuable message. As a result of his studies, many mistakes have been observed and the institute will offer a special opportunity to present some of the things which should not be expected of an overhead irrigation system. In other words, several cautions will be submitted against improper installation and over-rating.

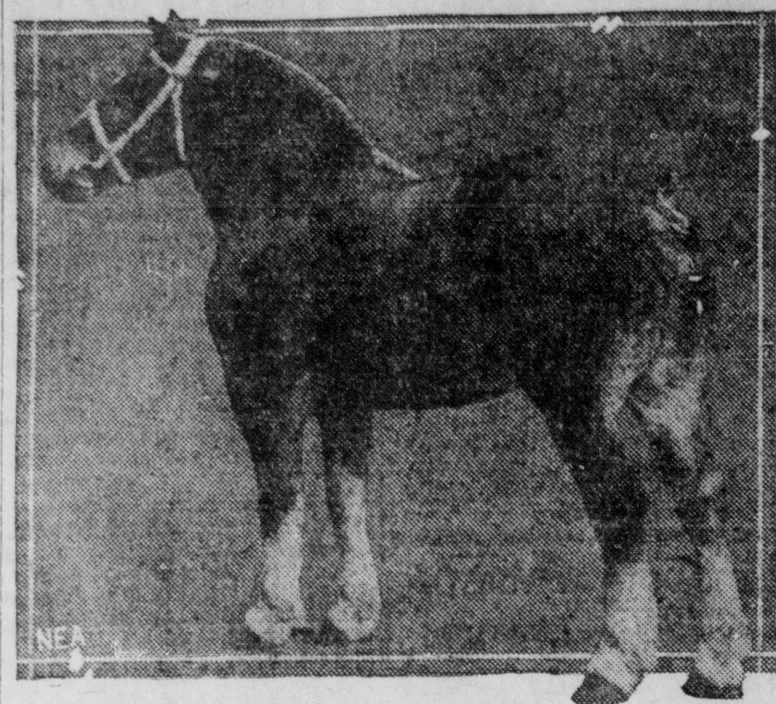

The sessions offer an unusual opportunity for the growers of Orange county to get the best information available on the various orchard problems. An invitation is extended to all growers to attend any and all meetings, which will open at 9:30 o'clock each morning.

SCHEDULE POULTRY CULLING SESSIONS

Indications are that the four poultry culling demonstrations which will be held in Orange county tomorrow and Friday will be exceptionally well attended, according to W. M. Cory, assistant farm advisor.

The meetings will be held as follows: Thursday, 10 a. m., place of M. E. Hill, Irvine street, near Sixteenth street, Costa Mesa; 2 p. m., place of Oscar Schildmeyer, Olive boulevard and Taft avenue, Orange; Friday, 10 a. m., place of Ralph Chaffee, one-fourth mile west and one-fourth mile north of Garden Grove; 2 p. m., place of E. Borchert, two and a half miles north of Garden Grove on Garden Grove boulevard.

HORSE SUPPLY DECLINING

Here is Pervenche, Belgian mare, who won the grand championship at the 1924 and 1923 Chicago livestock shows. The horse is considered one of the most valuable in the world.

POULTRYMEN TO HOLD MEETING HERE SATURDAY BY DEPARTMENT

Representatives of the poultry departments of the seven southern counties will hold an important meeting in the Hall of Records building here Saturday, starting at 10 o'clock. Will Hatch, chairman of the seven counties organization, announced today.

Among the matters scheduled to come before the delegates will be that concerning methods of theft control. Since Governor Richardson has vetoed the poultry bill passed at the last legislature, it is planned to devise a uniform county control measure, Hatch says. M. A. Schofield, noted Gardena poultryman, who is leaving soon to attend a national meeting of poultry instructors and investigators at Manhattan, Kansas, will be present.

All persons interested in poultry industry are invited to be present.

GROWERS URGED TO WATCH FERTILIZER EXIT ORIENTALS, ENTER MEXICANS

The department of agriculture of California believes that most citrus growers are careful in buying fertilizers. However, according to J. L. Avery, of the Los Angeles office of the division of chemistry, who was in Santa Ana today, there is still room for doubt. Avery states that recently, it was brought to his attention that a Los Angeles firm was selling a fertilizer to growers and collecting as much as \$240 per ton, or three dollars for 25 pound sack of the same. The material not only was labeled in such a manner that the grower could not know what it contained, but it was also not legal material, inasmuch as it was not registered.

Investigation by the Los Angeles office of the agricultural department proved that the material was composed of a medium grade tankage running about 4 per cent nitrogen, 10 per cent phosphoric acid, and a trace of potash, to which had been added 20 per cent iron and 8 per cent sulphur. The department expects to immediately institute court proceedings against this firm for selling a non-registered fertilizer, after which time the company may secure a license and sell the fertilizer under its true name and state the complete formula as required by law.

The department has no control over the price of the commodities it regulates, and it is therefore up to the grower to examine his fertilizer label and determine for himself if he is paying too much for the value received. George F. Gray, chief of the division of chemistry, has instructed his inspectors to take samples of fertilizer upon request of the grower. Such samples are taken free of charge to the grower, who may communicate with the state department of agriculture, 1028 Pacific Finance building, Los Angeles.

CITRUS MAGAZINE WRITES-UP HERD

The pedigreed cattle owned by D. Eymann Huff, manager of the Hewes ranch at El Modena, are featured in a layout and story which appears in the July issue of California Citrograph, a magazine for citrus growers published in Los Angeles.

An extract from the article follows: "Mr. Huff, who is a practical and thoroughly experienced citrus grower and shipper, has given the thing a thorough tryout and is firmly convinced that orange and lemon growers could afford to keep a small herd of fine bred stock on the properties. At the present time the Huff herd numbers less than 20 head. He does not favor having a herd of more than 20 head, because of the high value of the land in Orange county, due to its productivity when planted to citrus."

Cow Testers of Southland Plan Meeting In L. A.

Cow testers of Southern California counties will attend a meeting in the farm advisor's office, Los Angeles, tomorrow. Various matters appertaining to cow testing work in the Southland will be taken up. Among the Orange county men who plan to attend are Steve Grisct, chairman of the dairy department of the farm bureau; M. Mellinger, official tester of the county testing association, and W. M. Cory, assistant farm advisor.

SUPPORT PLAN TO ORGANIZE NEW CENTERS

A definite decision to encourage the organization of junior farm centers was reached at a meeting held in Los Angeles yesterday and attended by farmers' representatives.

Among those present at the gathering was A. C. Hardison, president of the California Farm Bureau federation, who stated that the federation is in favor of the junior centers.

Orange county was represented by W. M. Cory, assistant farm advisor.

The matter of forming junior centers will be left to the regular centers, since it is felt that unless there is interest in the project in the centers themselves, the junior bodies would have little chance of succeeding.

It was pointed out at the meeting yesterday that counties where junior centers are a success, junior farm bureaus will be formed.

Farm Secretary Speaks Tonight At Sacramento

SACRAMENTO, June 24.—Secretary of Agriculture William M. Jardine will be the principal speaker at a meeting held in the Senator hotel here tonight. Governor Richardson and representatives of various farmers' organizations will be present. Jardine's next speech will be given in Oregon. He plans to return to Washington early next month.

Hemstitching 5c yard. Sewing Machine Exchange, 321 W. 4th.

ORANGE COUNTY POULTRYMEN TO HEAR 3 EXPERTS

Three widely known Southland poultry experts have been invited to speak at the dinner meeting of the poultry department of the farm bureau at Ketter's cafe next Tuesday evening. It was announced today by W. M. Cory, assistant farm advisor. They are: E. C. Hogsett, Pomona, secretary of the Accredited Breeders and Hatchery project; George W. Masterson, La Verne, inspector for the project, and Cornell G. Ross, Los Angeles, formerly president of the Poultrymen's Cooperative Millin association.

C. D. Starosadsky, formerly a general in the Russian army, and now engaged in the poultry business near Riverside, who has been invited to speak here Tuesday, is expected to attend.

All poultrymen are invited to attend Tuesday night's meeting, Cory states.

FARMER IS HEAVY USER OF "JUICE"

WASHINGTON, D. C., June 24. The American farmer ranks next to the railroad and leads both the manufacturing and mining industries in the use of power, according to a report just issued by the United States department of agriculture. Approximately 60 per cent of the power utilized on farms is animal power. Tractors account for nearly 17 per cent, motor trucks about 4 per cent, stationary engines 12.5 per cent, windmills a little more than 1 per cent, and electrical installations 5.5 per cent.

Of the total amount of power consumed, about 70 per cent is for draft work and 30 per cent for stationary or belt work. More power is used for plowing than for any other single farm operation, almost 16 per cent of the total being used for this purpose, while road hauling is second with 15 per cent. Other draft operations requiring relatively large amounts of power are: Hauling about the farm, 7.5 per cent; fitting the ground for planting, 6.3 per cent; cultivating, 6.3 per cent; haying, 5.6 per cent; harvesting, 5 per cent; and planting and seeding, 2.5 per cent. Of the stationary work, threshing leads in the amount of power used, with pumping for irrigation and drainage ranking second.

SERVICE that SATISFIES

This is the most important factor in a motor car dealer's organization.

GOATHAM INVESTIGATES FIXED BOUT CHARGE

SPORTS OF ALL SORTS

Forced to make over a ball club that has disintegrated with age, the New York Yankees are facing the wait of many trying years or a lavish expenditure of money.

Four years ago, experienced writers around the American league circuit expressed the opinion: "We'll have to wait until the Yankees have gone to pieces. When they go they'll stay gone for a long while and then our clubs will have a chance."

The Yankees started going last year, when success and age dulled their ambition and brought them into a loafing spell that caused them to lose the pennant to the Washington Senators. They finished the job of going this season and they were so far gone after six weeks of the pennant race that the team had to be torn to pieces.

The Yankees, in trying to build over a championship team, are in the same position that Connie Mack was ten years ago when he broke up one of the greatest of all teams and predicted that he would build it over in a year. The Yankees have more money and they are more willing to spend than the Athletics, but the question arises, "Where are they going to buy the players?"

Scoured College Diamonds. Connie Mack went to the college diamonds and the bush league lots, but eight years of industrious search produced nothing and Mack had to go into the market. After ten years he succeeded in building up a team that may win the American league pennant.

Without quoting exact figures, Mack estimates that in those ten years he spent \$355,000 for players. It is impossible to estimate how much more the lean years cost the club when Philadelphia fans refused to pay money to see Connie working in his baseball laboratory.

With a \$5,000,000 investment, the Yankees can't spend ten years building over a team and if they are to have success quicker than Mack they will have to discover what was wrong with Mack's methods and experiment with their own.

In Earl Combs, Pee-wee Wanning, "Buster" Gehrig and Benny Bengough, the Yankees have a good foundation upon which to start their work of reconstruction, but the management of the team must get a chill when it looks over the pitching staff and wonders where three or four good young pitchers are to be found.

Begin to Rebuild Clubs. It so happens that two or three other clubs are in the process of being rebuilt and if the Yankees find prospects in the minor leagues, they will have to get to them first and pay more than the other clubs.

Minor league players are all gamblers. The failure of so many fancy priced stars from the minor leagues is the best evidence of that. Even the less touted players, who do not carry such high purchase prices, involve a heavy expenditure of their money in development.

Ed Barrow, business manager of the Yankees, who is one of the best informed men in baseball, estimates that it costs a major league club more than \$50,000 a year to maintain a scouting organization and that the club is lucky if it gets one good player. The cost of maintaining a scouting system includes the salary of scouts, the payment of expenses to and from the training camps for a flock of rookies and their board for several weeks. The club also faces obligations in placing young players out for development with minor league clubs.

The worst problem the Yankees will have to face will come when Babe Ruth passes. Even with the best of luck the Babe hardly can expect to star for more than three more years. He is too brittle and he plays too hard to last as long as Speaker, Collins and Cobb. When Ruth is through, it is hard to figure what will become of the Yankees.

The Grand National tournament is the great event of the archery season in Great Britain. It takes place in mid-summer, and it is generally held in a different place each year.

KIRKWOOD, BARNES AND SMITH QUALIFY

TROON, June 24.—MacDonald Smith, Jim Barnes and Joe Kirkwood, American professionals, were among the favorites in the field of 61 players who qualified for the British open golf championship which starts here tomorrow.

The long driving contest was the only event scheduled for today and the Americans were not entered.

Short Sports

CHICAGO, June 24.—Bob Cannell, three-cushion billiard champion, has been suspended by the National Three Cushion Billiard league for one year as the outcome of his conduct in a match with Willie Hoppe here. Cannell, after losing to the balk line cue wizard, slashed the top of the table with his pocket knife, causing Hoppe to refuse to continue the match.

SAN FRANCISCO, June 24.—Clifford Hoffman, Stanford weight star, opened training here today for participation in the A. A. U. meet July 3, 4 and 5. He has been visiting his home at Petaluma since return from the east.

Fights and Fighters

PHILADELPHIA—Danny Kramer, Philadelphia featherweight, won a ten round decision from Bobby Garcia, Baltimore.

WILKESBARRE, Pa.—Morrie Schaffer, Omaha welterweight, knocked out Pete Latzo, Scranton, in the third round.

NEW YORK—King Solomon, Jewish heavyweight, won a ten round decision from Ad Stone, Philadelphia light heavyweight.

NO CHANCE FOR WILLS-LENGLEN TENNIS MATCH

NEW YORK, June 24.—Mlle. Suzanne Lenglen, former world's champion tennis player, has slipped so far from her game that she must retire or accept a defeat the first time she plays against a first-class opponent, according to several competent critics who saw her play last winter.

Considerable comment was made when Miss Elizabeth Ryan, former California star, who has been playing in England for several years, defaulted in one of the most important French tournaments in the round in which she was to have met the French star.

French critics expressed the opinion that Miss Ryan was prompted through a long established friendship with Mlle. Lenglen to step out of the tournament and relieve her friend of the danger of being defeated. It will be remembered that the French girl defaulted at Wimbledon last summer and surrendered her title after she had been carried through a terrific match by the former American star.

The retirement of the former world's champion or her defeat would leave Miss Helen Wills as the undisputed champion of the world. She has a fair claim to the title now, but there will be some authorities who will not admit her superiority over the French girl until she can prove it on the courts. There is no chance that they will ever meet upon the courts, as the French star has declined two opportunities and there is no way to force her.

Miss Wills was beaten last year at Wimbledon by Miss Kathleen McKane, it is true, but everyone who saw the match knew that Miss Wills wasn't playing her game and that she would have beaten the British star just as easily as she did at Forest Hills two years ago, if she had been playing her real game. It is unfortunate that climatic conditions seem to disturb women players so much. Miss McKane was bothered just as much at Forest Hills as Miss Wills was at Wimbledon and it seemed that the climate in France provided the only even break for the players from the two countries.

Miss McKane and Miss Wills are almost certain to meet if England sends a team to this country to defend the Wightman Cup that was won from the Americans last summer at Wimbledon. It is not certain that a team will be sent, as the British Tennis association hasn't given any assurance to the United States that it can send a team over to defend the cup. Miss McKane, of course, would be a member of the team as she is the Wimbledon champion and by far the best player in England.

Content to Get Along
He looks nothing like a champion now. But he could very easily have been a champion or at least the remains of one.

Where glory once called during the days when he was champion of Mexico, Sam is now content to keep his stomach satisfied and life alive.

His rise and fall he keeps to himself. But the detailed reasons back of it are on sale for as little as \$100.

In general, says Sam, he was "done for by wine and women." He leaves out song. Perhaps there was none. Leastwise, it has been a long time since he heard music sweet enough to lead him astray.

Sam now longs only for one thing. He would like an encore to the jingle of hard coin.

His great pride is the fact that he was born in Boston.

"I see an Irish nigger," he says. "Born in the top floor of Boston. Can't fight no more. I see done. How about money, boss, for enough words for a book?"

Would Sell Life Memoirs
In memory, Sam still hears the shouts of the multitudes. His fists clasp and unclasp and his one partially good eye blinks and squints. The other one is shut and the eyelid droops over the empty socket.

By coincidence, Chicago has become the port of last call for fighters of the blood like Sam Langford. Jack Johnson also is here, a demitoid of the negro quarter and does some preaching on the side.

Sam and Jack share between them this admiration which is not what they want but better than none.

"I'd been fighting yet if I had watched my step," says Sam. "But I had a good time while it lasted. Why worry?" "Now boss, if you want to hear more you'll have to pay. I see got to capitalize on what I see got left."

The story of Sam Langford for \$200. What you say, boss, to a deal?"

From championship to this, and so it goes for those who live by the brawn.

There is nothing left when that is gone.

Sam squints in the sunlight and dreams of the days when his fists crashed through to front-page space and there was much wine and "girl friends."

Now there is nothing.

SAN FRANCISCO—Frankie Faren and Sammy Santos, lightweights, went ten rounds to a draw in the main event here last night.

TENNIS GIRL USES UMBRELLA WHEN WEATHER IS 'SUMMERY'

10,000 GATHER TO SEE SUZANNE PLAY

WIMBLEDON, June 24.—Braving the cold breeze and threatening clouds, more than 10,000 spectators were on hand today to see the initial appearance here this year of Mlle. Suzanne Lenglen, the former queen of the courts.

The French star will make her start today in the doubles with her friend and running mate, Miss Elizabeth Ryan, the former California girl.

They were drawn against Miss Coyler and Mrs. Lycette, the former Miss Joan Austen, who played through to the final against the Lenglen-Ryan team in 1923.

John Hennessy and Ray Casey, the Americans, form one of the teams expected to reach the semifinals of the men's doubles which start today.

L. A. A. C. Selects 22 Men for Trip To 'Frisco Meet

LOS ANGELES, June 24.—Twenty-two men will comprise the track team of the Los Angeles Athletic club at the national championships in San Francisco, July 4. They will leave for the northern city next Wednesday.

Those on the team are June Hanford, Johnny Powers, Nick Carter, Bob Maxwell, Tom Humphreys, Frank Smouse, Norman Anderson, Frank Moeller, Ralph Smith, Harry Vorne, Verne McDermont, Chuck Lewis, Roland Clark, Homer Frisbie, R. Patton, Ed Osborne, 7. Linsky, Glenn Brubaker, Alma Richards, Ed Merritt, E. Wiley and Chuck Eaton.

Mary Browne Off For East Tourney

LOS ANGELES, June 24.—Mary K. Browne, of Santa Monica, formerly national tennis champion and runner-up in the 1924 national golf championship, has left for the east to retrieve her lost laurels in the tennis game.

Miss Browne will compete most of the summer in tournaments back east and will be paired with Miss Helen Wills, national champion tennis player, in the America vs. England matches for the Wightman cup.

Piping 'Em Off

Yesterday's hero—Bill Bagwell, batting in a pinch in the ninth inning—doubled and drove in two of the runs that gave the Athletics a 3 to 2 victory over the Red Sox.

Fred Marberry, Washington star relief pitcher, fanned Babe Ruth in the eighth inning with the bases filled and the Yankees lost, 8 to 1.

John McGraw took active charge of the Giants for the first time since May 1 and the champions divided a double header with the Robins.

Carl Mays made his first appearance of the season and was batted out of the box, the Cubs beating the Reds again, 8 to 5.

The Phils took both ends of a double header with the Braves, 7 to 3 and 9 to 7.

CALLAHAN WINS BY K. O. OVER LE ROY

LOS ANGELES, June 24.—Mushy Callahan, erstwhile local newsboy, scored an impressive three round knockout over Russle LeRoy, Fargo, N. D., lightweight, who holds two newspaper decisions over Ace Hudkins.

The result was never in doubt. Callahan started in with the first going and was away out in front. Starting the third he landed a short right and LeRoy went down for a nine count. LeRoy staggered into another right when he arose and went down again. The finisher was a left hook to the body.

Woman Golfer Is Eight Under Par

TACOMA, Wash., June 24.—Establishing a new woman's record for the local course, Mrs. H. G. Hutchins of Winnipeg, with a score of 78 or eight under par, easily led the field of women golfers in the qualifying round of 18 holes in the annual Pacific Northwest Golf association meet here yesterday.

Indoor Magnates Hold Important Confab Tonight

Final arrangements for the opening next Monday night of Santa Ana's two new indoor baseball leagues will be made tonight when team captains and the board of directors meet in joint session at the Victor Walker sporting goods store at 7:30 o'clock.

A number of important matters are expected to come before the moguls. The schedule, drawn up by Bill Cole, is to be adopted officially and the representatives probably will take action relative to the setting of a definite hour for each of the nightly double-headers to begin.

President Vic Walker issued a request for all of the 18 teams in the two leagues represented.

KAPLAN PILOT SUSPENDED BY FISTIC BOARD

Scotty Monteith Asked to Prove Claim That Champ Crossed Gambling Ring

BY HENRY L. FARRELL
(United Press Staff Correspondent)
New York, June 24.—Stories, long in circulation, that a powerful gambling ring has been buying officials and fixing fights in New York are being investigated quietly by the New York boxing commission.

The rumors gained ground when "Scotty" Monteith, manager of Kid Kaplan, featherweight champion, was suspended until he can prove that boxing is not all on the square in New York or retract his charge that it is not safe for a champion to fight in New York.

He is said to have told the commission that the fight during the featherweight elimination tournament between Kaplan and Danny Kramer was "in the bag" for Kramer and that Kaplan crossed the smart money in New York by knocking out the favorite.

The commission suspended him until he presents proof of his charges.

Benny Leonard said several years ago that he did not like to defend his lightweight championship in New York and Mickey Walker admitted he disliked to risk his welterweight championship here.

The commission has been looking for some one familiar with the game on whom the squeeze could be applied. Monteith was the first one to come right out with a bare and open charge and the commission went after him.

If Monteith talks, there may be interesting developments.

HELEN JACOBS WINS
BERKELEY, June 24.—Helen Jacobs advanced further toward a junior championship here yesterday in the Pacific coast tennis championship tournament when she defeated Gertrude Lederman 6-1, 6-0.

When was George Sisler at the University of Michigan?—D. R. W. In 1912-13-14-15.

Here is the answer to yesterday's Crossword Puzzle.

WEE OF WELL

KNOWN S. A. MAN

IS SUMMONED

The body has been brought to

Santa Ana and funeral services will be held from the Smith & Tullih parlor at 10 a. m., Friday. Interment will be made in Fairhaven cemetery.

Mrs. Johnston became ill with appendicitis while attending the recent state convention of the insurance association in Lakeport, Lake county, with her husband.

Mrs. Johnston died shortly afterwards.

The deceased was active in educational work in Orange county and has many friends throughout the Southland.

Mrs. Johnston is survived by her husband, one daughter, Miss Adele, and two sons, Fred and John, of Santa Ana; four brothers, L. Yates, Elsinore; Ernest Yates, San Jose; Wilby and Irving, Whittier; two sisters, Mrs. Dexter Phillips, Lynwood; Mrs. Otto Boyd, Torrance; her mother, Mrs. Mary Yates, Elsinore. Mrs. J. Edmund Snow, of Santa Ana, is a sister-in-law of Mrs. Johnston.

Remarkable growth in the poultry industry of Alberta is indicated in a recent report. Prior to 1922 practically no eggs were exported from the Province. In 1923, 44,000 cases were sent out, and last year this figure leaped to over 60,000 cases.

NEW YORK, June 24.—Sugar easy; raw \$4.37@4.40; refined quiet, granulated \$5.55@5.70.

COFFEE—Rio, 21%; No. 4 Santos, 24@24 1/2.

CHICAGO CASH GRAIN

CHICAGO, June 24.—Cash wheat: No. 2 Hard, \$1.63 1/2@1.64 1/2; No. 3, hard, \$1.61 1/2.

Legal Notice

the 10th day of July, 1925, at 10 o'clock a. m., of said day, at the Court room of this Court, Department No. 2 in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Edgar L. Bowman, praying that a document now on file in this Court, purporting to be the last Will and Testament of the said Deceased, be admitted to probate, that Letters Testamentary be issued thereon to said Edgar L. Bowman at which time and place all persons interested therein may appear and contest the same.

Dated June 22, 1925.

RIDER RESIDENCE

LAGUNA BEACH CIVIC BODY SOON WILL OPEN DRIVE TO INCREASE MEMBERSHIP LIST

By E. M. DeAhna, Secretary Chamber of Commerce

EVERYTHING in this world being relative, we can draw upon our knowledge of past activities and successes and thereby establish a comparatively logical and equitable basis for prophecies as to the future. With this as an inspiration and an incentive, the members of the Laguna Beach Chamber of Commerce can, with an assured feeling of confidence, look forward to an era of constantly increasing usefulness, an era in which their efforts along the line of civil endeavor and community welfare will meet with the reward they so justly merit. For we look back over a period of two years' achievement, which is a marked credit to the work of the chamber, and a source of pride to the active workers in the organization who have made that record possible.

It seems particularly appropriate, communities throughout our country. Starting as an improvement association some years ago, in answer to a need which the growth and diversified demands of the village called for, it enlisted the efforts of those loyal men and women whose vision comprehended a greater Laguna Beach, and who realized that, as it would be years before the population and the assessed valuation would justify the incorporation of the village into a municipality, there was urgent need for an organization of such character to do the work that is ordinarily accomplished by a city council.

It was but natural that the improvement association would develop into a chamber of commerce, for thereby it attained a standing of prestige, and could, with consistency, take its place among organizations of like standing, imbued with similar ideas and working for the greatest good for the greatest number. And so the Laguna Beach Chamber of Commerce was organized, pioneered by those whose names are known wherever Laguna is mentioned; men and women who came here when the town was but a handful of shacks scattered along several miles of beach front, when the community was not much more than a wide space at the end of a rough road.

Foundation Is Laid

It is a far cry back to those days. Just as a few years from now it will be considered an equally long harking back to the days of 1923, and as the years slip by, the achievements of each will seem really stupendous in comparison with previous accomplishments. That is why, perhaps, that those of us who have been actively engaged in the chamber of commerce work for the past two years (since the last Laguna Beach edition of the Register was issued) feel that we have accomplished so much that is commendable, in comparison with the record of the past. But at the same time we must realize—and we do—that all that has been done during those two years, and all that is comprehended in the plans and projects of the chamber, is merely a foundation upon which will be built a broader and more substantial structure of civic welfare and progress by those who will "carry on" when the present generation lays down the burden.

Though incorporated as such and nominally a chamber of commerce only, this organization, by reason of the fact that Laguna Beach is not incorporated, must, of necessity, function along much broader lines than the ordinary chamber of commerce. The abnormal conditions which exist in Laguna Beach during the summer season, when our population is increased three or fourfold, puts demands upon the chamber of commerce which are not encountered elsewhere, and all the ordinary and extraordinary needs of a small city have to be considered and supplied. And for the funds necessary to the

gun Beach Chamber of Commerce was organized, pioneered by those whose names are known wherever Laguna is mentioned; men and women who came here when the town was but a handful of shacks scattered along several miles of beach front, when the community was not much more than a wide space at the end of a rough road.

It is a far cry back to those days. Just as a few years from now it will be considered an equally long harking back to the days of 1923, and as the years slip by, the achievements of each will seem really stupendous in comparison with previous accomplishments. That is why, perhaps, that those of us who have been actively engaged in the chamber of commerce work for the past two years (since the last Laguna Beach edition of the Register was issued) feel that we have accomplished so much that is commendable, in comparison with the record of the past. But at the same time we must realize—and we do—that all that has been done during those two years, and all that is comprehended in the plans and projects of the chamber, is merely a foundation upon which will be built a broader and more substantial structure of civic welfare and progress by those who will "carry on" when the present generation lays down the burden.

Though incorporated as such and nominally a chamber of commerce only, this organization, by reason of the fact that Laguna Beach is not incorporated, must, of necessity, function along much broader lines than the ordinary chamber of commerce. The abnormal conditions which exist in Laguna Beach during the summer season, when our population is increased three or fourfold, puts demands upon the chamber of commerce which are not encountered elsewhere, and all the ordinary and extraordinary needs of a small city have to be considered and supplied. And for the funds necessary to the

LAGUNA ART ASSOCIATION RECOGNIZED BY ARTISTS FROM ALL OVER COUNTRY

That the Art association of Laguna Beach is undoubtedly the city's most widely known organization in no idle boast. Written about in art magazines and newspapers, talked about by artists who paint both in the east and the west and by the thousands from near and far who visit the gallery, represented each year by enthusiastic delegates at the annual conventions of the American Federation of Art in such cities as St. Louis, Cleveland and Washington, D. C., its fame has gradually spread abroad.

Edgar Paine, its founder, having just returned from two years in Europe, tells us that even there he met people who knew about Laguna, its art and artists.

Founded seven years ago the Art association has grown steadily in strength and usefulness. More and more does it work for the advancement of art, not alone in Laguna but throughout the county and the state.

Its chief aim is to present to the public exhibitions of worthwhile character that it may come to know and love good art. To this end it maintains an art gallery in Laguna, open to the public every afternoon, where six complete changes of paintings are made during the year; an exhibit at St. Ann's Inn, in Santa Ana, with three changes, and a traveling exhibition which is shown in schools, clubs and libraries throughout the state.

The art department of the Orange County fair also is being cared for by the association.

Other special exhibits are sent out during the year. One went to Stanford university for a month this spring and with several additions, was later shown in Pomona College.

Through William A. Griffith, an exhibition was sent to Kansas, where it is now being shown in some of the best art galleries of the state.

Two years ago, for six months the traveling exhibition made a circuit of clubs, schools and libraries in Oklahoma, under the direction of one of the Oklahoma members, Mrs. Martindale, who comes to Laguna for a few weeks each summer to study art.

All of the exhibits are messengers of the beauty of California. They are sent out to sing the praises of her purple mountains, golden deserts and azure seas and incidentally they tell a little of Laguna, its artists and their association.

That the association has been such a success is due, in part at least, to three causes. First, to the loyalty and devotion of the few resident artists who for the last seven years have labored continuously to advance its interests; second, to the splendid co-operation of the non-resident artist members, who have often, at great inconvenience to themselves, sent paintings for its exhibitions, and last, to the fine appreciation the general public has shown in visiting the gallery and joining the association.

Of the 700 members, about 125 are artists, of whom about 25 live in Laguna. The remaining 575 members are friends of art all over the United States, who, through their visits to the exhibitions, have become interested enough to support the association with both their good wishes and their yearly dues.

The annual budget, which was nearly \$3000 last year, is obtained from the dues, admissions to the

gallery and the commissions on sales.

The little old gallery, tucked away under the beautiful eucalyptus trees in the heart of the village, has housed many fine collections of paintings and many Saturday nights during the summer months, when open house is kept, have the citizens of Laguna come to know interesting people temporarily stopping here or have renewed acquaintance with friends from near and far.

But the old gallery, so delightfully connecting the Laguna of long ago with the new Laguna now growing up, does not fulfill the ambitions of the association. Since the very first, it has been looking forward to the time when a real gallery, which would in itself be a thing of beauty and service, a fitting home for the valuable works of art which are now so generously entrusted to the old building, might be built.

That this dream is to be realized in the not too distant future all are confident. The location of the lot on the new Coast boulevard at the top of the hill on the cliffs, is ideal and members are looking forward to a fireproof structure of Spanish type, which shall take its place among the real art galleries of the state, a fitting monument to the energy and ideals of men and women who believe with all the ages past that beauty is one of the highest expressions of life.

"Evergreens" Most Attractive Office

Even if one does not buy a lot or rent a cottage for the week-end or summer, one will derive a great deal of pleasure from a visit to the "Evergreens," the uniquely attractive office of Mrs. M. H. Smith, realtor. She has listings covering practically all of Laguna Beach, Arch Beach and the various subdivisions.

COMMUNITY CLUB POTENT FACTOR IN SOCIAL LIFE OF LAGUNA BEACH FOLK

By ANNIE GAYNE PEAKE

The Community club was organized for social and educational interests and its steady growth during the last four years has fully justified the initial ideal of commercial life. In the past year of 1924, we erected our clubhouse on Ocean avenue on our own lot, as the first tangible result of our enthusiasm. Since then, the equipment has been entirely paid for.

The administration of the club is vested in a board, comprising Frank Champion, president; Frank W. Cuprien, vice president; Mrs. Mabel McCue, recording secretary; Melvin W. Stokes, corresponding secretary; J. W. Rankin, treasurer, and E. M. DeAhna, Annie Gayne Peake, Mrs. Effie Macbeth, Ann B. Mason and Herbert L. Riker, directors.

The club activity is divided into different sections, each under the leadership of a chairman and committee.

Players Oldest Committee

The oldest of these is the players, under the splendid guidance of Mrs. Alice Wakelee, assisted by a board of eight members. This section has equipped the stage with lights, curtain, cyclorama and stage furniture. During last year it gave a masque ball in November, a birthday dinner this spring, several evenings one and three-act plays very successfully. They are now planning an evening in July with three one-act plays under the direction of Miss Katherine Cravath.

The social section under the capable leadership of Mrs. Lydie Rankin, provides the dances, so-

Last year a card party, with prizes of sketches from several local artists, netted several hundred dollars. This committee has equipped the kitchen with stove, dishes, glass, silver, etc. The Monday Night Bridge committee, taken care of by Mrs. Frank Champion, has been continuing for several years. Each evening has two hostesses who provide the light refreshments from one-half of the door receipts. The other half goes into the exchange of the Monday Night bank account. This has helped the club at times in furnishing the hall where we have seating capacity for 325—and table space for nearly a hundred.

Educational Department

In the hands of Miss Peake. A recent innovation has been "Members night"—a monthly gathering of only members who bring their dinners. Coffee is served in the club. We discuss our club affairs, have a program, and keep an eye to the general run of our activities.

The Junior Community club is

Parent-Teacher Association Accomplishes Much

ASSISTS IN MAINTAINING ATMOSPHERE OF SCHOOL CENTER AS HUGE FAMILY

By MRS. MARIE H. THURSTON

In the year 1915, a group of all times, but always with the spirit of helpful cooperation in the school gathered together, under the able leadership of a noted artist, Abbie Williamson Hill, who also was an earnest member of the Congress of Mothers, and was interested in the problems of child welfare, and organized the first Laguna Beach Parent-Teacher association.

Outstanding accomplishments in the early years of their work were the employment of the first primary teacher and paying the greater part of her salary that year; providing for the support of five French war orphans for two years. When the need has arisen, the Parent-Teacher association has supplied clothing for some families, gifts at the holiday season, and always a school Christmas tree, with its jolly Santa Claus, candy and fruit, and a practical gift for each of the children.

Thus, in the days when the writer was principal of the Laguna Beach school, and one of the vice presidents of the organization, the Parent-Teacher association helped to maintain the atmosphere of the school center as a great family: cheerful, happy, and interested in every member.

Develops With School Growth
As the school has grown, the association has also developed, with greater problems before them at

BEACH FOLK DEPEND MUCH ON CLUB LIFE

(Continued from Page 17)

fulfillment of these needs the chamber of commerce depends entirely upon the voluntary donations from its members and friends, through the medium of membership fees and contributions to its service fund.

We are now on the eve of a campaign to increase our membership and to establish a fund to provide the finances needed to consummate the projects contemplated for the immediate future. In this campaign we will have the assistance of the Los Angeles Chamber of Commerce, whose field department will furnish active field workers and speakers to inaugurate the campaign and assist in making it a success. The main idea in this campaign will be to educate the people of Laguna Beach in the work of the chamber, to imbue them with the belief that selected as their home, and which they deem good enough to invest in and to live in, is surely good

Teacher association. To children needing such, glasses have been supplied. So, in every channel, where the opportunity is given, we find the Parent-Teacher association working for the building up of the body and mind of the child for the future American citizen. For we realize that, "as the man thinketh in his heart, so is he," and may I say, "as the child traineth his mind and heart, so is produced the man."

"I took a piece of plastic clay and fashioned it and went away. I came again another day to remould the piece of clay."

"The clay had hardened." So we, the Parent-Teachers of Laguna Beach, realize that today we are moulding and helping to form the plastic child minds that play within our yards and upon our beaches. It is our desire, by example and every means, to help mold well, with characters that ring true to the great American ideals, which shame deceit and scorn graft; with a high purpose and a desire to aim straight and hit square.

In order that the people may know the scope of the work that is comprehended in the program of activities of the chamber, the following is submitted as included in the various functions sponsored

GOLF ON THE OCEAN FRONT

Above is the fourth hole at the Dana Point Country club. In the lower picture, left to right, are: Harry Gaspar, former Cincinnati National league hurler, "Bill" Bird, an official of the Dana Point club and Gavvy Cravath, putting. Gavvy is a real estate dealer at Laguna but formerly was one of the star ball players of the National and American leagues. Gavvy takes an afternoon off frequently to play over the temporary nine hole course at Dana Point.

enough for them to take an abiding pride in its progress and improvement; and as such progress and improvement can best be accomplished through the efforts and energetic activities of the chamber of commerce, that membership in the organization and contributions to its service fund are really in the nature of substantial investments that will draw compound interest in improved conditions and increased valuation of property holdings.

The further expansion and maintenance of the street cleaning work, to include the regular cleaning of the beach and the cleaning and sprinkling of all of our downtown streets.

The sign-posting, correcting and naming of streets and the working out of a house or lot numbering system.

Maintenance on the beach of lifesaving apparatus, such as life guards and lifelines.

Maintenance and upkeep of swings, trapeze, etc., on the beach.

Employment and support of a competent police officer to protect the personal and property rights of the citizens of our town.

The wise and careful expenditure of sufficient money to maintain a regular, progressive advertising campaign, with particular attention to the getting up and printing of attractive folders of Laguna Beach, and appropriate and attractive road signs.

To do all possible within our power to facilitate the bringing of water (the district having already

been approved) and gas into our town.

To work constantly for the completion of the Coast boulevard.

To work with the supervisors in the installation of a lighting system, which has already been approved.

To encourage and foster a wholesome community spirit and development, for the common benefit of our entire citizenship.

To perform all other duties and functions properly belonging to a chamber of commerce.

We have gone over the various functions and projects that have been performed or should be performed by the chamber of commerce while Laguna Beach is an unincorporated town (some of the most essential of which are outlined in the foregoing paragraphs), and have estimated to the best of our ability the financial requirements of our body to be from \$500 to \$600 per month.

Heretofore the business men of Laguna Beach were called upon to bear practically all the burden of financing these projects, although the entire town benefited by the activities of the chamber. Under the new plan which will be explained in detail during the progress of the campaign for membership previously mentioned, all citizens and property owners will be called upon to help finance our needs, and

as the plan provides for a very equitable distribution of the expense, the individual amount required will be so small as to entail no burden upon anyone. All residents, whether they own property or rent it, will benefit in many ways by the chamber of commerce activities. Fire and police protection, the cleaning of the streets, maintenance of life-saving apparatus, the securing of an adequate supply of pure water, and the installation and maintenance of a street lighting system; all these are matters and things that concern each and all of us, whether we are permanent residents here, or merely sojourners during the summer or over a weekend.

Membership Business Directory

The membership roll of the Laguna Beach Chamber of Commerce is in substance a directory of the loyal men and women who believe in Laguna Beach, who have faith in the ultimate development of the town along lines which will make for civic betterment and improvement without a sacrifice of those ideals which have made our community known far and wide as "the beach that is different." They are evidencing their faith by their works; they have confidence in those who are assuming the burdens of civic government and control, and it is their cooperation and support that we are depending upon in our efforts to make Laguna Beach, a place which anyone will be justly proud to call their home.

North Carolina was the first state to provide a specific compulsory education law for the deaf.

VILLA CONSTRUCTED TO MEET BIG NEED

Laguna Beach suffered a shortage of comfortable and attractive accommodations for visitors until the Villa was constructed, and its addition to the hotel facilities of the town certainly filled a long felt want. The Villa comprises a large number of cottages, of one, two and three-room size, all equipped for light housekeeping, the building being located over a large area, and the grounds beautifully laid out. There is also a large, two-story office building, which embraces a commodious lounge and sun parlor, with a delicatessen for the accommodation of guests. Mrs. Ada E. Purpus is the resident manager, and her reputation as a genial and efficient hostess has established the Villa among the traveling public.

L. B. Sheet Metal Works Keeps Busy

All kinds of sheet metal work can be supplied by the Laguna Beach Sheet Metal works, whose shop is located on Forest avenue, across from Gardner's garage. W. J. Joyce, the proprietor, is a mechanic of many years' experience, and the high quality of his work is in evidence on numerous buildings in the town.

No place on the entire coast can compare with Laguna Beach for scenic grandeur. It is the most picturesque spot in Southern California, and no pen or picture can do justice to the views from Laguna Beach.

Laguna Beach has more than 400 cottages, tent city, hotels, restaurants, boarding and rooming houses, stores, garages, post office, free camping sites, electric lights and telephones, lighting system covers the entire section of Laguna. An up-to-the-minute sewerage system has been installed, and a new water district has been approved, guaranteeing a plentiful supply of water.

Laguna Beach is 54 miles by auto from Los Angeles via Santa Ana, 47 miles via New Coast Boulevard, 71 miles from San Diego, and 21 miles from Santa Ana.

LAGUNA BEACH, CALIF.

Realty Board Labors for Better Laguna Beach

ORGANIZED LESS THAN ONE YEAR AGO, BODY MAINTAINS 100 PER CENT MEMBERSHIP

Less than a year ago the Laguna Beach Realty board was organized. Since that time it has maintained a 100 per cent membership of all firms engaged in the real estate business in Laguna Beach. From its inception, it has cooperated with the chamber of commerce and has relieved that body, to a degree, of the problems before the chamber for solution, particularly those affecting the public interest in Laguna Beach.

The real estate men of Laguna Beach realized that, only by the cooperation of those whose mission it is to interest home builders in this section, could the future be safeguarded in Laguna Beach's development from village to city. The need for an organization that would maintain Laguna Beach for the artist and nature lover, perpetuate its traditions and its quaintness, and at the same time invite those who daily discover these shores to remain as residents, brought the Laguna Beach Realty board into being.

At almost its first meeting, the members of the board agreed to abolish the billboard system of outdoor advertising. As a result, conspicuous "for sale" signs no longer mar the highways and hillsides of Laguna Beach. Through the activities of the board, working through County Assessor Sleeper, many of the apparent inconsistencies of last year's tax roll have been eliminated. Through its affiliation with the California Real Estate association, the Associated Realty Boards of Orange County and the national association it has participated in the development of the entire country and state.

A large percentage of the membership has enrolled and has nearly completed the course in real estate offered by the University of Southern California. This course consists of 20 weekly classes and embraces the entire field of real estate transactions, from listing property for sale to completing an escrow. City planning and sub-

division projects are included in the course.

Plans have been effected for comfortably locating thousands of newcomers, approaches to the public beach have been safe-guarded, and an organized opposition to the introduction of any undesirable features characteristic of many beach towns will be maintained by the board.

"Every member of the board realizes that Laguna Beach is now in a transitory stage between a village and a city," said Roy W. Peacock, president of the board. "There was a marked increase in activity in real estate immediately after the highway was opened connecting us with Long Beach and Los Angeles. None of us will venture an opinion as to real estate values in Laguna Beach five years from now. At the end of that time, a paved Coast highway between San Diego and Los Angeles will be an accomplished fact, an abundant supply of good water will have solved that difficulty, gas will be available, and pioneering in Laguna Beach will be but a pleasant memory. Ours is the task to see that Laguna Beach grows more beautiful, if possible, with the lapse of time. In the meantime, the board will stand squarely behind every organization and individual who has the ideal of the greatest good for the greatest number."

The officers of the board are Roy W. Peacock, president; Joe Skidmore and A. B. Marshall, vice-presidents; A. S. Hall, secretary-treasurer, and John A. Harvey, attorney for the board.

London has 800,000 women and girls employed in business and the professions.

A Duluth woman has a peony garden containing 140 different varieties of the plant.

LAGUNA C. C. TO OPEN DRIVE FOR MEMBERS

(Continued from Page 17)

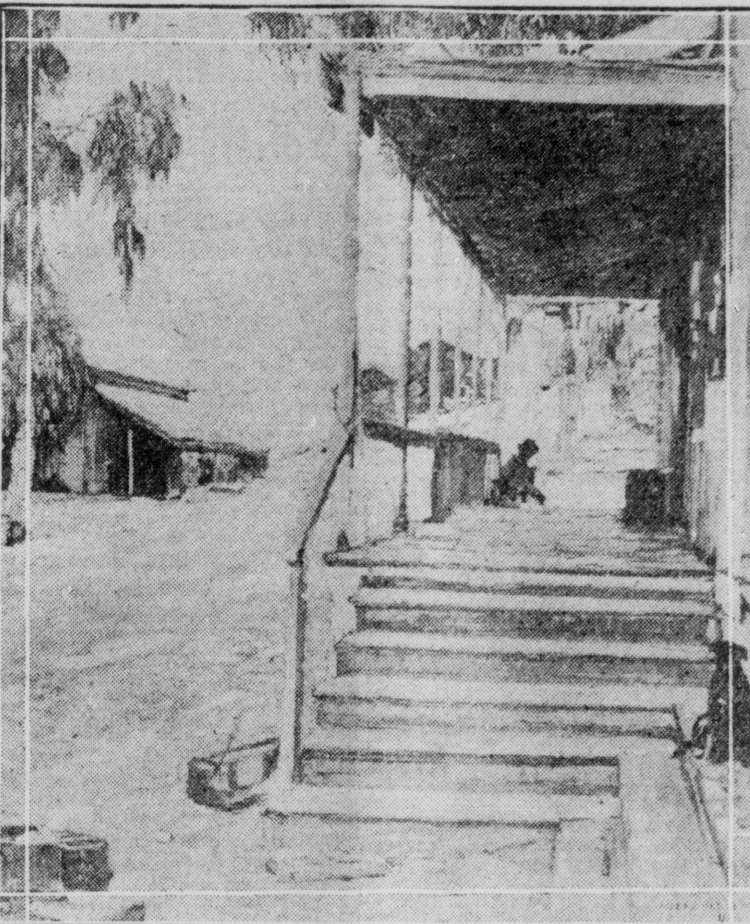

an auxiliary organization, under the able supervision of Mrs. Roy W. Peacock. They are a self-governing body, electing their own officers and board of director and arranging programs of much interest to the members. Their meetings are held on the first and third Fridays of each month.

The minstrel section is another prominent and flourishing phase of the Community club's activities in the line of entertainment. Organized three years ago under the direction of E. M. DeAhna, they have presented a minstrel show each spring, their third annual performance being given on two nights in April of this year. The show was so especially meritorious that the company responded to a request to present it to the people of Capistrano, and it was given in the high school auditorium there on the evening of May 14 before a capacity audience.

Community Yuletide Festival
One of the outstanding events in the social life of our little town was the community Christmas festival held in the club building last year. Sponsored and supported by every organization in Laguna Beach, it was a splendid exemplification of what community effort and cooperation can accomplish. Every child in the community was the recipient of a gift, and the occasion was made most enjoyable by a program of music and the presentation of an allegorical play symbolic of the season.

The immediate future activities of the Community club will be centralized in the Spanish fiesta and carnival, to be held on the club grounds and in the building on August 5, 6, 7 and 8. Elaborate plans are now under way which indicate that it will be the most pretentious affair ever sponsored by the club. There will be booths throughout the grounds, all appropriately decorated, and a program of entertainment will be provided for each evening in the clubhouse. The dramatic section will present a series of one-act plays, the minstrels will draw upon their ample supply of talent for several offerings, and there will be a varied program of music and other attractions. It is the intention of the club members to carry out the fiesta idea throughout the town, and all who are interested in the success of the occasion have been requested to wear Spanish costumes during the week of the fiesta. The various organizations of Laguna Beach have been enlisted to aid in the success of the affair, as the proceeds will be devoted to the completion of the Community club building, in which every resident of Laguna Beach feels a pardonable pride.

TWO YEARS AGO AND TODAY

The above picture shows the First National Bank building in Laguna Beach. The lower picture is the same corner two years ago when the building housed the Laguna Beach Postoffice and Isch's Grocery. The lower picture was photographed from a painting of the famous old land mark of the beach city.

SKIDMORES FACTOR IN L. B. BUILDING

Closely identified with the development of Laguna Beach for a great many years, the members of this firm have devoted time, energy and money to the betterment of the community in a multitude of ways. Pioneers in the development of water, active in every movement for civic progress and the improvement of the welfare of the town, the Skidmore corporation is undoubtedly one of the town's best assets. Coast Royal is the big project which this firm is featuring at present, and as its development is along lines similar to equally pretentious subdivisions in Southern California, it is attracting the attention of many who desire a "Lodge."

Engineering Firm Has Big Business

Locating here recently, McPherson and Gowan, civil engineers and surveyors, already have established themselves in the business circles of Laguna beach and are doing efficient and satisfactory work for a large clientele. Both men have had many years of experience in their profession and merit the success which they are achieving in our community.

Grants Specializes On Home Cooking

Home cooking appeals to everyone, and the cozy little lunch room conducted by the Grants, on Forest avenue, certainly fills the bill when it comes to dishes and pies "like mother used to make." Each day's menu includes several items of the home-like sort, and the pastry has a reputation that extends far beyond the environments of our town.

Hoover Grocery Trade Extensive

Featuring a daily delivery service that covers the entire area from Arch Beach to McKnight's addition, specializing in the "Iris" brand of canned goods, and with a corps of efficient and genial clerks this store has built up an extensive trade which is fully merited by their unequalled service and the quality of their goods. Planning a dinner for few or many guests is made not only an easy but a pleasant task by a visit to this store, or by a call over their telephone, which is 112.

HEISLER BACK FROM TRIP TO EASTERN COAST

"I was glad to get back. There is no place in the country to compare with Laguna Beach."

That was the high light of an interesting interview in The Life office with H. G. Heisler, president of the Chamber of Commerce, who has just returned from a trip that took him to the eastern coast of the United States. Mr. Heisler brought good news of a real prosperity wave in the East that is rolling westward. Business was good everywhere east of Chicago, and Mr. Heisler says it is bound to hit California before long.

The millions of dollars being spent by the promoters of Florida's great boom are having their effect and the East is talking Florida, according to the Laguna Beach capitalist. Lots are being sold in Philadelphia, New York and Atlantic City without taking the prospects to Florida. The great advertising campaign, in which double page advertisements are being published in all kinds of papers and magazines, is having its effect. The boom is unprecedented in the history of the United States, and Heisler is quoted as saying that it will last two years.

Many of the Los Angeles realty and oil men have made fortunes in Florida in the past year and have returned to live in California. A great many of the salesmen to be found in all large centers in the East were former California men.

"Florida will grow, but that will not stop the growth of California," said Mr. Heisler. "Anyone who is permitted to live in this wonderful climate where the living cost is low, is blessed and the fame of California cannot be dimmed by the boom of any other place. We do not know out here the terrors of the extremes of heat and cold. There are no slums and there is

SUNSHINE CAFE IS ATTRACTIVE PLACE

Conveniently located on Forest avenue, the Sunshine cafe is one of the most attractive of the several restaurants in Laguna Beach, and the superior character of its service has won for its management a merited patronage of satisfied customers. They specialize in short orders, and their cream waffles are a delicacy greatly appreciated by lovers of this tasty dish.

Radio Firm Has Fine Equipment

Not very pretentious as to the size of its store, but carrying a complete line of electrical supplies and specializing in radio equipment, this firm bids fair to become one of the leaders in their field. Their place is on Forest avenue, next to the Coast Garages, and citizens are cordially invited to call and inspect their offerings.

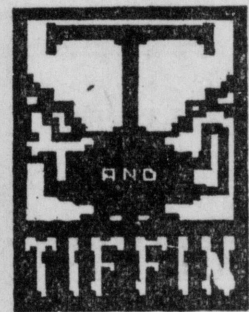

no abject poverty. I went into the East Side of New York and saw suffering that gives one a feeling of horror. California is free of that sort of thing. In the summer time the poor are forced to sleep in the parks for a breath of pure air and in the winter time they suffer from the cold in badly heated and ventilated tenements."

Mr. Heisler said that Hollywood, Fla., is making a great fight to capture the motion picture industry. There are quite a few studios and the town will spend \$15,000,000 to make a harbor without the aid of the government.

Mr. Heisler visited in Columbus, Ohio, Chicago, Camden, N. J., Rutherford, N. J., where he made his headquarters; New York, Rockaway and the Highlands of New Jersey, where it is very beautiful.

"The best part of the trip was the drive through the Laguna Canyon on my way home," said Mr. Heisler.

Laguna Beach Woman's Club Is Power for Good

WITH MEMBERSHIP OF LESS THAN 100, BUYING OF HOME SITE REVEALS PERMANENCY

By JULIA BROWNE STRODE
President Woman's Club

The Federation of Woman's clubs is one of the most powerful organizations in the world today, and the various units which form the sum total of its strength are to be found in almost every part of the world, representative of this power which makes for the uplift of humanity and the betterment of the world.

At a meeting of the general federation, in Los Angeles, last summer, women from almost every country in the world and from almost every island in which civilization has taken root brought reports of their work, their heartening messages and the strength of their cooperation. Thus, "strength, united, is stronger." Thus, has the federation become a power which all powers acknowledge, a force with which all governments must reckon, both out of respect and out of necessity.

Get Ear of Congress
Formerly, an appeal to congress, by the most noted of our women, not always brought a response, now the fact that the federation is back of such an appeal brings immediate attention. This statement does not mean that the federation prides itself on its power apart from men, but that it is working for and with men in all ways

that make for good and progress. It knows no separateness and its work is always constructive. But from the most partisan and mercenary viewpoint, be it said, the federation represents more than a million votes and controls, through the love of the fundamental virtues which it represents, more than a million more. Consequently, when the federation makes an appeal to a legislative body, or any one of its representatives, it is more than likely to receive the hearing which is its due. And in this way, through an exchange of the masculine and feminine viewpoint, a deeper and broader understanding is attained and greater progress for the whole of the human race. Back of this consolidated movement, in the not far distant past, stand a few heroic figures, the one time butt of many a joke and much ridicule, brave women whose dreams have been made a reality through organization. As Mrs. Alice Winter, past president of the general federation says, "We have the machinery and we have the power to get a higher kind of citizenship at work and to put into public affairs the ideals of which we have dreamed." Thus it is to be seen, that the Woman's club of any community is a power whose influence is, possibly, more far-

reaching than that of any other organization.

First to Join Federation
The Woman's club of Laguna Beach was the first club in Orange county to join the national federation. It is also a member of the state federation and the southern district federation. It was formed in January, 1922 by a group of women who met at the Art gallery under the leadership of Mrs. William Swift Daniell and Mrs. R. Clarkson Colman. Mrs. Daniell became its first president. Wherever the earlier woman's clubs of the country were organized for study or self-culture, and often very exclusive in their membership, the Woman's club of the federation includes all women and is a national thinking body.

As a proof of the permanency of the Women's clubs, their immediate effort is to make preparation for founding a home. This the Woman's club of Laguna Beach did, purchasing a lot on the prospective Coast boulevard, which lot one year from the date of the purchase is more than half paid for. And although the club's environment is but that of an unincorporated village, and its paid membership scarcely 100 it has been of assistance to other organizations—the library board, the Community club, the Art association and other civic enterprises.

Club to Erect Fountain
The club has raised a sufficient sum of money for the erection of a fountain, designed by Mrs. Julia Bracken Wendt, which will be erected for public use on a plot of ground overlooking the ocean. Its setting is to be landscaped by Miss Florence Yoch, who has acquired her knowledge of landscape architecture in various countries of the world. Miss Yoch is a daughter of Laguna and a member of the Woman's club. Among the public entertainments given by the club was an especially lovely Greek festival, given three nights in the week in the public square, directed by Mrs. Edna Lee Rider, which attracted people from all over the country. The club also gives each year an annual picnic and a May day fete.

Owing to the absence of the club's two vice presidents throughout the greater part of the year and the serious illness of its two directors, somewhat of the civic work of the club has been delayed, but its knowledge of federation work and its efforts along federation lines has amazingly broadened and increased.

The club sent its representative conference for Peace, lately held at Washington, Mrs. Seward A. Simons, a prominent club woman of California, and a member of the Laguna Beach club. Mrs. Simons upon her return gave a detailed account of this conference before the club on the "Cause and Cure of War," and other matters of importance to home and country taken up by that conference.

Another of our noted members, Mrs. E. P. Crane, well known throughout California and the east for her philanthropic club work, gave, under auspices of the club, a memorable meeting and banquet at Arch Beach tavern, which was attended by our most prominent citizens. The subject of discussion for the evening was, "The

Preservation of the Natural Beauties of Laguna Beach." The chief speaker of the evening being the Rev. Mr. Minifie, of London, Eng.

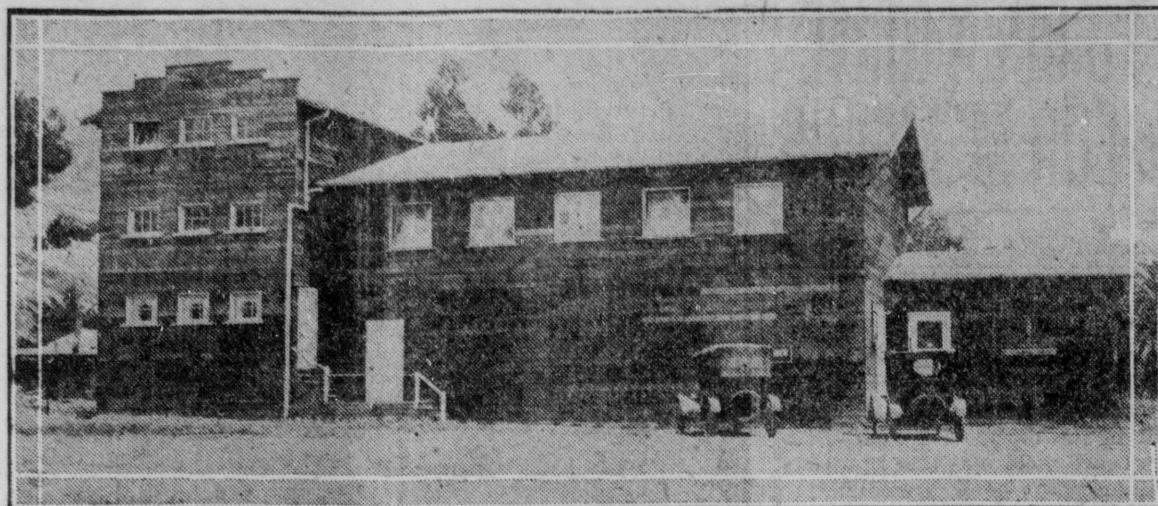

Splendid Programs Given
The writer regrets that, in this last minute's hurried report, she has not the program of the year at hand from which to give the correct data and names of our many eminent speakers. However, excellent programs were put on by the various program committees, whose chairmen were Miss Anna Hills, art; Miss Mary Gray, literature; Mrs. Bertha Mott, music; Mrs. E. P. Crane, public affairs. The work of our press chairman, Mrs. Marion Munson Forrest, of the Laguna Beach Life, has been both efficient and far-reaching, and is not to be excelled by any reporter of the entire federation of clubs. It is to these committeemen, to the members of the club as a whole, holding to the highest ideals of the club as a social organization and as a member of the general federation, that the club owes its success for the present year.

The new officers of the club were installed Friday, June 19, Mrs. Ada E. Purpus becoming president; Mrs. H. G. Heisler, first vice president; Miss Lolita Perrine, second vice president; Mrs. Frank Champion, secretary; Mrs. Joseph Thurston, corresponding secretary; Mrs. H. C. Hind, treasurer. Mrs. Purpus is a woman of much strength of character and executive ability, and by her leadership will do all in her power to carry on the work of that "invincible million." Striving for peace, the preservation of the beautiful, for health, righteousness and humanity in these United States and the world.

A newly developed kiln dries lumber and at the same time recovers the turpentine from it.

Sale of liquor in the army canteen was abolished 25 years ago by Congress.

POPULAR GATHERING PLACE

The Community club house in Laguna Beach is one of the popular gathering places for the citizens of the artists' colony. Here all community plays are given and it has been used on many occasions for art exhibits. It was built by the people of Laguna Beach through popular subscription.

BEACH REALTORS ACTIVE AT LAGUNA

A record of two big deals in one week has been established at Laguna Beach by the Leach Realty company, agents for Sunset Hills and Barranca Vista tracts.

The first deal was closed when Tom Sayles sold his half of the dance hall property on the coast highway and Ocean avenue to Joseph Farrell, of San Diego, for \$20,500. The second was consummated when H. G. Heisler disposed of 140 feet of property on the boulevard to L. E. MacEwan and O. B. Reed of Riverside.

Fred A. Kelforst, partner of Fred A. Leach, who made the two deals, has closed with a group of Los Angeles men for the Heisler property when he learned that MacEwan and Reed had already deposited their checks.

The Leach company operates a rental department to take care of the constantly increasing requests regarding rentals in Laguna Beach. The firm's office on the boulevard is of such unique construction as to attract the attention of all visitors to the famous artists' city.

Ropp and Mackey Firm Is Booster

Both members of the Ropp and Mackey firm are young in years, but experienced in their special line of endeavor—real estate—in general and contracting and house building in particular. Both also are active in the work of the chamber of commerce and other local organizations, giving of their time and efforts to the development of the community and the furtherance of any project which tends to enhance the welfare of Laguna Beach.

Yoch Firm Active In Beach Affairs

Under the able management of N. E. West, the affairs of the Yoch company are being administered in a manner which has meant and will continue to mean a great deal for the development and improvement of Laguna Beach. In the last two years they have erected the substantial and attractive building which houses the Citizens bank, the postoffice, Skidmore Brothers corporation, Macbeth's Style shop, the Laguna Electric company, the Laguna Beach Life office and a branch of Smith's Jewelry store, and also the general office of the Yoch company. Their local holdings of real estate are very extensive, and Mr. West's continual activity in civic affairs is a most valuable asset to the community.

New Tract Known As 'Temple Hills'

Joseph S. Thurston has the distinction of being the oldest resident of Laguna Beach, coming here as a child some 50 years ago. Always closely identified with the welfare and development of the community, active in all civic enterprises and frequently called upon to take a leading part in the work of the various organizations, he has a record of achievement of which he may justly feel proud. He has recently placed on the market as a subdivision a tract of land appropriately named "Temple Hills," which is destined to become one of the most attractive and desirable locations for home in the community. Plans for the development of this subdivision include many features that will commend it to the prospective home builder.

The British Royal Air force has adopted the type of parachute used by U. S. aviators.

BEACH SAFETY WILL BE TOPIC OF DISCUSSION

Beach and surf tragedies are drawing official attention, it was indicated today, by receipt of an invitation extended by Mayor George E. Cryer, of Los Angeles, to the Orange county board of supervisors to attend a conference at the mayor's office Wednesday, at 2 p. m.

Discussion of life-saving equipment and facilities at the beaches of Los Angeles and Orange counties is planned at the conference, which the mayor's letter states will be attended by the supervisors of both counties and mayors of the beach cities.

The number of persons whose lives have been endangered at the beaches of Los Angeles and Orange county has brought to my attention the fact that more adequate life saving equipment and facilities are needed to provide protection for the public during

the coming summer," Mayor Cryer's letter says.

The conference in his office was suggested, the mayor said, by representatives of the American National Red Cross, who are expected to be present and offer suggestions.

Although the mayor's communication made mention of no specific incident, the projected conference is believed to have been given stimulus by the recent drowning of five Riverside men at the mouth of Newport Harbor, where several ocean tragedies have occurred within a year.

Plumbing Co. Has Supply Store

The L. B. Plumbing company not only carries a full line of plumbing supplies of every conceivable character, but also has a show room with several completely equipped bathrooms. Located on Forrest avenue, the store is especially attractive and as the company specializes in the Crane line of plumbing supplies, which is standard throughout the world, customers are assured of only the very best. The staff of workmen is under the supervision of a master plumber.

OCEAN FRONT PROPERTY IN LAGUNA BEACH BRINGS BIG PRICE FROM BEVERLY MAN

Laguna Beach ocean front property continued to move upward this week when the Leach Realty company sold 100 feet of land on Coast boulevard west of the slough to M. B. McMillan of Beverly Hills and Laguna Beach for \$28,000.

Following the sale to Mr. McMillan by Fred A. Gleiforst of the Leach firm, Fred A. Leach sold the east half of the property to D. H. and Louis F. Swartzmann, Los Angeles, for \$14,000. Mr. McMillan retained the west half because it is at the corner of Foster avenue, which is to be cut through to the ocean. The land is between Steve's Service station and the slough.

It was the third turnover of the property in 21 days. Mr. Gleiforst making the McMillan sale for L. E. MacEwen and O. B. Reed of Riverside, who purchased 140 feet from H. G. Heisler 21 days ago.

Messrs. MacEwen and Reed still retain 40 feet from the slough east. They will improve this property with an arcade and will rebuild the bridge over the slough to a width of 40 feet. This announcement is the first definite step toward improving the south side of Coast Boulevard at that point with a substantial building.

Recently Mr. McMillan completed

a \$25,000 home on the ocean front at Arch Beach. He is a retired steamboat owner who operated on the Great Lakes and when he came to California built a home in Beverly Hills, but he spends a great deal of his time in Laguna Beach and has watched its development slowly.

Take Whole Strip
The 50-foot strip from Foster avenue east appealed to Mr. McMillan and he made a \$14,000 offer for it. This was refused by Messrs. MacEwen and Reed who had already made plans for the 40-ft. piece at the east end of the property and wanted to sell the 100-foot strip intact. They paid \$32,500 for the 140 feet of frontage three weeks ago. Mr. McMillan finally consented to take the whole 100 feet in order to buy the corner lot.

Just after this deal was made Kenneth S. DeLaney of the Leach firm rented a house to the Messrs. Schwartzmann who have a chain of seven jewelry stores. He found that they had read a great deal about Laguna Beach and were impressed with it. They called later to see Fred Leach and the deal for the east half of McMillan's purchase

L. B. ELECTRIC CO. HAS RADIO PARTS

Laguna Beach Electric company is an establishment of which Laguna Beach is justly proud, not only by reason of its attractive appearance and the complete variety of goods handled, but especially because the proprietor, C. E. Siglin, is a practical electrician of many years' experience whose work measures up to the highest standard of excellence. A radio department has been recently added so that the needs of Laguna Beach people in this line can be filled at all times.

Peacock and Hind Do Big Business

Roy W. Peacock is not only one of the leading members of the real estate fraternity in Laguna Beach, but he is a power for good among the active workers for civic improvement and progress. His slogan is: "A satisfied customer is my best salesman," and that he has a satisfied clientele is amply evidenced by the fact that he has been successful in his line of endeavor. Mr. Peacock does not specialize in lots or acreage in any particular section of Laguna Beach, his listings covering all desirable sections. He also represents a large line of fire, indemnity, burglary and plate glass insurance, and bonding companies.

H. C. Hind, who has an office in the same building, is a leading contractor and builder whose quality of work is in evidence throughout the community, many of the more pretentious residences being the product of his planning and personal supervision.

~~~~~  
chase was made as soon as they saw the property.

"Big money is continuing to buy in Laguna Beach," said Mr. Leach yesterday, "and they want more of it. As soon as the bonds were voted for the water district there will be a scramble for beach front lots and the property on the back streets will advance accordingly."

**ArCADE AND STORES**  
Messrs. MacEwen and Reed will cover the slough completely where it passes through the property they still retain. They then will put up an arcade building running from the lot line to the board walk. Each side of the arcade will have store rooms.

The sales made this week advance the price of unimproved beach front property \$47 per front foot. The record for improved land was established several weeks ago when Fred A. Leach sold 50 feet of the dance hall property to Joseph Farrell of San Diego and Laguna Beach for \$20,500 or \$410 per front foot. More than \$100,000 has changed hands on business property through the Leach firm since April, which is a record.

## Tea and Tiffin Has Fine Cuisine

Central in its location, described as being "in the Heart of Our Village," unique in its interior decoration and appointments, and with a cuisine unequalled anywhere, the Tea and Tiffin is a mecca for the visitor who seeks a charming place to supply the wants of the "inner man" with either a light lunch or a more elaborate dinner. Miss Alice Parker, who is the genial proprietress, gives personal supervision to the establishment, and her corps of trained and experienced assistants assures service of the highest standard.

## 'Get the Facts' Is Realtors' Slogan

Cravath and Hall have as their slogan: "Get the Facts," and in all their dealing with prospective clients they have adhered to the principle embodied in that slogan, feeling that anyone with money to invest in Laguna Beach real estate is entitled to know all of the conditions surrounding their contemplated purchase. Both members of the firm have been residents of Laguna Beach for years, "Gavy" Cravath in particular being in the category of pioneers, and they are therefore well qualified to speak with positive knowledge of real estate values. They occupy handsomely furnished and commodious offices in the Murphy building and have a corps of efficient salesmen associated with them.

## Laguna Hotel Has Fine Management

Under the efficient management of F. W. and J. R. Conkey, experienced for many years in public service, the Laguna Beach hotel has attained a merited approval among the many who come to Laguna Beach for either a brief or an extended stay. The Conkeys renovated both exterior and interior of the building, adding materially to the comfort and convenience of their guests. It is also the depot of the Pacific Coast Motor Coach company, which has a daily bus service through Laguna Beach from San Juan Capistrano to Balboa, connecting there with the Pacific Electric to Los Angeles.

## Jahraus Realtors For Development

Elmer E. Jahraus has been so closely identified with the history of Laguna Beach that his name is a synonym for responsibility and integrity in all matters pertaining to real estate in that section. He is among the pioneers who have labored long and persistently for the development of the beach town, and no public movement of any substantial and commendable nature has failed of his earnest support and cooperation.

## WHISLER & SON IS UP TO DATE STORE

As all must eat in order to live, and as the most people desire to live their allotted three score and ten with the greatest degree of satisfaction so far as gastronomic needs are concerned, it surely behooves one to get the best there is in the line of eatables. Whisler and Son, whose commodious and fully equipped grocery store is on Forest avenue, carries none but the best in staple and fancy groceries, specializing in palatable viands particularly appropriate for beach appetites. They quote such attractive prices as to induce more than one visit to their store.

## Ice Company Has Growing Business

Realizing that the rapidly increasing growth of the town fully justified an industry of this character, the Pacific Coast Ice company was recently formed and a modern ice making plant installed on the edge of town, just at the entrance of the Canyon road. They are now supplying the needs of the community with the very best quality of distilled water and ice made from the same pure product. Visitors are welcome at the plant as the management are desirous of having the people see how their product is made, and assure themselves of its unsurpassed quality.

## Excellent Line Kept by Grocery

Carrying a line of fresh meats and groceries equal to that of stores in the larger cities, the Power Grocery company has long enjoyed the patronage of a wide circle of satisfied patrons. The store is equipped with its own refrigerating plant, the quality of meats are the highest standard, and the grocery department specializes in a wide variety of imported and domestic viands of the finest quality.

## Hardware Store Has Complete Line

Some months ago G. Robert Parker purchased the hardware business established here by S. Hill and Son, of which he was manager, put in a stock of such character and variety as to answer the particular needs of this community, and has built up a business commensurate with his experience and knowledge. A complete line of kitchen furnishings, including supplies for the bath room and laundry, makes this establishment one in which the wants of the housewife can be supplied in a most satisfactory manner.

The largest perfect bell in the world is in a temple as Osaka, Japan. It weighs 200 tons.

## Quat's Arts Has Fine Reputation

When the desire for something special in the way of a dinner is felt, Laguna Beach can readily supply it, for the Italian dinners served by McDonald and Palmer in their attractive Quat's Arts room in the Laguna Beach hotel are on a par with the same character of meals served in the larger cities, in fact, many visitors have gone on record as asserting that they are superior to those served in Los Angeles. The location is especially charming, facing the ocean, and the interior decorations are pleasingly unique and attractive.

## Lumber Company Carries Big Line

Very few towns, even much larger than Laguna Beach, can boast of a lumber yard of such magnitude and so completely equipped as the Laguna Beach Lumber company. Everything needed by the contractor and carpenter, from the foundation to and including the roof, together with the hardware and paint, is always on hand in ample quantities. In addition this firm carries a full line of kitchen utensils, stores, etc., and as a special accommodation to the artists, all the needed oil and water colors and artists' supplies.

## Print Shop Moved Into New Building

"The Printer of Laguna" recently moved his plant into a reinforced concrete and stucco building on Normaid, at Second street, and also has installed a press with an automatic feeder. The building is in conformity with the artistic ideals of Laguna Beach, and the product of the shop is essentially the work of a master printer.

**RATTLESNAKES PLENTIFUL.**  
JACKSON, Calif., June 23.—Rattlesnakes are numerous in the vicinity of Butte mountain. Recently a woodshopper employed by Joseph Ratto killed two large ones, the largest having 13 rattles and a button. One of the snakes was so bold as to enter the woodshopper's cabin and the other was coiled in a corner of a barn.

## RICH MAN'S DEATH MYSTERY UNSOLVED

SAN FRANCISCO, June 23.—Verdict of a coroner's jury at Colma has left unsettled the mystery of the death of Charles M. Woods, wealthy oil man found dead at the foot of Usea cliff near here Friday.

"Death from suicide or possible foul play: do not know whether suicidal or homicidal," the jury said.

Insurance company's attorneys quizzed autopsy surgeons and Dr. L. E. Phillips, family doctor of the Woods, in an effort to bring out

facts which would support a theory of suicide.

Dr. Phillips declared Woods had never been melancholy although he admitted he had not examined the oil man for a year and a half. Dr. Phillips declared the head showed marks of having been struck with a blunt instrument.

Autopsy surgeons confirmed the blow on the head and said Woods had died by drowning after being struck.

A stenographer and a hat boy testified that when they had last seen Woods Tuesday he was in a jovial mood. The girl added he was planning a trip to Taft.

Woods was shown to have been carrying a large sum of money with him when he disappeared, together with important papers. No money and only an insurance policy were in his clothes when the body was recovered.

# Henshaw Vice-President of South Coast Association

## HAS OFFICE IN SOUTH COAST ORGANIZATION

H. H. Henshaw, of Laguna Beach, Vice President of Reorganized Body

H. H. Henshaw, chairman of the building committee of the Laguna Beach Chamber of Commerce, was elected third vice president of the reorganized South Coast association at a meeting held at the Newport Harbor Yacht club. Harry Welch, secretary of the Orange County Harbor Chamber of Commerce, will hold a like position in the Coast body. J. A. Armitage of Huntington Beach, was elected president; R. D. Richards of Seal Beach, first vice president, and J. P. Greeley, Balboa, second vice president. Welch also will serve as treasurer.

The organization was formed to promote the advantages of all points on the south coast of California by joint advertising.

Mr. Armitage said that many plans for advertising had been suggested and he believed that it should be left to a special committee. Upon approval he appointed Messrs. Henshaw, Greeley, William Templeman of Seal Beach, C. P. Patton of Huntington Beach, and F. Winterbourne of Capistrano.

Mr. Richards pointed out the need for study of plans for roads north and south of Long Beach and connections with the Coast line highway. Mr. Templeman and Benjamin Funcheon of Newport Beach were named as a committee to make a report.

J. F. Malcom of Capistrano gave an interesting talk on the value of the proposed San Juan Capistrano Bismarck road. Mr. Templeman and Dr. C. G. Huston of Costa Mesa will investigate conditions and make a report.

It was agreed to hold meetings on the second Friday of each month.

The secretary was instructed to request the State Highway commission to fix up the road between Corona Del Mar and the bridge over the channel leading to the lagoon, which is in frightful condition and is keeping hundreds of cars from using the Coast highway.

All of the committees will make their reports in writing so that a comprehensive record of progress may be made.

At the meeting of the Chamber of Commerce in Laguna Beach last Friday a \$5 membership for Mr. Henshaw in the South Coast asso-

ciation was approved by the directors.

Other well known South Coast men present at the meeting were J. H. Morrison of Seal Beach, L. S. Wilkinson, George P. Wilson and Lew H. Wallace of Newport Beach, and H. Halladay and Fred J. Lyon of Capistrano.

"Our principal aim is to educate the people of California and the tourists to the advantages of the South Coast towns and cities," said Mr. Henshaw after the meeting. We will endeavor to interest a large percentage of the summer and winter tourists in a trip along the coast line from Seal Beach to San Juan Capistrano and to advertise in such a way that all residents of California, particularly those in the Southland, will want to visit us. This advertising can be done in a much larger way by joining forces."

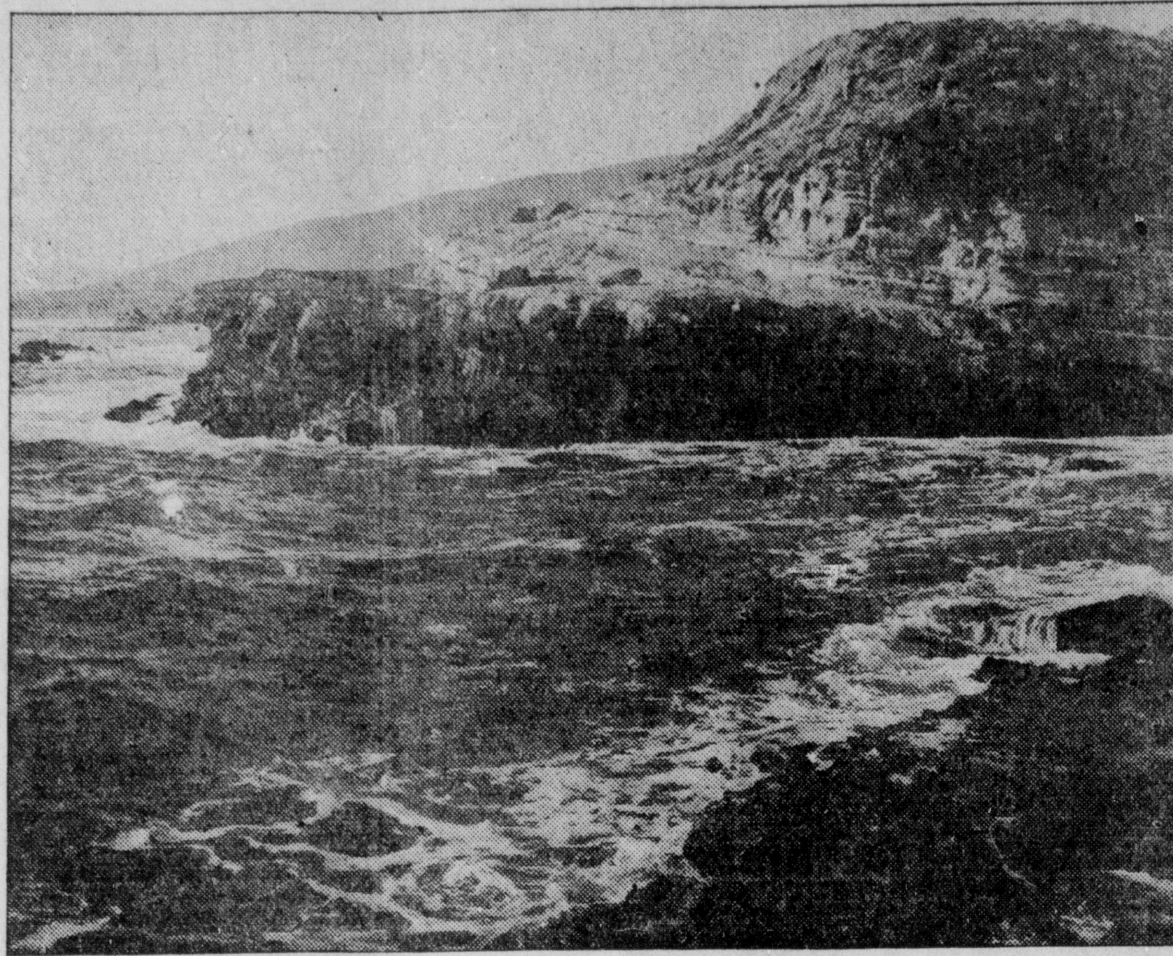

It was pointed out at the meeting that the folders advertising Orange county devote more space to the interior towns because of the larger population centers.

## Expert Mechanics Have Beach Shop

Henning and Gregory are filling a long felt want in Laguna Beach with their repair shop, located in the Benson building. Both members of the firm are experienced mechanics and can do any job of carpenter work or furniture repairing with neatness and dispatch. Locksmithing and key fitting is one of their specialties.

A whale caught off the shores of Greenland not long ago had in its body the head of an old harpoon, which experts estimate must have been there for fifty years at least.

## LAGUNA'S FAMOUS COAST LINE

Perhaps no where along the Pacific coast is there any more beautiful scenery than at Laguna Beach. It has been the inspiration for many beautiful paintings by artists of national and international fame. The above scenes are taken at random at the artists' colony.

## SCENE IN LAGUNA CANYON

To the motorist there is no more artistic drive than that through Laguna Beach canyon. The trip from Irvine over the hills is one of beauty as it dips towards the ocean. The above picture shows one of the beauty spots.

## The Public Forum

Communications under this heading must be signed by the name of the writer. These communications express the opinions of those who write them. The opinions may or may not be the opinions of The Register.

### Thurston Again Protests Against The Highway Commission's Routing of Coast Boulevard

Editor Register:—May I have a little space in your good paper to present a matter of importance to the people of Orange county?

Is the coast line of Laguna Beach to be destroyed? Are the people of Orange county aware of the fact that there are forces endeavoring to destroy one of the most beautiful places on the entire coast of Orange county?

The coast line and the hills lying back of it for a distance of ten or fifteen miles (commonly known as Laguna Beach) are an asset to Orange county and the making of a very important factor in this county.

Laguna Beach is not only an art colony—though it has attracted world wide attention as such—but people of culture in every walk of

life are coming here. They are coming here from all over the United States, in spite of the fact that we haven't the accommodations that they are entitled to.

Why do they come? Because they like to live here; because they find something that they have not been able to find elsewhere. People of wealth are coming here, and when we can give them the accommodations they demand this place will begin a transformation that will make it one of the finest and most beautiful residence places in Southern California.

And WE of Laguna Beach are working hard to bring about the time when Orange county will be proud to recognize the fact that we are within her borders. But are you, the people of Orange county,

aware of the fact that you are joining hands with the Highway Commission of the great State of California, not to protect but to destroy your birth right? You have a gem, a precious gem set along your ocean shore by the hand of God. Are you willing to see it needlessly and wantonly destroyed? Are you willing to trade your birthright for a mess of pottage? I do not believe you will do so if you know the facts, and I am willing to give you the facts.

If the highway is built along the lines that the state engineers would like to have it built, by tearing out the bluff for a distance of fifteen hundred feet or more at one of the most vital spots on this coast, separating the main land from the sea shore, where thousands of people congregate to go onto the beach, where they have a right to expect to be allowed to play and enjoy themselves in safety, it will not only be a crime against this coast and against private property, but it will be a serious reflection against every man who has anything to do with it.

More than this, some one is going to get NEDLESSLY killed. Somebody's child is going to start to walk across the road to get to the beach and is going to get run over by an automobile and killed. Somebody's lover and somebody's

mother is going to get killed. AND THE PEOPLE OF ORANGE COUNTY WHO ALLOWED THIS TO BE DONE ARE GOING TO BE RESPONSIBLE FOR IT.

If there were no other way, it would be far from me to make any attempt to block the road. But there is another way, and it is a practical way, where it can be built at a small cost and will not do any serious damage to anyone, and can be built in such a way that it will be one of the safest roads in this great county of Orange.

I will be glad to meet any criticisms, any delegations from the Chambers of Commerce, the Realty Board, the Woman's Club or from the farms, and will take the chance of proving my point, showing that I know whereof I speak.

JOSEPH S. THURSTON.

An unusual record in longevity is furnished by the case of a woman in England aged seventy. Her grandfather was seventy when his first son was born, and his son was seventy when his daughter was born. The grandfather of this living woman was thus born two hundred years ago.

The popularity of June as a month for marriage is inherited from the Greeks and Romans. The goddess Juno, to whom the month was dedicated, was the patronage of marriage.

The Greek Pytheas, who made a voyage of discovery northwards in 325 B. C., is believed to have been the first traveler of history who probably approached the Arctic circle and reached the land of the midnight sun.

Ninety per cent of the foreign correspondence clerks employed by big export firms in Great Britain are foreigners, many of whom work for little or no wages in return for the knowledge and experience they pick up.

# SCIENCE PLANS TO MEET QUAKE DANGER IN N. Y.

NEW YORK, June 23.—New York city, with the earthquake of February 23 at its back and facing the possible visitation of future earth shocks perhaps more widespread and destructive than the one which shook skyscrapers here, is a party of vital interest in the studies being made to meet the earthquake situation scientifically.

A subcommittee of the Engineering Economics foundation, which has devoted several years to the intensive study of earthquake hazards and the bases of prevention of disaster by effective public action, is now working with the foundation on the problem.

The personnel of the New York committee diagnosing the situation here includes John A. Stevenson, Col. W. A. Starrett, Governor Clarkson, formerly director of the council of national defense; Richard J. Walsh and Ralph J. Hess.

In Quake Zone  
Contrary to the easy assumption of the man on the street that the city is immune from earth tremors, New York and New England are in an earthquake zone. Because of the dense population of the metropolitan district, the possibility of an earthquake shaking the foundation of New York becomes fraught with extreme danger unless the best methods known to science are enlisted against the natural enemy.

Fully 75 per cent of the property loss and personal suffering in Tokio might have been averted with proper understanding of fire fighting, transportation, food supply, panic prevention and control, and other problems presented by an earthquake emergency, it is said.

It is the purpose of the foundation, in addition to its basic work of determination of earthquake hazard and means of prevention, to diagnose the situation of New York with regard to earthquake emergency. Following diagnosis will come prescription of treatment, but the taking of the treatment always must be left to local initiative. Foretelling of disaster in New York city in event of an earthquake shock would depend on the patient as much as the taking of any preventive measures in preventive medicine.

Danger in Filled Ground  
"No one can say that New York is geologically immune to such happenings as the Charleston earthquake of 1886," Dr. Jagger, senior fellow of the foundation in geophysics, stated in a recent magazine article.

Zones of earthquake origin in the northeastern district as charted by Prof. Mather are four in number. They are Long Island sound, the Connecticut valley, the St. Lawrence valley, and the Bay of Fundy.

These zones lie close enough to such cities as New York, Boston, Montreal, Quebec, and St. John to constitute a real source of danger during the period of shock. The risk, however, is in the homes of men in the filled ground of the cities and in the minds of men crowded together in narrow spaces, the scientists point out.

The earthquake risk for dwellers in New York lies largely in the construction of the buildings, subways, storehouses for gas and other combustibles, and the underground water supply system. A "spasm" which in the open prairie merely might shake the ground violently for a few minutes in New York perhaps would make the towering skyscrapers into one vast mound to serve as a grave for the crushed humans beneath.

Seek New Scientific Data  
The foundation hopes to substitute the fatalistic attitude of the ordinary man. "Well, if the earthquake is going to come, it will come," with scientific knowledge and an adequate program of preparation.

## 1925 Budget for L. A. County Calls For Huge Amount

LOS ANGELES, June 24.—The budget for Los Angeles county for the fiscal year of 1925-26, which will be voted by the county board of supervisors next Monday, calls for a \$5,000,000 increase in salaries and items of maintenance of county offices.

The budget, which was presented to the supervisors yesterday, calls for a total expenditure of \$22,491,522. This amount is considered the largest of any county in the world.

The total of salaries on the new budget is \$9,126,620, as compared with \$7,696,647 for last fiscal year. County charities, hospitals and institutions of correction receive the largest quota. They will be allowed \$6,769,555, as compared with \$5,586,451 in last year's budget.

Other offices and their comparative salaries are: County surveyor's office, 1925, \$617,502, 1926, \$489,655; County auditor's office, 1925, \$326,277, 1926, \$247,270; District attorney's office, 1925, \$325,277, 1926, \$298,251; County health department, 1925, \$320,995, 1926, \$207,700.

## Charges Against 'Wolf' Are Dropped

LOS ANGELES, June 24.—John L. Worthington, "wolf of Lasalle street" will probably never pay the penalty for trifling with the law. Department of justice agents here have announced they had dropped extradition proceedings and would leave the "Lone Wolf" in Mexico.

Physicians who examined Worthington said he would die if taken from Punta Banda, near Ensenada. The fugitive was living in a tent at the resort town taking mud baths, the doctors said.

Worthington was convicted of bucket shop operations in Chicago and sentenced to three years in federal prison. Sentence was deferred because of his health.

Domestic servants emigrating from the British Isles to New Zealand are forbidden to marry until they have been two years in their new home.

Sugar cane is harvested today in the same primitive manner that it was thirty centuries ago.

**Legal Notice**  
**COUNTY OF ORANGE**  
Notice to Building, Plumbing and Heating Contractors.

389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Each bid must be accompanied by a certified check or a cashier's check for ten per cent (10%) of the total amount of said bid made payable to the County of Orange, as a guarantee that the bidder, if awarded the contract, will enter into a written contract for the performance thereof satisfactory to said Board of Supervisors of Orange County, California, and in addition thereto the successful bidder will be required to file a bond in the sum of twenty-five per cent (25%) of the amount of the contract, with sureties satisfactory to said Board of Supervisors as a guarantee of faithful performance of the contract, and a further bond in the sum of fifty per cent (50%) of the amount of the contract, with acceptable sureties to secure the payment of laborers, material, men, etc. Each bid shall be sealed, submitted, received and filed on or before July 11, 1925, at 12 o'clock, noon, in the office of the Clerk of the Board of Supervisors of Orange County, California, and sealed copies thereof shall be filed by the bidders on or before said date and time with the Clerks of the respective Boards of Supervisors of Orange and Imperial Counties respectively. Said original bids so submitted, received and filed at the office of the Clerk of the Board of Supervisors of Orange County, California, and at the office of the Clerk of the Board of Supervisors of Imperial County, California, shall be duly publicly opened and read by the Board of Supervisors of Orange County at the Board Room thereof in the Court House in the City of Riverside, County of Orange, California, on the 15th day of July, 1925, at the hour of ten o'clock, A. M. and said sealed copies filed with the Clerks of the respective Boards of Supervisors of Orange and Imperial Counties shall not be opened prior to ten o'clock, A. M. of July 15, 1925.

The above mentioned certified check or cashier's check shall be given as evidence that the bidder will enter into a written contract after being requested to do so in writing by the Board of Supervisors of Orange County, California.

The Board of Supervisors of Orange County, together with the Board of Supervisors of Riverside County, California, and the Board of Supervisors of Imperial County respectively, reserve the right to reject any and all bids not deemed advantageous to said Counties.

By order of the Board of Supervisors of Orange County, State of California, made this 14th day of June, 1925.

T. B. TALBERT, Chairman.

J. M. BACKS, County Clerk and ex-Officio Clerk of the Board of Supervisors of Orange County, California.

# A LAUGH FOR EVERYBODY

MOM'N POP

HELLO MR. TYTE—GOING DOWN THE STREET?—I'M DRIVING THAT WAY

THANKS BUT I'M ONLY GOING AS FAR AS THE RESTAURANT FOR A BITE TO EAT

YOU GO TO LUNCH EARLY DON'T YOU? IT'S ONLY TEN THIRTY!

WELL I'M SAVING A LITTLE TODAY BY EATING EARLY BEFORE MY APPETITE COMES ON

I CAN'T SEE HOW YOU'LL SAVE ANYTHING—YOU'LL EAT JUST TWICE AS MUCH FOR DINNER WON'T YOU?

YOU BET I WILL—

—BUT YOU SEE I'M INVITED OUT TONIGHT!

## RANGE MATCH DEF SENT TO PASADENA

A formal challenge to the Pasadena police pistol team for a "shoot" has been sent to Pasadena by Chief of Police Claude Rogers, of the Orange county pistol squad.

The Pasadena team has been asked to meet the local crack shots on the Orange county range, near Olive, Friday afternoon, at 1:30 o'clock.

Orange county was defeated by the Pasadena team several months ago in a shoot held there. It was the first experience local peace officers had ever had on the range.

Since that time, however, they have practiced regularly and Rogers said today that he was of the opinion the Orange county team undoubtedly would make a good showing against their more experienced rivals.

Plans also are on foot for several match shots to be held in the county throughout the summer months, the Los Angeles and other Southern California teams to be invited later in the season.

FALL OF THE MIGHTY.

J. R. WILLIAMS
